PREPARATION IN ADVANCE OF THE SPEAKING TESTS

- Centres must ensure well in advance of the tests that a suitably quiet room is available and that recording equipment is in good order.
- Centres receive a set of Speaking Assessment cards with this set of Teacher's/Examiner's Notes. These cards **must not be opened** until one working day before the test. Both the cards and the notes must remain confidential and must be kept in a secure place by the centre until the end of the examination period.

ON THE DAY OF THE SPEAKING TESTS

- All tests must be recorded in full throughout. The recording must not be paused or stopped at any point during the test.
- The Speaking test must be conducted in English throughout.
- The Speaking tests must take place in a suitable examination room under exam conditions. Adequate supervision must be provided to ensure that candidates leaving the examination room do not communicate with those waiting to enter.
- No other person should be present during the Speaking test, with the exception of another teacher/examiner, moderator or representative of Cambridge International.
- The examiner, and not the candidate, selects one of the Speaking Assessment cards before the candidate enters the examination room.
- Candidates cannot bring any notes into the examination room. They are not allowed to consult dictionaries or make any written notes.
- Candidates are allowed to ask for clarification if necessary at any point during the test.
- The examiner should be positioned so that he or she is facing the candidate with a table or desk in between. The examiner must not allow candidates to see notes made by the examiner.

RECORDING THE TESTS

Before the start of the Speaking test session, centres must make sure their recording equipment is in good working order by testing the equipment in the room where the Speaking tests will take place. Check audibility levels to avoid adjusting the volume during the Speaking test and ensure there is no extraneous noise in the examination room. Checks for audibility should continue throughout the Speaking test session.

Once the Speaking test has begun, the recording must run without interruption. Each recording should begin with a clear statement by the examiner as follows:

Examiner name: [e.g.] *Ms Z Abced*
Candidate number: [e.g.] *0021*
Candidate name: [e.g.] *Abdi Zachariah*
Date: [e.g.] *1 October 2024*.

At the end of the recording the examiner should state clearly 'end of recording'.

Before the recordings are submitted, spot checks must be made to ensure that every candidate is clearly audible. Each track should be renamed, giving the candidate number and name, rather than 'track 1', 'track 2', etc. A separate audio track is required for each candidate.

CONDUCTING THE SPEAKING TEST

Refer to the Speaking Assessments on pages 10–29 for details of the tests. The Speaking tests should proceed as follows:

Task	Duration	Task focus
Introduction	Approximately 1 minute	<p>Start the recording. State your name, the candidate's number and name, and the date. Welcome the candidate and read out the examiner script.</p> <p>This part is <u>not</u> assessed.</p>
Warm-up	Approximately 1–2 minutes	<p>Use the warm-up to put the candidate at ease by conducting a short conversation using the questions provided.</p> <p>This part is <u>not</u> assessed.</p>
Part 1: Interview	Approximately 2–3 minutes	<p>Tell the candidate the topic for this part by reading out the examiner script. Conduct a short interview with the candidate by asking the questions provided on this topic.</p> <p>This part is assessed.</p>
Part 2: Short talk	Approximately 3–4 minutes, including 1 minute of preparation time	<p><u>Preparation period for short talk</u> Read out the examiner script and give the Speaking Assessment card to the candidate. The candidate has up to 1 minute to read the card and prepare for the talk. Candidates are not allowed to make any written notes.</p> <p><u>Short talk</u> The candidate talks on their own about the topic on the card. The candidate can keep the card until the end of the short talk.</p> <p>This part is assessed.</p>
Part 3: Discussion	Approximately 3–4 minutes	<p>Read out the examiner script and conduct a discussion using the questions related to the topic in Part 2.</p> <p>This part is assessed.</p>

The total duration of the Speaking test, from the beginning of the introduction to the end of Part 3, should be 10–15 minutes and recorded in full.

Additional instructions on conducting Part 2 of the test

If the candidate has not started speaking after approximately 15 seconds, prompt the candidate by reading the following script:

Examiner script: *Are you ready to start talking about the points on the card?*

If the candidate has still not responded after another 5 seconds, prompt the candidate again by reading the following:

Examiner script: *Would you like to tell me about the options on the card?*

If the candidate still does not start, move on to Part 3 of the test by saying the following:

Examiner script: *Thank you. Can I have the card back, please? Now let's move on to Part 3 of the test.*

If the candidate has started speaking but then appears to be unable to continue, ask the following before moving on to Part 3 of the test:

Examiner script: *Is there anything else you would like to say? Thank you. Can I have the card back, please? Now let's move on to Part 3 of the test.*

Additional instructions on conducting Part 1 and Part 3 of the test

To elicit further discussion before moving on to another question, use any of the following:

Examiner script:

- *Can you tell me more about ...?*
- *Can you tell me why ...?*
- *Can you explain what you mean ...?*
- *Can you give me any examples of ...?*

If the candidate has very little to say in response to a question after being prompted, move on to the next one.

General advice

1 To conduct Speaking tests effectively:

- try to put candidates at their ease from the beginning (smiling as they enter the room, indicating where they should sit) while maintaining a clear sense that the Speaking test is being conducted in a formal examination situation
- be sensitive to candidates' circumstances when selecting the card. If you become aware during the warm-up that a topic may be inappropriate for the candidate in question, consider selecting another card
- show interest in candidates' responses
- encourage candidates to develop their responses by using additional questions.

Please avoid:

- distracting candidates
- interrupting with your own views or correcting mistakes
- showing impatience or too much surprise
- giving the impression that there are ‘right’ answers to questions or that the test is a test of knowledge
- indicating how well the candidate has performed by using phrases such as ‘well done’ or ‘that was very good’.

2 Please consider the following when marking:

Be objective. Do not allow any knowledge of a candidate’s personality and attributes to influence objective assessment. For example, knowledge that a candidate is very conscientious should not be taken into account when assessing his or her Speaking test. If the candidate’s performance is affected because he or she faces difficult circumstances or personal problems at the time of the test, this should be dealt with by an exams officer via special considerations procedures. Examiners must not make any separate allowance themselves.

Be positive. Marking the test should be seen as giving credit for what candidates can do, not penalising them for what they cannot do. This does not mean that matters of inaccuracy in, for example, grammar and pronunciation are to be overlooked, but is a reminder that a Speaking test is intended to credit positive achievement. Remember that it is not necessary for a candidate to be of first language speaker standard to be given maximum marks within any single category.

Be consistent. It is important that the marking criteria are applied in the same way for all the candidates at the centre so that a reliable rank order for the centre is obtained.

AFTER COMPLETING ALL THE SPEAKING TESTS AT THE CENTRE

- If using more than one examiner, internal moderation must be carried out by the centre so that a common standard is applied to all candidates. Further guidance on carrying out internal moderation at the centre is available in the *Cambridge Handbook* and on the Cambridge International website.
- Refer to the *Cambridge Handbook* for detailed instructions on submitting marks and recordings. You should keep a copy of each Speaking test. If any of the recordings submitted to Cambridge International is inaudible or faulty in any way, you may be asked to provide a replacement.

MARKING CRITERIA

The marking criteria must be applied consistently to all three parts of the test, resulting in an overall mark for each of the four criteria.
