UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS

International General Certificate of Secondary Education

MARK SCHEME for the May/June 2011 question paper for the guidance of teachers

0680 ENVIRONMENTAL MANAGEMENT

0680/42 Pape

Paper 4 (Alternative to Coursework), maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

	Page 2			Mark Scheme: Teachers' version		Syllab	us	Paper			
					IGCS	E – May/Jι	ıne 2011		0680)	42
1 ((a)	(i)	world	d recession	recession/lack of demand/product substitution/Ni surplus/eq;						[1]
		(ii)	to keep the price high/help price recover/eq; to maintain profit/reduce costs; (allow metal ore to last longer/eq)							s; [2]	
((b)	(i)	15 (t	onnes);	reject Ko	g or other ur	nits				[1]
		(ii)					oil needs to struction/eq;				pollution/visual [1]
((c)			asks/eq; hours/exp	•	_	gloves/wash	ing facili	ities/eq; (a	llow re	f to controlled [2]
((d)	(i)	very	few fema	ale miner	s/eq;					[1]
		(ii)	to gi	ve diseas	ses time t	to develop/e	eq;				[1]
		(iii)					eath in mine s from lung c			miners	; [1]
		(iv)	mine		ers with n	on smokers	mpare smok s; include wo				
((e)	(i)	B , lo	ngest co	ntact/clos	sest to mine	and/ or mine	e waste;			[1]
		(ii) heavy metals (normally) heavy metal passes up for some small fish may die; reproduce;			p food chair	n(s)/eq;			tarved/p	oisoned/do not [2]	
		(iii)	_	graph plo w popula		•	nber of <u>mayfl</u>	<u>ies</u> / A B (DE);; plo	ts;	[4]
		(iv)	•	flies incre ickel;	ease furth	ner away fro	om the mine/	converse	e statement	/eq; ma	yflies poisoned [2]
((f)				•	n/damage teaper than n	o the enviror nining;	nment; mi	ining reserv	es last	longer; [2]
((g)	(i)	pollu	ıtion redu	ced at te		after one yea uces over tin /eq;				[2]
		 (ii) advantage fast; fast/easy/cheap/ no skill needed/ no special equipm disadvantage not a specific response to Ni/ no concentration measu much Ni is present/ref to validity; 									
		(iii)	more	e than 10	yrs/11+y	rs;					[1]

Page 3		}	Mark Scheme: Teachers' version	Syllabus	Paper				
			IGCSE – May/June 2011	0680	42				
(h) (i)	plant Euphorbia in soil; extract water and grow mung beans/use same method; measure root growth of mung beans;							
	(ii)	coul gene	d become a dominant/invasive plant/outcompetes nd alter food chains/webs/eq; es may pass to local plants/ hybridise with local e	idise with local euphorbs; could introduce a new					
		pesi	pest/disease; [2						
	(iii)		very valuable export; not highly dangerous to humar nvironment; provides jobs/income to people/country						
		_	against: destroys farmland; toxic to humans/livestock/eq; and environment; does not employ many people; (max 2 if both for and against arguments given)						
2 (a)) (i)	Octo	ober, February;		[1]				
	(ii)	Nov-	–April;		[1]				
	(iii)	112	(days);		[1]				
(b) (i)	2. fe	ower no. of plants; less cell division/growth; ewer leaves; so less photosynthesis/growth; ewer flowers; so fewer seeds/ less reproduction;		(max 4)				
	(ii)	(low	er number/absence of) flowers;		[1]				
	(iii)	do w	veevils infect other plants/crops/alter food chains/ca	n weevils survive	eevils survive/eq; [1]				
(c)) (i)	three valid points related to source eg: medium/high milk yield; medium/high growth rate; low stress at high temperatur disease resistance;							
	(ii)	table	e drawn; suitable headings(milk yield/days); for 7 da	ys;	[3]				
(d) (i)	chicl	income from) milk; cost of buying new animals; kens not enough of a substitute food source/eq; much to sell; only cassava to eat; so have to buy in t	ood source/eq;					
	(ii)		er because using WH to keep/feed cattle; so milk all a source of food for chickens; can sell chickens/egg	-	[2]				
	(iii)	bear	e crops/food sources grown; so always something to ns are N fixers; beans are a high protein food; tomat ing dry WH helps keep cattle/milk production;

	IGCSE – May/June 2011	0680	42

(e) good ideas such as:

- 1. cattle by channel, qualified;
- 2. WH dried on field edges;
- 3. chickens can be moved to any field to eat crop wastes;
- 4. cattle can be fed crop wastes;
- 5. a rotation idea;
- 6. further detail of rotation; e.g. leave a field fallow
- 7. beans fix N;
- 8. and 9. AVP;; such as ref to irrigation/water supply, chickens close to farmhouse for security, tomatoes need water, so in fields1/2/3, keep chickens away from beans and tomatoes [4]
