Paper 4 Critical Perspectives

October/November 2020

MARK SCHEME

Maximum Mark: 100

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2020 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

This document consists of **9** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Assessment Objectives

The Assessment Objectives are applied to each question. The assessment objectives for the paper are:

- **AO1** Demonstrate knowledge and understanding of media concepts, contexts and critical debates, using terminology appropriately. (60%)
-
- **AO2** Apply knowledge and understanding to show how meanings are created when analysing media products and when evaluating their own practical work. (40%)
-

The Level Descriptors guide examiners to an understanding of the qualities normally expected of, or typical of, work in a band. They are a means of general guidance and must not be interpreted as hurdle statements. For the purposes of standardisation of marking, they are to be used in conjunction with the Standardisation scripts discussed during the coordination meeting and with Team Leaders, as well as the question-specific notes.

The indicative content provided is for general guidance; it is not designed as prescriptions of required content and must not be treated as such. While there are legitimate expectations of the content of most answers, examiners may see responses that include ideas not covered in the indicative content. For these cases, examiners should credit valid responses fairly and not penalise candidates for including valid points outside the mark scheme.

Using a banded mark scheme

Place the answer in a level first. Look for the ‘best fit’ of the answer into a level. An answer needs to show evidence of most but not necessarily ALL of the qualities described in a level in order to be placed in that band. Then award a mark for the relative position of the answer within the level.

Higher level responses (Levels 4 & 5) will demonstrate excellent knowledge and understanding of the key concepts (AO1). They should use a wide range of terminology accurately (AO1). They should show clear understanding of how meaning is created in the text (AO2). They should support their answer with many detailed references to the text (AO2).

Middle range responses (Level 3) will demonstrate satisfactory knowledge and understanding of the key concepts – there may be uneven coverage or some misunderstanding (AO1). They should use some terminology, but not always accurately (AO1). They should show some understanding of how meaning is created in the text (AO2). They should support their answer with some references to the text (AO2).

Basic responses (Levels 1 and 2) will demonstrate basic knowledge and understanding of the key concepts –misunderstanding might be common (AO1). They might use some terminology, but rarely accurately (AO1). They will have limited understanding of how meaning is created in the text (AO2). They rarely support their answer with references to the text (AO2).
