

**MARK SCHEME for the May/June 2012 question paper  
for the guidance of teachers**

**9706 ACCOUNTING**

**9706/41**

Paper 4 (Problem Solving – Supplement),  
maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2012 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

	<b>GCE A LEVEL – May/June 2012</b>	<b>9706</b>	<b>41</b>

- (d) Total capital is \$60 200 × 2 = 120 400 **1**, split 3:2 is  
72 240 shares for Avtandil **10F**  
48 160 shares for Damir **10F**

Working;

	\$	
Motor vehicle	17 000	<b>1 for both</b>
Inventories	<u>19 120</u>	
	36 120	
Cash	<u>24 080</u>	<b>1</b>
	<u>60 200</u>	<b>1</b>

[6]

**[Total: 40]**

- 3 (a) The purpose of standard costing is to help management in the planning and control of the business **1** and links with the budgetary control system **1**. It provides a benchmark to measure actual performance **1** and identifies areas where savings could be made. **1** [4]

(b)

	\$	
Materials	48.00	<b>1</b>
Labour	22.50	<b>1</b>
Overheads	10.50	<b>1</b>
Total Cost	<u>81.00</u>	<b>1</b>
Margin	<u>19.00</u>	
Selling Price	<u>100.00</u>	<b>30F</b>

[7]

- (c) (i) Sales price variance: \$102.50 – \$100.00 **10F** × 5 100 = \$12 750 F **20F + 10F** [4]  
(ii) Sales volume variance = 100 × \$100 = \$10 000F **2** [2]  
(iii) Material price variance = \$0.25 × 43 460 = \$10 865 A **2** [2]  
(iv) Material usage variance = 1 060 × \$6 = \$6 360 A **2** [2]  
(v) Labour rate variance = \$0.25 × 15 500 = \$3 875A **2** [2]  
(vi) Labour efficiency variance = 400 × \$7.50 = \$3 000F **2** [2]

- (d) Sales volume – Increase in demand for product **1**  
Sales Price – Ability to charge higher price because of increased demand **1**  
Material price – Increase in cost of material because of change in supplier **1**  
Material usage – more waste than expected. **1**  
Labour rate = Pay increase or decrease / different grade of labour employed **1**  
Labour efficiency = More skilled staff / different materials used which may effect efficiency **1** [6]
