This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners’ meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Exercise 6  News from home

Tolerate any idea of the friend having gone away, regardless of whether or not the candidate mentions another country.

Note: all three bullet points need to be addressed for the content to be ‘satisfactory’ but not all need to be developed in equal measure. Bullet points may be addressed in any order.

Exercise 7  Life for teenagers

The following general instructions, and table of marking criteria, apply to both exercises.

- **Content** covers relevance (i.e. whether the piece fulfils the task and the awareness of purpose / audience / register) and the development of ideas (i.e. the detail / explanation provided and how enjoyable it is to read).

- **Language** covers style (i.e. complexity of vocabulary and sentence structure) and accuracy (of grammar, spelling, punctuation and use of paragraphs).

- When deciding on a mark for content or language, first of all decide which mark band is most appropriate. There will not necessarily be an exact fit. Then decide between 2 marks within that mark band. Use the lower mark if it only just makes it into the band and the upper mark if it fulfils all the requirements of the band but doesn’t quite make it into the band above.

- When deciding on a mark for content, look at both relevance and development of ideas. First ask yourself whether the writing fulfils the task, in terms of points to be covered and the length. If it does, it will be in at least the 4–5 mark band.

- When deciding on a mark for language, look at both the style and the accuracy of the language. A useful starting point would be first to determine whether errors intrude. If they do not, it will be in at least the 4–5 mark band.

- The use of paragraphs should not be the primary basis of deciding which mark band the work is in. Look first at the language used and once you have decided on the appropriate mark band, you can use the paragraphing as a factor in helping you to decide whether the work warrants the upper or lower mark in the mark band.

- If the essay is considerably shorter than the stated word length, it should be put in mark band 2–3 for content or lower for not fulfilling the task.

- If the essay is totally irrelevant and has nothing to do with the question asked, it should be given 0 marks for Content and Language, even if it is enjoyable to read and fluent.

- If the essay is partly relevant and therefore in mark band 2–3, the full range of marks for language is available.
