

Cambridge International Project Qualification

CAMBRIDGE IPQ

9980/01

Paper 1

October/November 2023

MARK SCHEME

Maximum Mark: 80

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2023 series for most Cambridge IGCSE, Cambridge International A and AS Level components, and some Cambridge O Level components.

This document consists of **10** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

**Social Science-Specific Marking Principles
(for point-based marking)****1 Components using point-based marking:**

- Point marking is often used to reward knowledge, understanding and application of skills. We give credit where the candidate's answer shows relevant knowledge, understanding and application of skills in answering the question. We do not give credit where the answer shows confusion.

From this it follows that we:

- a** DO credit answers which are worded differently from the mark scheme if they clearly convey the same meaning (unless the mark scheme requires a specific term)
- b** DO credit alternative answers/examples which are not written in the mark scheme if they are correct
- c** DO credit answers where candidates give more than one correct answer in one prompt/numbered/scaffolded space where extended writing is required rather than list-type answers. For example, questions that require n reasons (e.g. State two reasons ...).
- d** DO NOT credit answers simply for using a 'key term' unless that is all that is required. (Check for evidence it is understood and not used wrongly.)
- e** DO NOT credit answers which are obviously self-contradicting or trying to cover all possibilities
- f** DO NOT give further credit for what is effectively repetition of a correct point already credited unless the language itself is being tested. This applies equally to 'mirror statements' (i.e. polluted/not polluted).
- g** DO NOT require spellings to be correct, unless this is part of the test. However spellings of syllabus terms must allow for clear and unambiguous separation from other syllabus terms with which they may be confused (e.g. Corrasion/Corrosion)

2 Presentation of mark scheme:

- Slashes (/) or the word 'or' separate alternative ways of making the same point.
- Semi colons (;) bullet points (•) or figures in brackets (1) separate different points.
- Content in the answer column in brackets is for examiner information/context to clarify the marking but is not required to earn the mark (except Accounting syllabuses where they indicate negative numbers).

3 Calculation questions:

- The mark scheme will show the steps in the most likely correct method(s), the mark for each step, the correct answer(s) and the mark for each answer
- If working/explanation is considered essential for full credit, this will be indicated in the question paper and in the mark scheme. In all other instances, the correct answer to a calculation should be given full credit, even if no supporting working is shown.
- Where the candidate uses a valid method which is not covered by the mark scheme, award equivalent marks for reaching equivalent stages.
- Where an answer makes use of a candidate's own incorrect figure from previous working, the 'own figure rule' applies: full marks will be given if a correct and complete method is used. Further guidance will be included in the mark scheme where necessary and any exceptions to this general principle will be noted.

4 Annotation:

- For point marking, ticks can be used to indicate correct answers and crosses can be used to indicate wrong answers. There is no direct relationship between ticks and marks. Ticks have no defined meaning for levels of response marking.
- For levels of response marking, the level awarded should be annotated on the script.
- Other annotations will be used by examiners as agreed during standardisation, and the meaning will be understood by all examiners who marked that paper.

Assessment criteria

Research reports should be assessed using the criteria on the following pages.

Assessment criteria overview: Cambridge International Project Qualification		
AO1 Research, Analysis and Evaluation		
Research	<ul style="list-style-type: none"> • Develop and justify an appropriate research question • Design and manage own project, using appropriate research methods • Maintain a research log to support the process of research 	24 marks
Analysis	<ul style="list-style-type: none"> • Analyse findings and/or sources used in order to answer the research question 	20 marks
Evaluation	<ul style="list-style-type: none"> • Evaluate the research methods and sources used 	12 marks
AO1 Total		56 marks
AO2 Reflection		
Reflection	<ul style="list-style-type: none"> • Reflect on the strengths and limitations of the project • Discuss how and why personal views on the topic have changed or developed as a result of the research conducted 	12 marks
AO2 Total		12 marks
AO3 Communication		
Communication	<ul style="list-style-type: none"> • Communicate clearly throughout the report, using appropriate subject-specific terminology, referencing and citation techniques • Structure the report and communicate findings clearly and in an appropriate format 	12 marks
AO3 Total		12 marks
TOTAL		80 marks

Assessment criteria: Cambridge International Project Qualification		
AO1 Research, Analysis and Evaluation		
AO1: Research		
<ul style="list-style-type: none"> • Develop and justify an appropriate research question • Design and manage own project, using appropriate research methods • Maintain a research log to support the process of research 		
Level	Mark Range	Indicative Descriptors
4	19–24	<ul style="list-style-type: none"> • The question chosen has been thoughtfully justified. • The question has clearly guided the research conducted and content of the report. • The research methods and/or sources used are highly appropriate for the project and clearly justified. • The project is very well-designed and there is evidence of careful planning throughout. • The research log has been consistently maintained and there is evidence that it has been used to support the research process throughout.
3	13–18	<ul style="list-style-type: none"> • The question chosen has been reasonably justified. • The question has largely guided the research conducted and content of the report. • The research methods and/or sources used are appropriate for the research project and there is a reasonable justification for their selection. • The project is well-designed and there is evidence of planning at times. • The research log has been maintained throughout the project and there is evidence that it has been used to support the research process at times.
2	7–12	<ul style="list-style-type: none"> • There is an attempt to justify the question chosen. • The research conducted and content of the report are broadly related to the question. • The research methods and/or sources used are either appropriate for the project or there is a reasonable attempt to justify their selection. • The project is reasonably well-designed but there is little evidence of planning. • The research log has been used to record information relating to some aspects of the research process.
1	1–6	<ul style="list-style-type: none"> • A question has been chosen but there is no serious attempt to justify it. • Much of the research conducted or content of the report is only vaguely related to the question. • At least one research method and/or a range of sources has been used but these are not well suited to the project and there is little attempt to justify their selection. • The research log is superficial and gives little evidence of the research process.
0	0	<ul style="list-style-type: none"> • A mark of zero should be awarded for no creditable content.

AO1: Analysis		
• Analyse findings and/or sources used in order to answer the research question		
Level	Mark Range	Indicative Descriptors
4	16–20	<ul style="list-style-type: none"> • Excellent analysis of findings and/or sources used. • The analysis is consistently focused on the research question. • Conclusions drawn are clearly supported by the evidence presented. • There is a clear answer in response to the research question which is reflective of the evidence presented in the report.
3	11–15	<ul style="list-style-type: none"> • Good analysis of findings and/or sources used. • The analysis is relevant to the research question. • Conclusions drawn are supported by the evidence presented. • There is an answer in response to the research question relevant to the evidence presented in the report.
2	6–10	<ul style="list-style-type: none"> • Some analysis of findings and/or sources used. • The analysis is partially relevant to the research question. • Conclusions drawn are only partially supported by the evidence presented. • There is an answer in response to the research question but this is only partially relevant to the evidence presented in the report.
1	1–5	<ul style="list-style-type: none"> • Some limited analysis of findings and/or sources used. • The analysis lacks relevance to the research question. • Conclusions drawn are limited or not supported by the evidence presented. • There is an answer in response to the research question but this is limited or not relevant to the evidence presented in the report.
0	0	<ul style="list-style-type: none"> • A mark of zero should be awarded for no creditable content.

AO1: Evaluation		
• Evaluate the research methods and sources used		
Level	Mark Range	Indicative Descriptors
4	10–12	<ul style="list-style-type: none">• Detailed and insightful discussion of the strengths and limitations of the research method(s) used.• Explicit and effective evaluation of a range of sources.
3	7–9	<ul style="list-style-type: none">• Detailed discussion of the strengths and limitations of the research method(s) used.• Explicit and effective evaluation of at least one source.
2	4–6	<ul style="list-style-type: none">• Some discussion of the strengths and/or limitations of the research method(s) used.• Some explicit evaluation of a range of sources.
1	1–3	<ul style="list-style-type: none">• Some limited discussion of a strength or limitations of the research method(s) used.• Some explicit evaluation of at least one source.
0	0	<ul style="list-style-type: none">• A mark of zero should be awarded for no creditable content.

AO2 Reflection		
AO2: Reflection		
Level	Mark Range	Indicative Descriptors
4	10–12	<ul style="list-style-type: none"> Reflect on the strengths and limitations of the project Discuss how and why personal views on the topic have changed or developed as a result of the research conducted
3	7–9	<ul style="list-style-type: none"> Detailed and insightful reflection on the strengths and limitations of the project. A thoughtful discussion of how and why personal views on the topic have changed or developed, which is clearly and directly related to the research conducted.
2	4–6	<ul style="list-style-type: none"> Some reflection on the strengths and/or limitations of the project. Some discussion of how personal views on the topic have changed or developed, with some reference to the research conducted.
1	1–3	<ul style="list-style-type: none"> Some limited reflection on a strength or limitation of the project. Some discussion of personal views on the topic.
0	0	<ul style="list-style-type: none"> A mark of zero should be awarded for no creditable content.

AO3 Communication		
AO3: Communication		
Level	Mark Range	Indicative Descriptors
4	10–12	<ul style="list-style-type: none"> • Communicate clearly throughout the report, using appropriate subject-specific terminology, referencing and citation techniques • Structure the report and communicate findings clearly and in an appropriate format
3	7–9	<ul style="list-style-type: none"> • The report is well-structured and very clear to follow. • A range of subject-specific terminology is used consistently and accurately throughout the report. • Research findings are communicated clearly and in a highly appropriate format. • Citation and referencing of sources are complete, consistent and in an appropriate format.
2	4–6	<ul style="list-style-type: none"> • The report is well-structured and clear to follow. • A range of mostly accurate subject-specific terminology is used throughout the report. • Research findings are communicated clearly and in an appropriate format. • Citation and referencing of sources are mostly complete and consistent and in an appropriate format.
1	1–3	<ul style="list-style-type: none"> • The report is mostly well-structured and fairly clear to follow. • Some accurate subject-specific terminology is used. • Research findings are communicated with some clarity. • Citation and referencing of sources are mostly complete and consistent.
0	0	<ul style="list-style-type: none"> • A mark of zero should be awarded for no creditable content.
