Paper 1 Short Answer/Data Response

October/November 2024

MARK SCHEME

Maximum Mark: 80

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2024 series for most Cambridge IGCSE, Cambridge International A and AS Level components, and some Cambridge O Level components.

This document consists of **28** printed pages.

PUBLISHED**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptions for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

PUBLISHED**Social Science-Specific Marking Principles
(for point-based marking)****1 Components using point-based marking:**

- Point marking is often used to reward knowledge, understanding and application of skills. We give credit where the candidate's answer shows relevant knowledge, understanding and application of skills in answering the question. We do not give credit where the answer shows confusion.

From this it follows that we:

- a** DO credit answers which are worded differently from the mark scheme if they clearly convey the same meaning (unless the mark scheme requires a specific term)
- b** DO credit alternative answers/examples which are not written in the mark scheme if they are correct
- c** DO credit answers where candidates give more than one correct answer in one prompt/numbered/scaffolded space where extended writing is required rather than list-type answers. For example, questions that require n reasons (e.g. State two reasons ...).
- d** DO NOT credit answers simply for using a 'key term' unless that is all that is required. (Check for evidence it is understood and not used wrongly.)
- e** DO NOT credit answers which are obviously self-contradicting or trying to cover all possibilities
- f** DO NOT give further credit for what is effectively repetition of a correct point already credited unless the language itself is being tested. This applies equally to 'mirror statements' (i.e. polluted/not polluted).
- g** DO NOT require spellings to be correct, unless this is part of the test. However spellings of syllabus terms must allow for clear and unambiguous separation from other syllabus terms with which they may be confused (e.g. Corrasion/Corrosion)

2 Presentation of mark scheme:

- Slashes (/) or the word 'or' separate alternative ways of making the same point.
- Semi colons (;) bullet points (•) or figures in brackets (1) separate different points.
- Content in the answer column in brackets is for examiner information/context to clarify the marking but is not required to earn the mark (except Accounting syllabuses where they indicate negative numbers).

3 Calculation questions:

- The mark scheme will show the steps in the most likely correct method(s), the mark for each step, the correct answer(s) and the mark for each answer
- If working/explanation is considered essential for full credit, this will be indicated in the question paper and in the mark scheme. In all other instances, the correct answer to a calculation should be given full credit, even if no supporting working is shown.
- Where the candidate uses a valid method which is not covered by the mark scheme, award equivalent marks for reaching equivalent stages.
- Where an answer makes use of a candidate's own incorrect figure from previous working, the 'own figure rule' applies: full marks will be given if a correct and complete method is used. Further guidance will be included in the mark scheme where necessary and any exceptions to this general principle will be noted.

4 Annotation:

- For point marking, ticks can be used to indicate correct answers and crosses can be used to indicate wrong answers. There is no direct relationship between ticks and marks. Ticks have no defined meaning for levels of response marking.
- For levels of response marking, the level awarded should be annotated on the script.
- Other annotations will be used by examiners as agreed during standardisation, and the meaning will be understood by all examiners who marked that paper.

PUBLISHED**Paper 1 Annotations**

Annotation	Description	Use
Tick	Tick	Indicates a point which is relevant and rewardable.
X	Cross	Indicates a point which is inaccurate/irrelevant and not rewardable.
BOD	Benefit of doubt	Used when the benefit of the doubt is given in order to reward a response.
TV	Too vague	Used when parts of the answer are considered to be too vague.
REP	Repetition	Indicates where content has been repeated.
NAQ	Not answered question	Used when the answer or parts of the answer are not answering the question asked.
K	Knowledge	Indicates knowledge and understanding of the concepts and issues relating to the question.
APP	Application	Indicates appropriate reference to the information in the stem.
AN	Analysis	Indicates where the answer has demonstrated analysis.
EVAL	Evaluation	Indicates where the answer has demonstrated evaluation (part (e) questions only).
OFR	Own figure rule	If a mistake is made in a calculation, and the incorrect figure that results from the mistake is used for subsequent calculations.
SEEN	Noted but no credit given	Indicates that content has been recognised but not rewarded.

It could buy cheaper raw materials [k] which may reduce material costs [an]. Improving quality is better because cheaper materials could damage the reputation leading to fewer sales [eval] while improving quality could even help attract new customers [eval].</p>	6	<p>This is a general question so there are no marks for application.</p> <p>To access [eval], must discuss two valid ways. The second [eval] mark must be awarded for a comparison between two valid ways.</p> <p>Some points could be [k] or [an] but do not award the same point twice.</p> <p>Some analysis can be used for more than one point, but only award once.</p> <p>Analysis can be awarded for explaining:</p> <ul style="list-style-type: none"> • The reason why price /cost may be higher/lower • How way increases added value

Question	Answer	Marks	Notes
2(a)	<p>Define ‘licensing’.</p> <p>Award 2 marks for a full definition. Award 1 mark for a partial definition.</p> <p>Business gives permission for another company (in the new market being entered) to produce the branded/patented products (under licence) [2] OR A business in one country permits a firm (in a foreign country) to produce its branded products (under licence) [2] OR When a business gives the right to others to produce/sell its products (in another country) [2]</p> <p>Partial definition e.g. allow someone else to make/sell your products [1]</p>	2	<p>For two marks need the idea of permission/rights given by one business to another business and idea of what i.e. produce/sell/operate for its products.</p> <p>Do not need to refer to other countries/new markets to gain two marks.</p>

Question	Answer	Marks	Notes
2(b)	<p>Identify <u>two</u> factors which might affect how much inventory a business should hold.</p> <p>Award 1 mark per factor (max 2).</p> <p>Points might include:</p> <ul style="list-style-type: none"> • Demand for product/amount of sales • Perishability/nature/type of product/durability • (Storage) space available • Cost of storage/warehouse • Delivery charges • Seasons/celebrations/festivals • Amount of money available (to buy inventory) / cost of inventory / finance • Lead time/reliability of supplier • Method of production / rate/quantity of output • Stock control system / JIT • Forecast/expected shortages <p>Other appropriate responses should be credited.</p>	2	Only award the first two responses given.

Question	Answer	Marks	Notes
2(c)	<p>Outline <u>two</u> benefits to SNT of using batch production.</p> <p>Award 1 mark for each relevant benefit (max 2). Award 1 mark for each relevant reference to this business (max 2).</p> <p>Points might include:</p> <ul style="list-style-type: none"> • Flexible [k] helping the business adapt to the new markets in other countries [app] • Production may not be affected to any great extent if machinery breaks down [k] so can continue to make some soft drinks [app] • Range/variety of products [k] when making 300 000 (bottles per week) [app] • Can motivate workers [k] <p>Other appropriate responses should be credited.</p>	4	<p>To use words from the stem as application, the reference must be appropriate (i.e. make sense) in relation to the point being made.</p> <p>The following words are likely to be appropriate for this question:</p> <ul style="list-style-type: none"> • Soft drinks • 300 000 (bottles per week) • New markets (in other countries)/planning to expand • (How much) inventory is important • Ethical (business) <p>Other appropriate examples can be credited.</p> <p>Comparative statements such as 'More/ less' can only be accepted when referring to an alternative method e.g. quicker <u>than job production</u>.</p>

Question	Answer	Marks	Notes
2(d)	<p>Explain <u>one</u> advantage and <u>one</u> disadvantage to SNT of forming a joint venture when entering new markets in other countries.</p> <p>Award 1 mark for identification of each relevant advantage/disadvantage (max 2). Award 1 mark for each relevant reference to this business (max 2). Award 1 mark for each relevant explanation (max 2).</p> <p>Points might include: Advantages:</p> <ul style="list-style-type: none"> • Increase capital / share costs / share resources [k] when making its soft drinks [app] which can help the business reduce borrowing [an] • Access to shared knowledge/expertise [k] increasing productivity/efficiency [an] above 300 000 (bottles per week) [app] • Less need for market research [k] lowers (marketing) costs [an] • Avoid/reduce competition [k] increasing market share [an] • Share/lower (financial) risk [k] which reduces possible losses [an] • May be a legal requirement (in some countries) [k] <p>Disadvantages:</p> <ul style="list-style-type: none"> • Possible (management) conflict/disagreements/different ways of working [k] as other business may be less concerned about being ethical [app] which can slow down decision-making [an] • Mistakes will reflect on all parties [k] which can damage its reputation [an] reducing its ability to offer licensing [app] 	6	<p>To use words from the stem as application, the reference must be appropriate (i.e. make sense) in relation to the point being made.</p> <p>The following words are likely to be appropriate for this question:</p> <ul style="list-style-type: none"> • Soft drinks • 300 000 (bottles per week) • Ethical business • Licensing • Batch production <p>Other appropriate examples can be credited.</p> <p>Some points can be awarded as [k] or [an] but do not award the same point twice e.g. share risk.</p>

Question	Answer	Marks	Notes
2(d)	<ul style="list-style-type: none">• Must share profit [k] which may reduce motivation of each party [an]• It will take time/effort to find the right partner [k] which may delay the expansion [an] <p>Other appropriate responses should be credited.</p>		

Question	Answer	Marks	Notes
2(e)	<p>Do you think the advantages to a business of being ethical are greater than the disadvantages? Justify your answer.</p> <p>Award up to 2 marks for identification of relevant points. Award up to 2 marks for relevant development of points. Award up to 2 marks for a justified decision as to whether the advantages to a business of being ethical are greater than the disadvantages.</p> <p>Points might include:</p> <p>Advantages:</p> <ul style="list-style-type: none"> • Good image/reputation [k] so can charge high(er) prices [an] • Good relations with customers [k] which can develop customer loyalty [an] • Increase demand/sales/customers / enter new market [k] increasing revenue [an] • Help motivate workers [k] leading to lower absenteeism / lower labour turnover / increased productivity [an] • Help recruit/attract employees [k] • Investors more likely to invest [k] which may make it easier to expand/grow the business [an] • Can help create better supplier relations [k] <p>Disadvantages:</p> <ul style="list-style-type: none"> • Limited/fewer materials available [k] leading to less output [an] • High(er) costs [k] could lead to higher prices [an] • May take time to source suitable/ethical supplies [k] which could delay production [an] • May have to pay more to suppliers / for materials [k] leading to higher variable costs/cost of goods sold / lower gross profit margin [an] 	6	<p>This is a general question so there are no marks for application.</p> <p>Some points could be awarded as either [k] or [an] but <u>do not award the same point twice</u> e.g. customer loyalty, increase prices.</p> <p>To access [eval], must discuss a valid advantage and a valid disadvantage.</p> <p>Accept problems of not being ethical e.g. damage reputation</p>

Question	Answer	Marks	Notes
2(e)	<p>Other appropriate responses should be credited.</p> <p>Justification might include:</p> <p>One disadvantage is the business may have higher cost of materials [k] leading to a lower gross profit margin [an]. The business may have a better reputation [k] so able to charge higher prices [an].</p> <p>Being ethical is better because higher prices could increase its profit margin [eval] which could cover the additional costs of materials [eval].</p>		

Question	Answer	Marks	Notes
3(a)	<p>Define ‘non-current assets’.</p> <p>Award 2 marks for a full definition. Award 1 mark for a partial definition.</p> <p>Resources owned by a business which will be used for a period longer than one year [2] OR Items owned by a business for more than one year [2]</p> <p>Partial definition e.g. items owned/bought/possessed by the business [1] OR Items in the business for more than one year [1]</p>	2	For both marks must have idea of 'owned by a business' and held for 'more than 1 year'.
