

**CAMBRIDGE INTERNATIONAL EXAMINATIONS**

Cambridge International Advanced Subsidiary and Advanced Level

## **MARK SCHEME for the October/November 2014 series**

### **9713 APPLIED INFORMATION AND COMMUNICATION TECHNOLOGY**

**9713/02**

Paper 2 (Practical Test A), maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

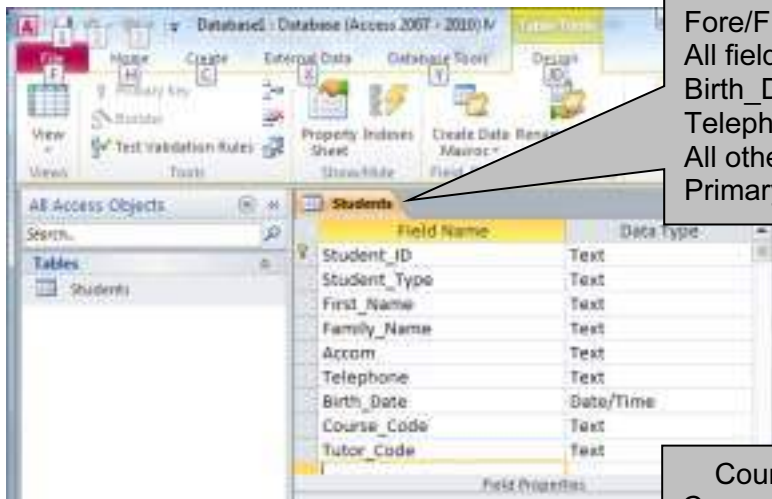

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2014 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

**Evidence document**

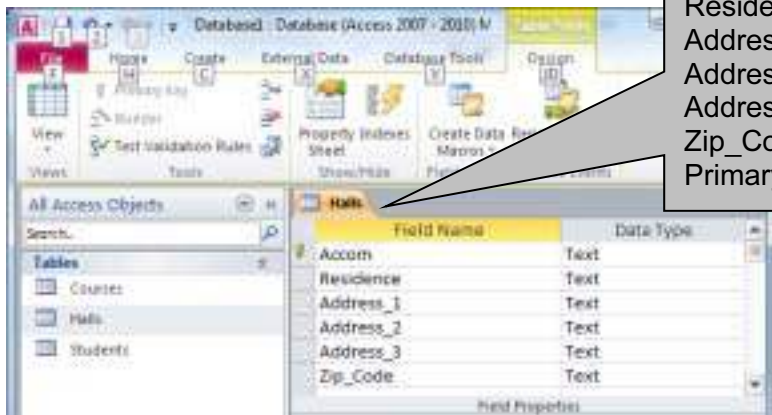

Students Table created

Correct table name	1 mark
Student_ID	1 mark
Fore/First_Name	1 mark
All fieldnames as specified	3 marks
Birth_Date as Date field	1 mark
Telephone field set to alphanumeric	1 mark
All other field types all alphanumeric	3 marks
Primary key created on Student_ID field	1 mark

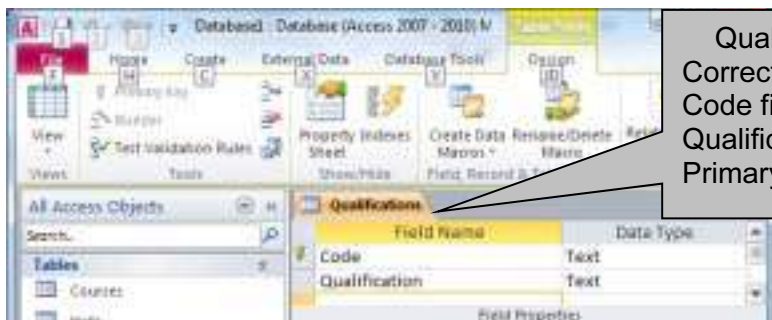

Courses Table created

Correct table name	1 mark
Faculty field set alphanumeric	1 mark
Code field set alphanumeric	1 mark
Award field set alphanumeric	1 mark
Full_Time field set as Boolean	1 mark
Course_Title field set alphanumeric	1 mark
Primary key created ...on Code field	1 mark

Halls Table created

Correct table name	1 mark
Accom field set alphanumeric	1 mark
Residence field set alphanumeric	1 mark
Address_1 field set alphanumeric	1 mark
Address_2 field set alphanumeric	1 mark
Address_3 field set alphanumeric	1 mark
Zip_Code field set alphanumeric	1 mark
Primary key created ...on Accom field	1 mark

Qualifications Table created

Correct table name	1 mark
Code field set alphanumeric	1 mark
Qualification field set alphanumeric	1 mark
Primary key created on Code field	1 mark
