Paper 2 Key Media Concepts

May/June 2018

MARK SCHEME

Maximum Mark: 100

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the May/June 2018 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

IGCSE™ is a registered trademark.

This document consists of **9** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

the specific content of the mark scheme or the generic level descriptors for the question
the specific skills defined in the mark scheme or in the generic level descriptors for the question
the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
marks are awarded when candidates clearly demonstrate what they know and can do
marks are not deducted for errors
marks are not deducted for omissions
answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Section A**Question 1**

Discuss the ways in which the extract from *Agent Carter* constructs meaning through the following:

camera shots, angles, movement and composition

sound

mise-en-scène

editing.

[50]

Candidates will be assessed on their ability to understand how meaning is constructed in a media text through the analysis of different technical areas.

Marks are awarded for three different criteria:

Explanation/argument/analysis (max 20)

Use of examples (max 20)

Terminology (max 10)

Candidates' work should be judged on each of these criteria, and marks awarded according to the level attained. It should be noted that it is possible for a candidate to achieve a different level for each assessment criterion.

A positive approach to marking is encouraged. Reward alternative valid responses.

Clip details:

Agent Carter (Marvel One-Shots, 2013, dir. Louis D'Esposito)

Question	Answer	Marks	Guidance
1	<u>Level 5</u>	17–20	Shows excellent understanding of the task. Knowledge and understanding of the way that technical aspects are used to construct the extract's meaning is excellent. Clearly relevant to set question. Offers frequent textual analysis from the extract – award marks to reflect the range and appropriateness of examples.
	Explanation / argument / analysis		
	Use of examples	17–20	Offers a full range of examples from each technical area. Offers examples which are clearly relevant to the set question.
	Terminology	9–10	Use of terminology is excellent.
	<u>Level 4</u>	13–16	Shows competent understanding of the task. Knowledge and understanding of the way that technical aspects are used to construct the extract's meaning is competent. Relevant to set question. Supports points with a range of textual analysis from the extract.
	Explanation / argument / analysis		
	Use of examples	13–16	Offers a range of examples from each technical area. Offers examples which are relevant to the set question.
	Terminology	7–8	Use of terminology is competent.
	<u>Level 3</u>	9–12	Shows satisfactory understanding of the task. Knowledge and understanding of the way that technical aspects are used to construct the extract's meaning is satisfactory. Some relevance to set question. Some textual analysis from the extract.
Explanation / argument / analysis			
Use of examples	9–12	Offers some examples, but probably not from all four technical areas. Offers examples which are of some relevance to the set question.	
Terminology	5–6	Use of terminology is satisfactory.	

Question	Answer	Marks	Guidance
1	<u>Level 2</u>	5–8	Shows limited understanding of the task. Knowledge and understanding of the way that technical aspects are used to construct the extract’s meaning is limited. Limited relevance to set question. Limited textual analysis from the extract.
	Explanation / argument / analysis		
	Use of examples	5–8	Offers limited examples, but probably not from all four technical areas. Offers examples which are of limited relevance to the set question.
	Terminology	3–4	Use of terminology is limited.
	<u>Level 1</u>	1–4	Shows minimal understanding of the task. Knowledge and understanding of the way that technical aspects are used to construct the extract’s meaning is minimal. Minimal relevance to set question. Minimal textual analysis from the extract.
	Explanation / argument / analysis		
	Use of examples	1–4	Offers minimal examples, but probably not from all four technical areas. Offers examples which are of minimal relevance to the set question.
	Terminology	1–2	Use of terminology is minimal.
	<u>Level 0</u>	0	No response or response does not answer the question at all.
Explanation / argument / analysis. Use of examples			
Terminology		No response or response without any relevant terminology.
