#### **CAMBRIDGE INTERNATIONAL EXAMINATIONS**

**Cambridge International Advanced Level** 

# MARK SCHEME for the October/November 2014 series

# 9705 DESIGN AND TECHNOLOGY

**9705/33** Paper 3, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2014 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

 ${\small \circledR}$  IGCSE is the registered trademark of Cambridge International Examinations.

	Cambridge International A Level – October/November 2014	9705	33
	Section A		

# Part A – Product Design

(a) description of process

 fully detailed 3-5 0–2 some detail, up to 2 quality of sketches  $7 \times 2$  [14]

- (b) calendaring
  - large sheets produced/cut to size
  - even thickness, easily set
  - effective use of material, no wastage

#### Profile moulding

- one step production, very quick
- consistent section
- high quality finish

### Milling

- high quality finish, accurate angle
- one piece production
- difficult material removal otherwise/separate assembly needed 3 × 2

[Total: 20]

[6]

[9]

2 (a) suitable material:

handle blade

appropriate hardwood high carbon steel

aluminium silver steel

mild steel mild steel (case hardened)

1 nylon/abs

Reasons:

blade handle

can produce high quality finish can be forged to shape

 comfortable to hold/grip strong in torsion

easy to turn/machine stiff 2 × 1 [3]

(b) description to include:

quality of description:

 fully detailed 3-7 0–2 some detail, quality of sketches up to 2

Page 3	Mark Scheme	Syllabus	Paper
	Cambridge International A Level – October/November 2014	9705	33
(c) 6 - - -	- use of jigs, forefers, moulds;		
-	Quality of explanation: - logical, structured 4 limited detail, 0- quality of sketches up		[8]
			[Total: 20]
- r - \ - r - t	ussion could include: material/production cost volume of production marketing/advertising ype of product arget market energy/profit mark-up and other costs		
- v	nination of issues vide range of relevant issues imited range  5— 0—		
	ty of explanation ogical, structured 4–	7	

[Total: 20]

0-3

4

limited detail,

Supporting examples/evidence
– specific products

specific details of market

specific materials/manufacturing methods

L			

## Part B - Practical Design

4 (a) (i) anticlockwise [1]

(ii)  $2 \times 3$  [1] =  $\frac{6}{2}$  [1] = 3:1 [1] [3]

**(b)**  $2400 \times 100 + 4400 \times 150 = 9000 \times B$ 

 $B = \frac{900000}{9000} = 100 \,\text{N} \qquad \qquad 2 \quad [4]$ 

(c) ways could be:

gussets, braces, ribs, lamination, triangulation

Quality of explanation:

- logical, structured 6–10

- limited detail, 0–5

quality of sketches 2 [12]

(b) for each: product/application 1 up to 2  $[4 \times 3]$ 

(c) explanation could include:

- weight
- friction
- noise
- wear

Quality of explanation:

logical, structured
limited detail,
3–4
0–2
[4]

[Total: 20]

Page 5	Mark Scheme	Syllabus	Paper
	Cambridge International A Level – October/November 2014	9705	33

6 wedge shaped tool – chisel, lathe tool, drill

**Heat** – welding/cutting torch, laser cutter

**Shearing action** – guillotine, tin snips

(a) quality of description

**(b)** quality of explanation:

logical, structured
limited detail
3–4
0–2
[2 × 3]

Page 6	Mark Scheme	Syllabus	Paper
	Cambridge International A Level – October/November 2014	9705	33

## Part C - Graphic Products

7	(a)	initial construction accuracy	3
		loci construction	5
		loci accuracy	2
		quality of overall communication	2 [12]

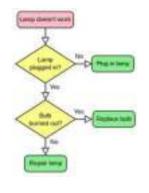

- (b) description to include:
  - details of materials used
  - details of construction
  - effective movement check

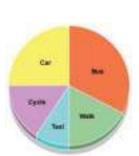

Quality of description

clear, fully detailed
some detail
quality of sketching
4–6
0–3
up to 2
[8]

[Total: 20]

Flow charts - chart showing logical order of process

Pie charts – circular chart showing proportion

**Pictograms** – resemble what they signify

**Ideograms** – graphic symbol that reflects idea or concept, (also Chinese characters)

Quality of explanation:

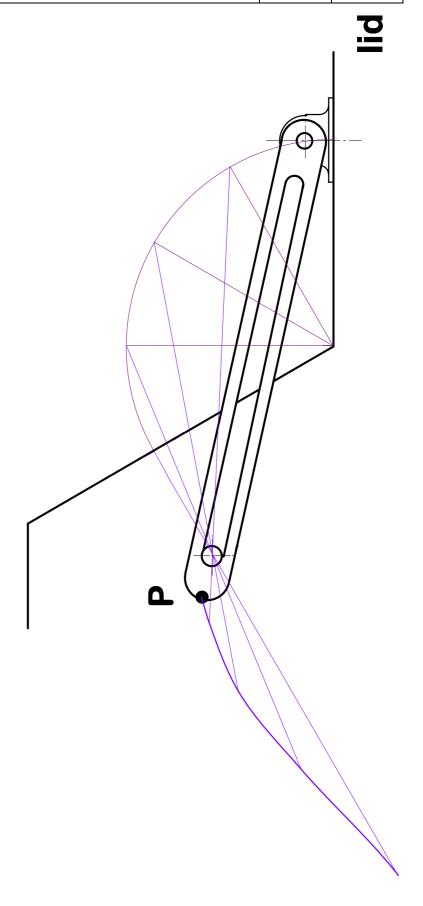

logical, structured4–5

- limited detail 0-3  $[4 \times 5]$ 

Page 7	Mark Scheme	Syllabus	Paper

	Section B		
Analysis			
Analysis	of the given situation/problem.		[5]
Specifica	tion		
	vritten specification of the design requirements. ve specification points other than those given in the question.		[5]
Explorat	on		
selection - rang - anno - mark - evalu	ches and brief notes to show exploration of ideas for a design solution e of ideas tation related to specification etability, innovation ation of ideas, selection leading to development nunication	, with reasor	ns for [5] [5] [5] [5]
Develop	nent		
design pr – deve – rease – mate – cons			a single [5] [5] [3] [7]
Propose	d solution		
- prop	drawing/s of an appropriate kind to show the complete solution. osed solution s/dimensions		[10] [5]
Evaluation	on		

Written evaluation of the final design solution. [5]
