Paper 5 Practical Test

October/November 2016

CONFIDENTIAL INSTRUCTIONS

Great care should be taken to ensure that any confidential information given does not reach the candidates either directly or indirectly.

If you have any problems or queries regarding these Confidential Instructions, please contact Cambridge
by email info@cie.org.uk
by phone +44 1223 553554
by fax +44 1223 553558
stating the Centre number, the nature of the query and the syllabus number quoted above.

This document consists of **5** printed pages and **3** blank pages.

READ THESE INSTRUCTIONS FIRST

These Instructions give details of the apparatus required by each candidate for each experiment in this paper. A summary of the questions that will be presented to the candidates is included, where appropriate, to allow the biology teacher to test the apparatus appropriately. **Testing must be done out of sight of all candidates.**

No access to the question paper is permitted in advance of the examination.

Centres are reminded that candidates are expected to follow the instructions on the question paper and record all their results. They will not be penalised if these results are not what they expect.

The Supervisor should make sure that the Supervisor's Report is fully completed and a copy is enclosed with each packet of scripts.

It is assumed that the ordinary apparatus of a science laboratory will be available, including a supply of purified water (distilled or deionised).

If arrangements are made for different sessions for different groups of candidates, care must be taken to ensure that the different groups of candidates are effectively isolated so that **no information passes between them.**

All specimens should carry only the code letters and numbers as indicated and their identity should not be revealed to the candidates.

Supervisors should ensure that all specimens have the correct identity attached to the specimen and that these are not removed during the examination.

If a candidate breaks any of the apparatus, or loses any of the material supplied, the matter should be rectified and a note made in the Supervisor's Report.

Supervisors are advised to remind candidates that **all** substances in the examination should be treated with caution. Pipette fillers and safety goggles should be used where necessary.

In accordance with the COSHH (Control of Substances Hazardous to Health) Regulations, operative in the UK, a hazard appraisal of the examination has been carried out.

The following codes are used where relevant:

C	=	corrosive	MH	=	moderate hazard
HH	=	health hazard	T	=	acutely toxic
F	=	flammable	O	=	oxidising
N	=	hazardous to the aquatic environment			

Centres are reminded that they are **not** permitted to open the question paper envelopes before the examination.

If there are any difficulties with any aspect of setting up this practical examination that the Centre is not able to resolve, it is essential for Centres to contact the Product Manager as soon as possible by **email** to info@cie.org.uk, by **fax** to +44 1223 553558 or by **phone** to +44 1223 553554.

Question 1

Each candidate should be provided with:

- (i) two 250 cm³ glass beakers of the same shape and size
- (ii) glass marker pen
- (iii) one large empty beaker labelled **hot water**.

Supervisor to add 250 cm³ of hot water, supplied at 80 °C when requested by a candidate. Candidates will request hot water twice during the practical.

- (iv) thermometer (–10 °C to +110 °C at 1 °C graduations)
- (v) view of a clock or timer that allows the candidate to time minute intervals accurately
- (vi) ruler with a mm scale
- (vii) paper towels

Question 2

Each candidate should be provided with:

- (i) a single, large, insect-pollinated flower on a dish, labelled **F**
(The flower should be covered by damp paper to prevent it from drying out.
Any flower with large unfused stamens is suitable.)
- (ii) hand lens with a ×6 magnification
- (iii) ruler with a mm scale
- (iv) white tile
- (v) forceps

The Supervisor (**not** the Invigilator) should carry out the practical aspects of **Question 1** and **Question 2** and record their results in the space provided in the Supervisor's Report. This must be done during the examination, using the same apparatus and reagents as the candidates but **out of sight** of the candidates.

This form should be completed and sent to Cambridge with the scripts.

SUPERVISOR'S REPORT

The Supervisor or Teacher responsible for the subject should provide the following information.

- 1** Was any difficulty experienced in providing the necessary materials? If so, give brief details.

.....

.....

.....

- 2** Give details of any difficulties experienced by particular candidates, giving names and candidate numbers. Reference should be made to:

(a) difficulties with specimens or materials;

.....

(b) accidents to apparatus or materials;

.....

(c) assistance provided in the case of colour blindness;

.....

(d) any other information that is likely to assist the Examiner, especially if this cannot be discovered from the scripts.

.....

Other cases of individual hardship, e.g. illness or disability, should be reported direct to Cambridge on the normal 'Special Consideration Form' as detailed in the Handbook for Centres.

- 3** During the examination, the Supervisor should, **out of sight of the candidates**, carry out the practical aspects of **Question 1** and **Question 2** using the same apparatus and reagents as the candidates. Results should be recorded in the space on page **8** (**not** on a spare question paper). Attach extra sheets if necessary.

The Invigilator should **not** carry out **Question 1** or **Question 2**.

Question 1 results:

Question 2 results:

Average length of stamens of the flower (**F**) provided.

.....

Sketch or photograph of the stamen of flower **F** to show proportions of anther and filament.

- 4 A plan of work benches, giving details of the candidate numbers of the places occupied by the candidate for each session must be enclosed with the scripts.

Declaration (to be signed by the Supervisor)

The preparation of this practical has been carried out so as to maintain fully the security of the examination.
