2 Jacques is a sole trader.

On 31 January 2019, the balance on the bank statement was \$1875 debit. This did not agree with Jacques's cash book balance of \$4327 credit.

The following transactions were included **only** on the bank statement.

- 1 A payment for wages of \$850.
- 2 A transfer of \$3500 from Smith, a credit customer.

The following transactions were included **only** in the cash book.

- 1 A cheque payment to a supplier for \$340.
- 2 A receipt of \$560 from a customer.

The following errors have also been identified.

- 1 A direct debit payment for insurance of \$180 had been incorrectly recorded on the bank statement as \$108.
- 2 A standing order for electricity of \$175 had been incorrectly recorded in the cash book as \$275.
- 3 Bank interest paid of \$75 had been recorded as interest received in the cash book.

REQUIRED

(a) Prepare the updated cash book at 31 January 2019. Dates are **not** required.

- 3 Adam, Bilal and Chan operate a partnership providing secretarial services. The partners have no formal partnership agreement.

The following balances are extracted from the trial balance at 31 December 2018.

	Debit \$	Credit \$
Fees revenue received		152 000
Business operating costs	76 000	
Capital accounts		
Adam		30 000
Bilal		20 000
Chan		10 000
Current accounts		
Adam		36 000
Bilal	4 000	
Chan		12 000
Trade receivables	27 000	
Loan account: Bilal		80 000
Motor vehicles at net book value	96 000	

REQUIRED

- (a) Calculate the profit for the year ended 31 December 2018 before appropriation.

.....

.....

.....

.....

..... [1]

- (b) Calculate the share of profit appropriated to Bilal for the year ended 31 December 2018.

.....

.....

.....

.....

..... [1]

Additional information

On 1 January 2019, Bilal decided to retire from the partnership. The partners agreed the following.

- 1 Bilal was to retain one motor vehicle. The net book value of the motor vehicle was \$36 000 but it was agreed to transfer it to Bilal at a value of \$30 000.
- 2 The remaining motor vehicles were to be revalued upwards by 5%.
- 3 An irrecoverable debt of \$2000 was to be written off and a provision for doubtful debts of 4% was to be made.
- 4 Goodwill was to be valued at \$24 000.
- 5 Bilal agreed to leave \$45 000 in the partnership as a loan at 8% per annum interest. The remaining balance due to Bilal was to be paid from the partnership bank account.

REQUIRED

(c) Prepare the revaluation account at 1 January 2019.

PLEASE TURN OVER

- 4 D Limited is a large company and operates from several sites. It uses different systems of costing for its different sites.

REQUIRED

- (a) State **three** advantages to a business of using a system of absorption costing.

1

.....

.....

2

.....

.....

3

.....

.....

[3]

Additional information

At one of its sites the company specialises in printing brochures and leaflets for local organisations. At this site it uses a system of absorption costing.

There are two production departments: Assembly and Printing and two service departments: Technical support and Personnel.

The following information is available.

	Production departments		Service departments	
	Assembly	Printing	Technical support	Personnel
Floor area (square metres)	90	70	15	5
Power (kilowatt-hours)	120	320	40	20
Replacement cost of machinery and equipment (\$)	105 000	30 000	12 000	3 000
Number of employees	20	15	5	
Technical support hours	400	60		

The following budgeted overhead costs for August 2019 are still to be apportioned.

	\$
Electricity	20 500
Insurance of machinery	7 500
Insurance of buildings	11 880

REQUIRED

(b) Complete the following table to show the apportionment of budgeted overhead costs for August 2019.

Apportionment of overheads

	Total \$	Production departments		Service departments	
		Assembly \$	Printing \$	Technical support \$	Personnel \$
Overheads already apportioned	40 210	17 530	11 360	5 020	6 300
Electricity					
Insurance of machinery					
Insurance of buildings					
Total overheads apportioned					
Reapportionment of personnel overheads					
Reapportionment of technical support overheads					

[7]

Additional information

The following budgeted information is also available for August 2019.

	Assembly	Printing
Direct labour hours	3200	2000
Direct machine hours	1400	5500

REQUIRED

(c) Calculate an overhead absorption rate for **each** production department using an appropriate basis.

.....

.....

.....

.....

.....

.....

.....

.....

..... [4]

Additional information

The company received an order for a set of brochures to be produced in August 2019. It was budgeted that this order would require the following:

Direct material and labour cost	\$1330
Direct labour hours	
Assembly department	12.5 hours
Printing department	7.2 hours
Machine hours	
Assembly department	5.5 hours
Printing department	6.0 hours

The company requires a profit margin of 25% on all orders.

REQUIRED

(d) Calculate the budgeted profit on this order.

.....

.....

.....

.....

.....

.....

.....

..... [4]

Additional information

The actual time taken in each production department for this order was as follows:

	Assembly department	Printing department
Direct labour hours	11	6.5
Machine hours	6	8

REQUIRED

(e) Calculate the **total** over or under-absorption of overheads **for this order**. Clearly show in your workings over-absorption or under-absorption of overheads in **each** department.

.....

.....

.....

.....

.....

.....

.....

.....

..... [5]

Additional information

At a second site, D Limited manufactures garden chairs and uses a system of marginal costing. There are three models: basic, super and deluxe. Total budgeted fixed costs per annum are \$234 000. Budgeted direct labour hours are 156 000 per annum. Fixed overhead costs are absorbed on the basis of direct labour hours.

The following forecast figures are available for September 2018.

	Basic	Super	Deluxe
Contribution per chair	\$3	\$9	\$12
Direct labour hours per chair	3	4.5	5.5

A director has suggested that production of the model which provides the least profit should be discontinued and resources switched to the production of the other models.

REQUIRED

- (f) Recommend whether or not production of the model which provides the least profit should be discontinued. Justify your answer using **both** financial and non-financial factors.
