Additional information

The directors are aware of an upward trend in the direct material price. To keep the current profit level, they have two options.

Option 1 Modify the existing product so that it requires less direct material.

Option 2 Reduce the advertising cost by one-third.

(f) Advise the directors which option they should choose. Justify your answer.

2 Read Source B in the insert.

(a) Calculate:

(i) the net present value (NPV)

[4]

(ii) the internal rate of return (IRR)

[5]

(iii) the accounting rate of return (ARR).

[3]

[3]

The directors adopt the NPV method for this investment appraisal and are about to make the decision to buy the machine. The sales manager, however, thinks that the annual estimated sales revenue may be only \$380 000. All other information will remain the same.

(b) Discuss whether the directors should be concerned about the uncertainty over the estimated sales revenue. Support your answer with calculations.

[6]

Additional information

The directors are preparing the cash budget for Year 4. They have two options available for an amount of \$80 000.

Option 1 Continue to manufacture Product A for two more years by launching a promotional campaign. (Despite the machine being fully depreciated, it can continue to be used for two more years.)

Option 2 Start designing a new product, Product B, to be launched in Year 5.

(c) Advise the directors which option they should choose. Justify your answer.
