Paper 1 Theory

October/November 2021

1 hour 45 minutes

You must answer on the question paper.

No additional materials are needed.

INSTRUCTIONS

- Answer **all** questions.
- Use a black or dark blue pen.
- Write your name, centre number and candidate number in the boxes at the top of the page.
- Write your answer to each question in the space provided.
- Do **not** use an erasable pen or correction fluid.
- Do **not** write on any bar codes.
- You may use an HB pencil for any diagrams, graphs or rough working.
- Calculators must **not** be used in this paper.

INFORMATION

- The total mark for this paper is 90.
- The number of marks for each question or part question is shown in brackets [].

This document has **20** pages. Any blank pages are indicated.

1 A printer driver is a type of device driver.

(a) Tick the most accurate statement regarding printer drivers.

	✓
They are used to control the hard disk drive.	
They handle the translation of requests between the computer and the printer.	
One printer driver can control any printer.	
They ensure that there are no paper jams.	

[1]

(b) Tick the most accurate statement regarding device drivers in general.

	✓
One device driver works with every operating system.	
Device drivers are extra hardware inside the device.	
Upon installation, a device driver detects and identifies the peripheral device.	
A device driver is needed to control the central processing unit of a computer.	

[1]

2 A user interface is the method by which a user and a computer exchange information and instructions.

(a) Tick the most accurate statement referring to the use of colour in a user interface for users who suffer from colour blindness (colour vision deficiency).

	✓
It is good practice to use complementary colours such as red text on a green background.	
It is good practice to use text in small sizes and weights to emphasise it against a different-coloured background.	
It is good practice to always use as many colours as possible when designing an interface.	
It is good practice to use a soft-coloured background such as grey or cream to allow text of a different colour to be read more easily.	

[1]

(b) Tick the most accurate statement referring to elements of a user interface.

	✓
Radio buttons only allow you to select one option from a list.	
A text box does not allow you to type numbers into it.	
Text should use the same font size whether the information is important or less important.	
It is a good idea to have a different font size for each word in a title.	

[1]

- (c) A developer has been asked to produce software. The software will allow a company's employees to enter data. The user interface will be a graphical user interface (GUI) and must be easy to use.

Describe **four** features of the layout of such a user interface.

Please turn over for Question 11.

- 11 The sales director of a large company buys cars from an agent before issuing them to managers for use as company cars. She needs to keep records of all the agents she deals with and the details of each car. The records are stored as a relational database consisting of two tables.

A typical record from the Cars table would be: S8562T, 5, \$39500, B345

- (a) Using the information given above, complete this part of the data dictionary for the **Cars** table.

Attribute	Data type	Format	Type of key
