Paper 3 Advanced Theory

May/June 2022

1 hour 45 minutes

You must answer on the question paper.

No additional materials are needed.

INSTRUCTIONS

- Answer **all** questions.
- Use a black or dark blue pen.
- Write your name, centre number and candidate number in the boxes at the top of the page.
- Write your answer to each question in the space provided.
- Do **not** use an erasable pen or correction fluid.
- Do **not** write on any bar codes.
- You may use an HB pencil for any diagrams, graphs or rough working.
- Calculators must **not** be used in this paper.

INFORMATION

- The total mark for this paper is 70.
- The number of marks for each question or part question is shown in brackets [].

This document has **12** pages. Any blank pages are indicated.

1 Data can be at risk of being lost from computer systems.

(a) Describe the ways that data can be lost from computer systems.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

..... [5]

(b) Backups are used to minimise the risk of data loss. Backup strategies are created for technicians to ensure that data can be recovered in the event of a disaster occurring.

Describe **three** instructions to the technicians that should be included in a backup strategy.

1

.....

.....

.....

.....

2

.....

.....

.....

.....

3

.....

.....

..... [3]

3 A designer creates vector graphics for companies for use in their advertising.

(a) Explain why the designer uses the svg file format for storing the vector graphics.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

[4]

(b) Describe the information that must be stored in a vector graphic file so that the image can be recreated when the file is opened.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

[4]

6 The owners of a retail store have access to databases of customer buying habits. They are going to carry out some data mining.

(a) Describe what is meant by data mining.

.....
.....
.....
.....
..... [2]

(b) Explain how the information obtained by data mining could be used by the owners of the retail store to increase profits.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
..... [6]

7 Animations often show objects, for example figures moving about the screen.

Describe how each of the following achieves the motion of a character in an animation.

(a) cell animation

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
..... [4]

(b) stop motion

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
..... [4]

8 JavaScript code can use comparison operators.

Explain how each of the following comparison operators works in JavaScript when comparing the number 1 with the text "1".

(a) the == operator

.....

.....

.....

.....

..... [2]

(b) the !== operator

.....

.....

.....

.....

..... [2]

9 A new database management system (DBMS) is to be created for a health care centre to store patient records. Health care professionals will use the DBMS when treating patients. A design specification has to be written before the DBMS is created.

(a) Explain why a design specification is needed.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
..... [4]

(b) Describe the contents of a design specification for the new DBMS.

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
..... [6]
