GEOGRAPHY 0976/22

Paper 2 Geographical Skills May/June 2025

1 hour 30 minutes

You must answer on the question paper.

You will need: Insert (enclosed) Plain paper

1:50 000 survey map (enclosed) Protractor Calculator Ruler

INSTRUCTIONS

- Answer all questions.
- Use a black or dark blue pen. You may use an HB pencil for any diagrams or graphs.
- Write your name, centre number and candidate number in the boxes at the top of the page.
- Write your answer to each question in the space provided.
- Do **not** use an erasable pen or correction fluid.
- Do not write on any bar codes.
- If additional space is needed, you should use the lined pages at the end of this booklet; the question number or numbers must be clearly shown.

INFORMATION

- The total mark for this paper is 60.
- The number of marks for each question or part question is shown in brackets [].
- The insert contains additional resources referred to in the questions.

LEDCs – Less Economically Developed Countries MEDCs – More Economically Developed Countries

This document has 20 pages. Any blank pages are indicated.

BLANK PAGE

- 1 Study the map extract for the Île d'Oléron, France. The scale is 1:50000.
 - (a) Fig. 1.1 shows some of the features in the north of the map extract.

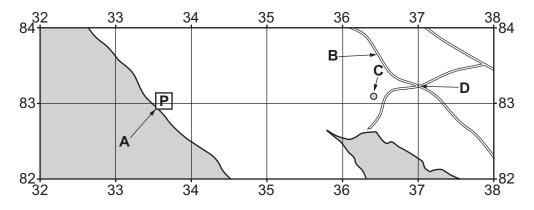

Fig. 1.1

Using the map extract, identify the following features shown in Fig. 1.1:

(i) feature A

.....[1]

(ii) the type of road at B

.....[1]

(iii) feature C

.....[1]

(iv) the height above sea level of point D.

..... metres [1]

(b) Give the six-figure grid reference of the crossroads at point **D** shown in Fig. 1.1. Tick (✓) **one** box.

| | tick (√) |
|--------|----------|
| 370832 | |
| 342828 | |
| 832370 | |
| 842371 | |

[1]

- Find the museum at le Château-d'Oléron in grid square 4083 and the museum at Saint-Trojan-les-Bains in grid square 3978.
 - What is the straight-line distance from the museum at le Château-d'Oléron to the museum at Saint-Trojan-les-Bains?

| metres | 1 | 1 |
|--------|---|---|
| | | |

(ii) What is the compass direction from the museum at le Château-d'Oléron to the museum at Saint-Trojan-les-Bains?

| F 43 |
|-----------|
| 111 |
| 111 |
| 1 • 1 |

(iii) Measure the compass bearing from the museum at le Château-d'Oléron to the museum Saint-Trojan-les-Bains.

| degrees | [1] |
|---------|-----|
|---------|-----|

(d) Study the map extract north of northing 82.

Identify three different activities that can be done by tourists in this area and state the map evidence for each activity. One example has been done for you.

| | activity | map evidence |
|------|----------|------------------------|
| e.g. | cycling | there is a cycle trail |
| 1 | | |
| 2 | | |
| 3 | | |

[3]

(e) Fig. 1.2 is a cross-section across the Île d'Oléron along northing 78 from 360780 to 390780.

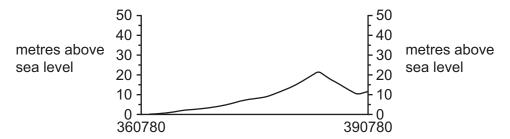

Fig. 1.2

| (i) | What is the main land-use along this cross-section? | |
|------|---|-----|
| | | [1] |
| (ii) | What is the maximum height of the land along the cross-section? | |
| | metres | [1] |

f) Identify three correct statements about the distribution of the settlements shown on the map extract. Tick (✓) three correct answers.

| | tick (✓) |
|----------------------|----------|
| mostly in the north | |
| evenly distributed | |
| linked by main roads | |
| more along the coast | |
| mostly in the east | |
| mostly on high land | |

[3]

| 3773 and the northern edge of the map in grid square 3284. |

2 (a) Fig. 2.1 shows the development of a tourist resort in the UK between 1800 and 2000.

Content removed due to copyright restrictions.

Fig. 2.1

How many tourists visited the resort at its peak in 1955?

| | | million | [1] |
|----|------|---|---------|
| | (ii) | For how many years did the number of tourists to the resort decrease? | |
| | | years | [1] |
| b) | Usi | ng Fig. 2.1, identify four factors that helped explain the rise in the number of tourists. | |
| | 1 | | |
| | 2 | | |
| | 3 | | |
| | 4 | | [2] |

| * 0000800000007 * | |
|-------------------|--|
| | |

(c) Using Fig. 2.1, suggest why the following factors resulted in fewer tourists visiting the resort.

7

| growth of package holidays |
|----------------------------|
| |
| |
| |
| resort now run down |
| |
| |
| |
| |

[2]

5 (a) Fig. 5.1 (Insert) shows the location of the largest magnitude earthquakes in 2022 together with their depth of focus.

12

Using Fig. 5.1, tick (✓) the **three** correct statements.

| | tick (✓) |
|---|----------|
| Most earthquakes occur on or near to the coast. | |
| The earthquakes are equally distributed around the world. | |
| The Atlantic and Indian Oceans each have one earthquake. | |
| The biggest concentration of earthquakes is in the South Pacific Ocean. | |
| The earthquakes with a deep depth of focus all occur on land. | |
| The earthquakes with a deep depth of focus have the highest magnitudes. | |
| | |

| (b) | (i) | Study Fig. 5.2 (Insert), which shows a weak relationship between magnitude and number of deaths. |
|-----|------|--|
| | | Use evidence from Fig. 5.2 to support this statement. |
| | | |
| | | |
| | | [2] |
| | (ii) | Suggest two reasons why some major earthquakes cause no deaths. |
| | | 1 |
| | | 2 |
| | | |

(c) Earthquakes are caused by tectonic plate movement.

Tick **one** box (\checkmark) to show the cause of this movement.

| cause | tick (✓) |
|------------|----------|
| conduction | |
| convection | |
| radiation | |
