

ENVIRONMENTAL MANAGEMENT

0680/23 October/November 2016

Paper 2 MARK SCHEME Maximum Mark: 80

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2016 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

| Question | Answer | Marks |
|-----------|--|-------|
| 1(a)(i) | an earthquake is a tremor or vibration in the Earth's crust / tectonic plates moving past each other causing shaking of the ground; | 1 |
| 1(a)(ii) | any 3 of: uneven distribution / not found all over the world; along plate margins; appropriate example to illustrate; narrow belts; around the edge of the Pacific Ocean; middle of Atlantic Ocean; edges of some continents / example; | 3 |
| 1(a)(iii) | any 4 of: oceanic and continental plates converge/move together/tremors or vibrations through the earth's crust; dragged by convection currents in the mantle; oceanic plate moves below continental; friction; pressure build up; pressure release; | 4 |
| 1(b)(i) | correct use of scale; countries labelled on <i>x</i> -axis; all bars correctly plotted;; | 4 |
| 1(b)(ii) | China Indonesia Italy United States of America (Allow USA) 4 correct = 2, 3 correct =1, 1/2 correct = 0 | 2 |
| 1(b)(iii) | it has a low death toll but a high magnitude compared to the others; | 1 |

| Question | Answer | Marks |
|-----------|---|-------|
| 2(a) | <i>any 3 of:</i> poorest continent is Africa / most low GDP countries are in Africa; few countries (with a GDP of under 2000 US Dollars) above / north of the Tropic of Cancer; named example of a specific country; most low GDP countries are between the Tropic of Cancer and Tropic of Capricorn; | 3 |
| 2(b)(i) | Mali; | 1 |
| 2(b)(ii) | 38 025; | 1 |
| 2(b)(iii) | 6; | 1 |
| 2(b)(iv) | <i>any 3 of:</i> Higher GDP countries have lower birth rates lower GDP countries have higher birth rates; as GDP increases, birth rates decrease; paired statistics for two countries to compare; anomalies exist which do not fit the pattern; example of an anomaly; | 3 |
| 2(b)(v) | Japan because lowest birth rate/USA because highest GDP; appropriate reason; | 2 |
| 2(c)(i) | any 4 of: less food; fewer doctors per person; less, hospitals/medical facilities; fewer vaccinations; unclean/unsafe water; lack of sanitation; overcrowded housing/people living in shanty towns; greater incidence of disease/epidemics; lack of knowledge of how to prevent disease; | 4 |

| Question | | | Answer | | | Marks |
|-----------|---|--|---------------------|------------|--|-------|
| 2(c)(ii) | any 3 of: number of persons per room; percentage of houses with access to electricity; persons of houses with running water; overall percentage of literacy; primary school enrolment; average calorie intake; people per doctor; access to safe water; employment levels; | | | | | 3 |
| 2(d)(i) | country | type of Exports | example | value | | 2 |
| | developed | manufactured Goods | cars | high | | |
| | developing | primary products | сосоа | low | | |
| 2(d)(ii) | product might run | out / price may fall / crops ma | ay fail / reduction | in demand; | | 1 |
| 2(d)(iii) | good working cond sustainable develo long term contract | opment/attention to the envir s; vestment in community; omen; | onment; | | | 2 |
| 2(e)(i) | correctly placed lir correct shading us | | | | | 3 |

| Question | Answer | Marks |
|-----------|--|-------|
| 2(e)(ii) | any 4 of: improved schools / education / free; better hospitals / more doctors ; more jobs; better paid jobs in factories; bright lights / entertainment opportunities; improved accessibility / communications; modern homes with improved living conditions; better infrastructure / supply of resources e.g. electricity; | 4 |
| 2(e)(iii) | correctly placed line; correctly shading using the key; | 2 |
| 2(e)(iv) | any 2 of: lack of electricity; crime; air pollution; noise; poverty; poor quality jobs / underemployment; | 2 |
| 2(f) | Level of response marked question Indicative content: human lives more important than the environment reliable supply of food for people food security for countries food is currently wasted reduces malnutrition / hunger people will be healthier/have more energy to work irrigation and impact on soils overgrazing and desertification over cultivation and desertification fertilisers and eutrophication pesticides and impact on food chain | 6 |
