Paper 2

**May/June 2017**

MARK SCHEME

Maximum Mark: 50

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2017 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

© IGCSE is a registered trademark.

This syllabus is approved for use in England, Wales and Northern Ireland as a Cambridge International Level 1/Level 2 Certificate.

This document consists of **7** printed pages.

| Question | Answer   | Marks    |
|----------|--|----------|
| 1(a)(i)  | 1 mark for two meaningful names of constants (1)<br>1 mark for two relevant values related to Task 1 (1)<br><br>Many correct answers, they must be meaningful. These are examples only.<br><br>Coach_cost, 550<br>Ticket_cost, 30<br>Max_Students, 45<br>Free_Ticket, 10 (allow 9)   | <b>2</b> |
| 1(a)(ii) | 1 mark for Any meaningful name AND purpose related to Task 2<br><br>Many correct answers, they must be meaningful. These are examples only.<br><br>Students / ArrayStudents to store the students' names (1)<br>paid / arrayPaid to record whether a student has paid or not (1)<br><br>Max 2 marks  | <b>2</b> |
| 1(b)     | <b>Any five from:</b> <ul style="list-style-type: none"> <li>- Initialise values for both coach and ticket</li> <li>- Prompt for number of students taking part and input of number</li> <li>- Attempt at validation</li> <li>- Working validation for the entry for the number of students covering both ends of the range</li> <li>- Working out the number of free ticket(s)</li> <li>- Calculation of total cost of tickets including consideration of free tickets</li> <li>- Calculation of actual cost per student including coach</li> <li>- Output of cost to be charged with suitable annotation</li> </ul><br><b>Example</b><br><br><pre> Coach ← 550 Ticket ← 30 PRINT "Please enter the number of students taking part " INPUT NumberOfStudents WHILE NumberOfStudents &lt;= 0 OR NumberOfStudent &gt; 45   PRINT "Your number of students is out of range, please   try again"   INPUT NumberOfStudents ENDWHILE FreeTickets ← NumberOfStudents DIV 10 TotalCostTickets ← (NumberOfStudents - FreeTickets) * Ticket CostPerStudent ← (Coach + TotalCostTickets) / NumberOfStudents PRINT "The cost to be charged to each student is \$", CostPerStudent           </pre> | <b>5</b> |

| Question | Answer  | Marks    |
|----------|---|----------|
| 1(c)(i)  | <p>1 mark for check and 1 mark for related description</p> <p><b>Task 1</b></p> <p>Many correct answers, they must relate to the pre-release task. These are examples only.</p> <p>Type/Character check to make sure only integers are entered for number of students<br/> Range/Limit check to make sure the number of students entered is not too large or small<br/> Presence check to make sure an entry has been made (for the number of students)</p> <p><b>Task 2</b></p> <p>Many correct answers, they must relate to the pre-release task. These are examples only.</p> <p>Type/Character check to make sure only letters are entered for names of students<br/> Length check to make sure the name entered is not too long<br/> Presence check to make sure an entry has been made (for a student name)</p> <p style="text-align: right;">Max 4 marks</p> | <b>4</b> |
| 1(c)(ii) | <p>1 mark for appropriate test data and 1 mark for related reason</p> <p><b>Task 1</b></p> <p>Many correct answers, they must relate to the pre-release task and part (c)(i). These are examples only.</p> <p><i>Test data:</i> –50 for number of students<br/> <i>Reason:</i> To check that negative values for number of students are rejected</p> <p><b>Task 2</b></p> <p>Many correct answers, they must relate to the pre-release task and part (c)(i). These are examples only.</p> <p><i>Test data:</i> Smith@ for name<br/> <i>Reason:</i> To check that invalid characters are rejected in names</p> <p style="text-align: right;">Max 4 marks</p>   | <b>4</b> |

| Question | Answer   | Marks    |
|----------|--|----------|
| 1(d)     | Any <b>three</b> from: <ul style="list-style-type: none"><li>- Explanation of how the actual total costs are calculated – (cost of coach and cost of tickets)</li><li>- Explanation of how the actual total income is calculated – (totalled money collected from students)</li><li>- Explanation to show how the profit or loss is calculated – (total income – total expenditure)</li><li>- Indicate whether a profit, break even, or loss has been made</li></ul> | <b>3</b> |

| Question | Answer  | Marks |
|----------|---|-------|
| 2        | <p>1 mark for each error identified and suggested correction (the corrected code must be written in full)</p> <p><i>Line 2 Correct code</i> Counter = 0 (1)</p> <p><i>Line 7 Correct code</i> Total = Total + Number // Number + Total (1)</p> <p><i>Line 8 Correct code</i> Counter = Counter + 1 // 1 + Counter (1)</p> <p><i>Line 10 Correct code</i> Average = Total / Counter //<br/>                     Average = Total / 50 (1)</p> | 4     |
