UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the May/June 2011 question paper for the guidance of teachers

0680 ENVIRONMENTAL MANAGEMENT

0680/12 Paper 1, maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2			Mark Scheme: Teachers' version	Syllabus	Paper		
				IGCSE – May/June 2011	0680	12	
1	(a)	(i)	•	tosynthesis;		[1]	
		(ii)	soil/eq; ® ground carbon dioxide; light/radiation; (R) rays chlorophyll; [4]				
						[-1	
	(b)	(i)		le drip;		[1]	
		(ii)	gene	riculture which ensures that conditions are still as good for the practice for future nerations; [1] eject use of word sustainable or its derivatives as key part of answer)			
		(iii)	For water less B: water so can does	A: er directed at roots; lost (in evaporation); er broadcast/eq; an evaporate; sn't get to plant; Either:			
			ref.	salinisation (i.e. less with A, or more with B. Or uss low leaching with A.);	can say more wi	th A as long as [3]	
						[Total: 10]	
2	(a)	(i)	hunt	er-gatherer;		[1]	
		(ii)	who	eper of stock/cattle/AVP; moves his animals to fresh pasture when necessar s not stay in one place (stand alone mark);	у;	[2]	
	(b)	(i)	uses	ism which caters to those interested in natural envir s tourist money to protect environment; must be protected to keep money coming in;	onments/eq;	[2]	
		(ii)	cons migh and wilde	servationists want to protect animals that might af nt kill animals etc. that conservationists want to keep then egs such as: ebeest/herbivores, compete with cattle; s/other predators predate/eat cattle;			
				ricts movement of nps/reluctance of nps to share ho	ome/land	[3]	
		(iii)	repla add plan	amation/restoration; ace overburden/add soil; ® just filling hole fertiliser/eq/; t (trees etc.);			
				ving water to infill depressions – lakes; lling spoil heaps;		[2]	
						[Total: 10]

		IGCSE – May/June 2011 0680	0680	12
(a) (i)	B C	evaporation; transpiration/evapotranspiration; precipitation/rainfall/eq; for 2; any 2 or 1 for 1		[2]
(ii)		ration water enters soil/ground (and then drains awa ff does not enter soil/flows along ground (before dra		a); [2]
(iii)	desa	alination;		[1]
(b) (i)	32.8	,		[1]
(ii) correct bars drawn;(tuna must just be below 9th line, shrimps must be in middle of 7				[1] h lines)
(iii)	(too) fish i upwe low i	ino; rsal of current/current changes direction; warm/eq; not adapted to warm; elling stops; nutrients; ess food/eq;		
		migrate/eq;		[3]
				[Total: 10]
(a) (i)		mometer; e shade/not in direct sunlight/S screen;		[2]
(ii)	clear cond OR can can Sun (NO idea	r glass sphere; centrates light on recording sheet which is burnt; Jordan's; with pinhole; darkens photosensitive paper inside when shines to TE. Can give one for correct name of device as all of paper burning or being affected in some way by of doing this)	bove. General id	•
(b) (i)	hour °C/F	rs/duration/amount of sunshine, per (or /) month;		[2]
(ii)	solaı	r;		[1]
(c) (i)	aner	mometer;		[1]
(ii)		s killed; aesthetic; noise; s land, qualified (e.g., agricultural, beautiful);		[2]
				[Total: 10]

4

Page 4	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – May/June 2011	0680	12

5 (a) fishing for food/eq; (Must say or imply food)

wave/tidal energy;

tourism/recreation;

bulk/large/heavy/eq transport;

drinking water/irrigation/domestic water use; (but only if some suggestion of 'must be treated first')

oil/gas/eq; [2]

(b) (i) spills/leaks;

destroys marine life;

poison fish/kill birds; (not just fish killed or die)

oiling of birds;

ref. to O₂ falls/eq;

oiling/coastal pollution, beaches;

ref. economic effects (qualified); [3]

(ii) booms/double hulls/detergent/burning/sucking up

[1]

(c) (i) along rivers;

[1]

(ii) increased levels of nutrients or named;

increased algal growth;

algae die;

increased organic matter;

decomposes;

lowering oxygen;

eutrophication;

'fish die' (qualified, e.g. lack of oxygen, food)/eq (e.g. aerobes/eq); ® death of organisms/eq [3]

[Total: 10]

	IGCSE – May/June 2011	0680	12

6 (a) (i) developing: 3.3/3.3 billion;

[1]

- (ii) developed: 0.3 billion (ignore other attempts at this figure as long as correct one in there somewhere!!); [1]
- (iii) developing more to start with/bigger area of whole world/ora;

any social factors dealt with comparatively;;

(e.g. family planning/poor/large families/looking after the parents/no (pension systems/eq), ref. birth rate)

transfer of medical knowledge from 'west' (in 1950s)

[3]

(b) (i) A: developing AND

B: developed;

[1]

(ii) In A:

high(er) birth rate/more young people/ora A/B;

data;

low(er) life expectancy A/B;

equal numbers of men and women at all ages;

In B

more middle-aged/more economically active;

data:

many more older people/high(er) life expectancy/death rate low(er);

data:

more women than men in older age groups or quoted;

One mark for A young population, B ageing, that is, BOTH statements;

(Notes:

Where say low for A must say high for B to get comparative.

Can get 4 for 4 descriptive points

OR for fewer than 4 but with data supporting any given, up to 2

So max for data quotes is 2)

[4]
