MARK SCHEME

Maximum Mark: 50

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2019 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

---

This document consists of **9** printed pages.

**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

**GENERIC MARKING PRINCIPLE 1:**

Marks must be awarded in line with:

the specific content of the mark scheme or the generic level descriptors for the question  
the specific skills defined in the mark scheme or in the generic level descriptors for the question  
the standard of response required by a candidate as exemplified by the standardisation scripts.

**GENERIC MARKING PRINCIPLE 2:**

Marks awarded are always **whole marks** (not half marks, or other fractions).

**GENERIC MARKING PRINCIPLE 3:**

Marks must be awarded **positively**:

marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate  
marks are awarded when candidates clearly demonstrate what they know and can do  
marks are not deducted for errors  
marks are not deducted for omissions  
answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

**GENERIC MARKING PRINCIPLE 4:**

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

**GENERIC MARKING PRINCIPLE 5:**

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however, the use of the full mark range may be limited according to the quality of the candidate responses seen).

**GENERIC MARKING PRINCIPLE 6:**

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Question	Answer			Marks
2	<b>Band 3</b>	3–4	There is some relevance to the question with a tendency to retell the original rather than to focus on the bullet points. Makes simple references to the writer's feelings about Silverado and possibly about her husband. There is likely to be much irrelevant or inappropriate content.	
	<b>Band 2</b>	1–2	There is an attempt to use the passage. May retell the passage or give occasional relevant facts. There may be examples of misunderstanding or lack of clarity.	
	<b>Band 1</b>	0	There is little or no relevance to the question or to the passage or the response copies unselectively or directly from the passage.	
2	<b>Table B, WRITING: Structure and order, style of language:</b>			<b>5</b>
	<b>Band 6</b>	<b>5</b>	Sentences are fluent and there is a fairly wide range of vocabulary. Overall structure is good, and sentences generally follow in sequence. An appropriate register is established.	
	<b>Band 5</b>	<b>4</b>	Sentences are correct, though relatively simple. Vocabulary is adequate and correctly used. Structure is generally sound. Some of the register is appropriate.	
	<b>Band 4</b>	<b>3</b>	Sentence structures and vocabulary are simple but meaning is never in doubt. The order is reasonable. There may be an attempt at an appropriate register, but it is inconsistent.	
	<b>Band 3</b>	<b>2</b>	The response is very simply written and there are occasional examples of blurred meaning. The structure can usually be followed. The response may be over-dependent on lifted material.	
	<b>Band 2</b>	<b>1</b>	The response is difficult to understand. The response may be almost entirely lifted from the original.	
<b>Band 1</b>	<b>0</b>	The response cannot be understood.

Question	Answer	Marks
3(b)	<p><b>Notes on the Task</b></p> <p><b>In 3(a), if a candidate lists more than one point per line, they cannot receive marks for both points if both are correct.</b></p> <p>In 3(a), if a candidate lists more than one point per line and one of these points is incorrect, they can receive the mark for the other/correct point.</p> <p>In 3(a), whole sentences lifted from the passage which contain a number of points will not be credited, as they are not showing selection of points, and are not conveying the essence of the point.</p> <p>In 3(a), additional points added on to the bottom of the list (in addition to the 10) should not be credited unless earlier points have been removed/crossed out.</p> <p>In 3(a), if a point has been crossed out and not replaced with another (and it can still be read and is correct) it should be credited.</p> <p>In the Writing Mark Scheme descriptors for 3(b), the length of the candidate's response is no longer specifically referred to, however, it can still be borne in mind when considering the use of concision, or lack of, in the candidate's response. <b>The purpose of the assessment is the candidate's focus on the topic and the question</b>, and this is partly related to length, although it's not necessarily the case that an unfocused response will be over-long. <b>There is no requirement to count words.</b></p> <p>Candidates are assessed for Reading in 3(a) and for Writing in 3(b). They cannot be given marks for Writing for their response to 3(a), nor can they be given marks for Reading for their response to 3(b).</p>
