

Cambridge International AS & A Level

BUSINESS**9609/11**

Paper 1 Short Answer/Essay

October/November 2024**MARK SCHEME**

Maximum Mark: 40

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2024 series for most Cambridge IGCSE, Cambridge International A and AS Level components, and some Cambridge O Level components.

This document consists of **29** printed pages.

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptions for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

PUBLISHED**Social Science-Specific Marking Principles
(for point-based marking)****1 Components using point-based marking:**

- Point marking is often used to reward knowledge, understanding and application of skills. We give credit where the candidate's answer shows relevant knowledge, understanding and application of skills in answering the question. We do not give credit where the answer shows confusion.

From this it follows that we:

- a** DO credit answers which are worded differently from the mark scheme if they clearly convey the same meaning (unless the mark scheme requires a specific term)
- b** DO credit alternative answers/examples which are not written in the mark scheme if they are correct
- c** DO credit answers where candidates give more than one correct answer in one prompt/numbered/scaffolded space where extended writing is required rather than list-type answers. For example, questions that require n reasons (e.g. State two reasons ...).
- d** DO NOT credit answers simply for using a 'key term' unless that is all that is required. (Check for evidence it is understood and not used wrongly.)
- e** DO NOT credit answers which are obviously self-contradicting or trying to cover all possibilities
- f** DO NOT give further credit for what is effectively repetition of a correct point already credited unless the language itself is being tested. This applies equally to 'mirror statements' (i.e. polluted/not polluted).
- g** DO NOT require spellings to be correct, unless this is part of the test. However spellings of syllabus terms must allow for clear and unambiguous separation from other syllabus terms with which they may be confused (e.g. Corrasion/Corrosion)

2 Presentation of mark scheme:

- Slashes (/) or the word 'or' separate alternative ways of making the same point.
- Semi colons (;) bullet points (•) or figures in brackets (1) separate different points.
- Content in the answer column in brackets is for examiner information/context to clarify the marking but is not required to earn the mark (except Accounting syllabuses where they indicate negative numbers).

3 Calculation questions:

- The mark scheme will show the steps in the most likely correct method(s), the mark for each step, the correct answer(s) and the mark for each answer
- If working/explanation is considered essential for full credit, this will be indicated in the question paper and in the mark scheme. In all other instances, the correct answer to a calculation should be given full credit, even if no supporting working is shown.
- Where the candidate uses a valid method which is not covered by the mark scheme, award equivalent marks for reaching equivalent stages.
- Where an answer makes use of a candidate's own incorrect figure from previous working, the 'own figure rule' applies: full marks will be given if a correct and complete method is used. Further guidance will be included in the mark scheme where necessary and any exceptions to this general principle will be noted.

4 Annotation:

- For point marking, ticks can be used to indicate correct answers and crosses can be used to indicate wrong answers. There is no direct relationship between ticks and marks. Ticks have no defined meaning for levels of response marking.
- For levels of response marking, the level awarded should be annotated on the script.
- Other annotations will be used by examiners as agreed during standardisation, and the meaning will be understood by all examiners who marked that paper.

9609 Business Studies - Paper 1 Annotations

Annotation	Description	Use
	Tick	Indicates a point which is relevant and rewardable.
	Cross	Indicates a point which is inaccurate/irrelevant and not rewardable.
	Knowledge	Indicates knowledge and understanding of the concepts and issues relating to the question.
	Application	Indicates where application is made to an appropriate business context.
	Analysis	Indicates where the answer has demonstrated analysis – questions 4, 5a, 5b, 6a and 6b.
	Evaluation	Indicates where the answer has demonstrated evaluation - (Section B Part (b) questions only).
	Benefit of doubt	Used when the benefit of the doubt is given in order to reward a response.
	Not answered question	Used when the answer or parts of the answer are not answering the question asked.
	Too vague	Used when parts of the answer are considered to be too vague.
	Noted but no credit given	Indicates that content has been recognised but not rewarded.
	Repetition	Indicates where content has been repeated.
	Level 1	Indicates a Level 1 point is made.

Annotation	Description	Use
 L2	Level 2	Indicates a Level 2 point is made.
 L3	Level 3	Indicates a Level 3 point is made.
	Off Page Comment	Used to view PE comments on Practice Scripts only – displayed at the bottom of the screen when clicking the comments button/toggle.

Guidance on using levels-based mark schemes

Marking of work should be positive, rewarding achievement where possible, but clearly differentiating across the whole range of marks, where appropriate.

The examiner should look at the work and then make a judgement about which level statement is the best fit. In practice, work does not always match one level statement precisely so a judgement may need to be made between two or more level statements.

Once a best-fit level statement has been identified, use the following guidance to decide on a specific mark:

- If the candidate's work **convincingly** meets the level statement, award the highest mark.
- If the candidate's work **adequately** meets the level statement, award the most appropriate mark in the middle of the range.
- If the candidate's work **just** meets the level statement, award the lowest mark.
- L1, L2 etc. must be clearly annotated on the response at the point where the level is achieved.

Assessment objectives**AO1 Knowledge and understanding**

Demonstrate knowledge and understanding of business concepts, terms and theories.

AO2 Application

Apply knowledge and understanding of business concepts, terms and theories to problems and issues in a variety of familiar and unfamiliar business situations and contexts.

AO3 Analysis

Analyse business problems, issues and situations by:

- using appropriate methods and techniques to make sense of qualitative and quantitative business information
- searching for causes, impact and consequences
- distinguishing between factual evidence and opinion or value judgement
- drawing valid inferences and making valid generalisations.

AO4 Evaluation

Evaluate evidence in order to make reasoned judgements, present substantiated conclusions and, where appropriate, make recommendations for action and implementation.

Mark Grids for Section A**Used for Q1(a), Q2(a) and Q3(a)**

Two marks in total can be awarded for these questions. Ticks (✓) are used to show where the candidate has been given these marks.

AO1 Knowledge and understanding	Marks	
Knowledge of the term that demonstrates a clear understanding of the term.	2	Indicated by 2 ✓ ✓ where appropriate in the answer
Knowledge of the term that demonstrates a partial understanding of the term.	1	Indicated by 1 ✓ where appropriate in the answer
No creditable response.	0	

Used for Q1(b), Q2(b) and Q3(b)

Three marks in total can be awarded for these questions. Ticks (✓) are used to show where the candidate has been given these marks.

AO1 Knowledge and understanding 1 mark	AO2 Application 2 marks
	2 marks Developed application of one relevant point to a business context. Indicated by a further ✓ where appropriate in the answer
1 mark Knowledge of one relevant point is used to answer the question. Indicated by 1 ✓ where appropriate in the answer	1 mark Limited application of one relevant point to a business context. Indicated by 1 ✓ where appropriate in the answer
0 marks No creditable response.	0 marks No creditable response.

Question	Answer	Marks
1(a) Define the term <i>zero budgeting</i>.	<p>Indicative content</p> <p>Responses may include:</p> <p>AO1 Knowledge and understanding</p> <p>Clear understanding of the term <i>zero budgeting</i> is worth 2 marks.</p> <ul style="list-style-type: none"> • budgets are automatically set to zero and budget holders must argue their case to receive any finance/funds (2) <p>Partial understanding of the term <i>zero budgeting</i> is worth 1 mark.</p> <ul style="list-style-type: none"> • budgets are set to zero (1) • budgets set without consideration of historical data (1) • potential costs evaluated from 0 each year (1) <p>Accept all valid responses.</p>	2

Question	Answer	Marks
1(b)	<p>Explain <u>one</u> cause of a favourable variance.</p> <p>Indicative content</p> <p>Responses may include:</p> <p>AO1 Knowledge and understanding 1 mark for identifying one cause of a favourable variance</p> <ul style="list-style-type: none"> • income higher than expected • increase in demand/sales • loss of competition • effective promotion • costs less than expected/decreased spending • profit higher than expected <p>AO2 Application 2 marks for developed application/explanation of the cause given 1 mark for limited application/explanation of the cause given</p> <ul style="list-style-type: none"> • actual sales <u>revenue</u> higher than budgeted sales revenue - economic boom leads to more sales than expected • advertisements increase sales and sales revenue is higher than budgeted • actual wages less than budgeted wages - wage rises lower than expected/less staff employed/less hours worked • lower material costs – motivated workers making less mistakes/less wastage • produced less, therefore spent less money on raw materials and labour <p>Accept all valid responses.</p>	3

Question	Answer	Marks
2(a) Define the term <i>sampling</i>. Indicative content Note: do not accept <i>test marketing</i> as a correct answer to this question. Responses may include: AO1 Knowledge and understanding Clear understanding of the term <i>sampling</i> is worth 2 marks. <ul style="list-style-type: none">selecting a group of people/customers to represent the population/customer base/target market as a whole (2) Partial understanding of the term <i>sampling</i> is worth 1 mark. <ul style="list-style-type: none">choosing a group of people (1)form of market research (1) Accept all valid responses.		2

Question	Answer	Marks
2(b)	<p>Explain <u>one</u> method of interpreting quantitative market research data.</p> <p>Indicative content</p> <p>Responses may include:</p> <p>AO1 Knowledge and understanding 1 mark for identifying one method of interpreting quantitative market research data.</p> <ul style="list-style-type: none"> • tables • charts – bar, pie • graphs – line • trend analysis/moving averages • arithmetic mean, mode and median • index numbers <p>AO2 Application 2 marks for developed application/explanation of one method. 1 mark for limited application/explanation of one method.</p> <ul style="list-style-type: none"> • direct comparison of numerical information in table with columns and rows – could use a spreadsheet • use charts and/or graphs to represent the information presented in a table – easy to read/analyse • compare size of segments in pie charts or heights of bars comparing actual figures collected • plot data on a graph and analyse change in trend over time/moving averages • percentage or actual changes shown over time, possibly with a forecast based on the data • calculate average/most frequent/middle of a set of results - allows focus on a more realistic figure than considering extremes • set a base year as the start of analysis and compare changes over time using index numbers <p>Accept all valid responses.</p>	3

Question	Answer	Marks
3(a)	<p>Define the term <i>résumé</i>.</p> <p>Indicative content</p> <p>Responses may include:</p> <p>AO1 Knowledge and understanding</p> <p>Clear understanding of the term <i>résumé</i> is worth 2 marks.</p> <ul style="list-style-type: none"> document/form/statement/template which summarises applicant's relevant job experience/achievements, education/qualifications and training (2) <p>Partial understanding of the term <i>résumé</i> is worth 1 mark.</p> <ul style="list-style-type: none"> Similar/separate to a CV (1) <p>Accept all valid responses.</p>	2

Question	Answer	Marks
3(b)	<p>Explain <u>one</u> reason why a business may produce a workforce plan.</p> <p>Indicative content</p> <p>Responses may include:</p> <p>AO1 Knowledge and understanding 1 mark for identifying one reason why a business may produce a workforce plan.</p> <ul style="list-style-type: none"> • planning for future labour requirements • help with budgeting • preparing for changes in external environment • predicts changes in current labour and skills needed <p>AO2 Application 2 marks for developed application/explanation of one reason 1 mark for limited application/explanation of one reason</p> <ul style="list-style-type: none"> • business can plan for redundancies, retirements, maternity/paternity leave, expansion of business, labour turnover • allows changes to workforce to be budgeted for – recruitment, training, wages • ensuring that they have the right employees in terms of numbers, work locations and skills • helps businesses to deal with changes (such as the impact of new technology or in consumers' tastes) • help businesses to prepare for changes in the workforce, such as the introduction of new production-line machinery • enabling businesses to meet their organisational objectives <p>Accept all valid responses.</p>	3

Question	Answer	Marks
4	<p>Analyse <u>one</u> benefit to a business of improving capacity utilisation.</p> <p>Note: no marks can be awarded if a relevant benefit is not given</p> <p>Indicative content</p> <p>NOTE: some candidates have interpreted improving capacity utilisation as preventing capacity shortages or reducing long-term excess capacity. This leads to answers that focus on saving costs. This is a valid response and should be marked and rewarded appropriately.</p> <p>Responses may include:</p> <p>AO1 Knowledge and understanding 1 mark for identifying one benefit to a business of improving capacity utilisation</p> <ul style="list-style-type: none"> • better use of factors of production/more efficient • more products made in same time/match production to demand • achieve output maximisation • take advantage of economies of scale • reduce inventory storage cost <p>AO2 Application 2 marks for developed application/explanation of the chosen benefit 1 mark for limited application/explanation of the chosen benefit</p>	5

Question	Answer	Marks
4	<ul style="list-style-type: none"> • no idle assets e.g. employees, premises, machinery, office space • spread fixed costs of business over more units e.g. running machinery, rent of premises/unit fixed costs will reduce • cope with increases in demand, no risk of stock out • buy more raw materials/components to gain discounts • opportunity cost of inventory stored but unable to be used • no wastage <p>AO3 Analysis 2 marks for developed analysis of the chosen one benefit 1 mark for limited analysis of the chosen one benefit</p> <ul style="list-style-type: none"> • business can be more competitive/increase market share • cost of producing each item will fall so can lower selling price or increase profit margins • increased flexibility to meet customer demand results in customer satisfaction • business can become more profitable as costs fall but sales increase • reduced inventory costs increases profits and allows money to be used elsewhere <p>Accept all valid responses.</p>	

Question	Answer	Marks
5(a) Analyse <u>two</u> limitations to a business of using a business plan.	<p>There are 8 marks in total for Q5(a) – 4 marks for each of the two reasons given:</p> <p>1 mark for K 1 mark for APP 2 marks for AN</p> <p>Indicative content</p> <p>Responses may include:</p> <p>AO1 Knowledge and understanding</p> <p>1 mark for giving one limitation to a business of using a business plan K</p> <ul style="list-style-type: none"> • plan is often set up before the business starts to run • plan may not be accurate/may be biased • plan may be unrealistic • business plan for a large business can be a very complex document • plans quickly become out of date/are short term • may cause inflexibility/over-reliance • reduce innovation • reveals future strategies to competitors • does not guarantee success <p>AO2 Application</p> <p>1 mark for application of one limitation APP</p> <ul style="list-style-type: none"> • must be based on market research but no past experience of running this business • an entrepreneur may not have business knowledge, just an idea based on a hobby • unrealistic expectations puts pressure on employees 	8

Question	Answer	Marks
5(a)	<ul style="list-style-type: none"> • a lot of time and effort is taken to produce a detailed business plan • external and internal circumstances may not be predictable and can change rapidly • owner may prefer to follow the plan rather than reacting to external influences and ideas • plan may be critiqued by other businesses <p>AO3 Analysis</p> <p>2 marks for developed analysis of one limitation L2 AN</p> <p>1 mark for limited analysis of one limitation L1 AN</p> <ul style="list-style-type: none"> • for a start-up business the plan might be weak due to inexperience or over-optimism of entrepreneur so will not help the business to make decisions • to be useful the plan must have accurate forecasts, the right actions must be planned and effectively implemented in the given circumstances, otherwise it is a waste of time for the business to produce • without being based on reliable research and experience in this type of business the plan may be inaccurate and will not help the business to survive or develop • if goals are not achieved employees are discouraged and motivation is reduced • an employee, probably a manager, will have to be allocated the role of producing the plan, which takes them away from other aspects of their job role, so the business may be less efficient • the business plan needs to be constantly updated if it is to be an effective working document which takes further time/effort • lack of quick responses causes missed opportunities and lack of competitiveness • simply having a plan does not guarantee success/must be good and carried out well • confidential company information is revealed to external sources, losing competitive advantage <p>Accept all valid responses.</p>	

Question	Answer	Marks
5(b)	<p>'A chocolate manufacturer should use external methods of growth to successfully achieve its objectives.'</p> <p>Evaluate this view.</p> <p>There are 12 marks for Q5(b):</p> <p>2 marks for K</p> <p>2 marks for APP</p> <p>2 marks for AN</p> <p>6 marks for EVAL</p> <p>Indicative content</p> <p>Responses may include:</p> <p>AO1 Knowledge and understanding</p> <p>2 marks for developed knowledge L2 K</p> <p>1 mark for limited knowledge L1 K</p> <ul style="list-style-type: none"> external (inorganic) buying or joining with another business, integration, merger, takeover, horizontal, forward vertical, backward vertical, conglomerate diversification, joint venture, strategic alliance internal (organic) sales growth with existing products and customers or new products, new customers, new markets different types of objectives – growth in size, market share, profit, cash flow, survival, diversification, providing a service, ethical, social 	12

Question	Answer	Marks
5(b)	<p>AO2 Application</p> <p>2 marks for developed application L2 APP</p> <p>1 mark for limited application L1 APP</p> <ul style="list-style-type: none"> chocolate manufacturer – may give named examples, brands or foods, could refer to specific parts of the process. The manufacturer could undertake backward vertical integration with a supplier of cacao beans. <p>Packaging is not application unless explained in relation to chocolate – it can apply to any manufacturer</p> <p>AO3 Analysis</p> <p>2 marks for developed application L2 AN</p> <p>1 mark for limited application L1 AN</p> <ul style="list-style-type: none"> horizontal integration is good for increasing market share by combining sales of both businesses, whilst getting rid of a competitor mergers can bring together complementary ideas and techniques to aid product development e.g. new chocolate recipe external growth is good for entering new markets where the other business is already established and successful external growth is a quick method of expansion as all factories, equipment and employees are already in place takeover may be too expensive for a business aiming for quick profit maximisation or a small business internal growth is less expensive and may appeal more to a smaller business depending on what the objectives are it is possible to achieve them without growth e.g. motivating/training workers for profit maximisation a new business may focus on survival and then slower internal growth building on their success 	

Question	Answer	Marks																		
5(b)	<p>AO4 Evaluation</p> <p>6 marks for evaluation EVAL</p> <table border="1" data-bbox="332 303 1859 811"> <tr> <td data-bbox="332 303 1468 366">Developed/Supported judgement in context</td><td data-bbox="1468 303 1693 366">L3 EVAL</td><td data-bbox="1693 303 1859 366">6 marks</td></tr> <tr> <td data-bbox="332 366 1468 462">Developed/Reasonable evaluative comments in context</td><td data-bbox="1468 366 1693 462">L3 EVAL</td><td data-bbox="1693 366 1859 462">5 marks</td></tr> <tr> <td data-bbox="332 462 1468 557">Developed/Supported judgement without context</td><td data-bbox="1468 462 1693 557">L2 EVAL</td><td data-bbox="1693 462 1859 557">4 marks</td></tr> <tr> <td data-bbox="332 557 1468 652">Developed/Reasonable evaluative comments without context</td><td data-bbox="1468 557 1693 652">L2 EVAL</td><td data-bbox="1693 557 1859 652">3 marks</td></tr> <tr> <td data-bbox="332 652 1468 716">Limited supported judgement</td><td data-bbox="1468 652 1693 716">L1 EVAL</td><td data-bbox="1693 652 1859 716">2 marks</td></tr> <tr> <td data-bbox="332 716 1468 811">An attempt to balance the arguments/Weak attempt at evaluative comments</td><td data-bbox="1468 716 1693 811">L1 EVAL</td><td data-bbox="1693 716 1859 811">1 mark</td></tr> </table> <p><i>A judgement/decision on whether a chocolate manufacturer should use external methods of growth to successfully achieve its objectives is made.</i></p> <p><i>Such judgements/decisions may be made at any point in the essay, not just in a concluding section</i></p> <ul style="list-style-type: none"> • depends on the objectives of the business • depends on current size of the business • depends on strength of brand, competition, state of economy, changing customer tastes e.g. for lower sugar chocolate • depends on the type of chocolate products being manufactured - niche or specific to particular countries e.g. chilli chocolate. Will it transfer to a wider market? • is there the potential for the manufacturer to grow? • depends on how much finance is available to grow • depends on the type of ownership of the business • merger, friendly and hostile takeovers can all be carried out <p>Accept all valid responses.</p>	Developed/Supported judgement in context	L3 EVAL	6 marks	Developed/Reasonable evaluative comments in context	L3 EVAL	5 marks	Developed/Supported judgement without context	L2 EVAL	4 marks	Developed/Reasonable evaluative comments without context	L2 EVAL	3 marks	Limited supported judgement	L1 EVAL	2 marks	An attempt to balance the arguments/Weak attempt at evaluative comments	L1 EVAL	1 mark

Question	Answer	Marks
6(b)	<p><i>A judgement/decision regarding the most effective methods of motivating a hotel's employees is made. Such judgements/decisions can be made at any point in the essay and not just in a concluding section</i></p> <ul style="list-style-type: none"> • method may depend on type of employee and current job role • may depend on the amount of finance available to the hotel • may depend on the size/type of the hotel – small/niche/local/large chain • may depend on loyalty of employees to the hotel • may depend on number and type of competitors • may depend on whether the hotel requires motivated workers • budget vs luxury hotel e.g. Travelodge vs Hilton • expectations of clientele <p>Accept all valid responses.</p>
