Paper 1

October/November 2020

MARK SCHEME

Maximum Mark: 75

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2020 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

This document consists of **17** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Each question carries 25 marks. Candidates cannot earn above the maximum marks available within each sub section.

The marking scheme attempts to give guidance about the requirements of each answer and lists a number of responses, which will earn marks along with the general principles to be applied when marking each question.

It should be noted that candidates can earn marks if their answers are phrased differently provided they convey the same meaning as those in the mark scheme. **THE CANDIDATES DO NOT NEED TO USE THE SAME WORDING TO EARN MARKS.**

The notation 'etc.' at the end of an answer in the mark scheme signifies that there may well be other correct responses or examples that can be given credit. Providing the statement is true, relevant to the question asked and not repetition of a previous point made credit should be given.

A point made within one sub-section which is an answer to the question set in a different sub-section should not be given credit as each sub-section asks different questions which require independent answers.

The mark scheme uses semi colons (;) to separate marks and diagonals to separate alternative answers.

During coordination the mark scheme is modified to add points agreed after discussion or to delete any points not allowed. All examiners should ensure that their modified scheme is fully up-to-date before marking begins.

Marking Mechanics.

Point marking is used for sections (a) and (b) of each question, although marks are available in specified questions for development of appropriate points. Ticks should be used to clearly indicate where a mark has been allowed. Where a development point has been allowed the symbol 'DEV' should be placed adjacent to the tick. The number of ticks should always be equal to the total number of marks awarded. Only one development mark for each mark scheme point please.

Where a candidate makes a point which is not quite sufficient for credit an upturned 'V' insert symbol should be used. If after careful consideration a mark is awarded which gives 'benefit of doubt' to the candidate the letter 'J' should be placed adjacent to the tick (i.e. the candidate has 'just' achieved the mark).

Crosses are acceptable to signify wrong answers and the letters 'I/R' should be used to indicate those which are irrelevant.

Levels of response marking is used for section (c) of each question.

Thus it is the quality of the response that determines which level an answer has achieved rather than the quantity of statements contained within it. However, once assigned to a level the mark achieved within that level is determined by the number of points made.

Levels 1 and 2 are distinguished by whether statements are simple (level 1) or developed/elaborated (level 2). A candidate can immediately enter L2 by making developed points without making any L1 statements. In order to achieve L3 a candidate must have already reached the top end of L2 – in addition his/her answer should have a clear example and if the answer is place specific as well (7 marks). Highlight place specific detail.

Where statements are assigned levels by the examiner this should be indicated by the use of L1 and L2 next to the statements. Ticks should **not** be used on answers that are marked using levels of response marking. L1 annotation should be removed once a L2 is awarded for an answer. L3 annotation is not used. There is no need for a summary level at the end of a response.

Summary:

Level 1 (1 to 3 marks):

- 1 simple statement (1 mark)
- 2 simple statements (2 marks)
- 3 simple statements (3 marks)

Level 2 (4 to 6 marks):

- 1 developed statement (4 marks)
- 2 developed statements (5 marks)
- 3 or more developed statements with eg (6 marks)

Level 3 (7 marks)

- 3 or more developed statements + named example with at least one piece of place specific detail.

Question	Answer	Marks
1(a)(i)	345–355 (thousand)	1 1 mark
1(a)(ii)	UK ... India ... Philippines ... Pakistan All correct = 2 marks 2/3 correct = 1 mark	2
1(a)(iii)	Ideas such as: Increased number from China; China: 170 000–175 000 (in 1990) to 710 000–718 000 (in 2015)/by 540 000–548 000 Decreased number from Italy; Italy: 340–345 000 (in 1990) to 280 000 to 285 000 (in 2015)/by 60 000–65 000 (needs thousands); In 1990 more from Italy than China and in 2015 more from China than Italy; Statistics 1 Max supporting any of the above.	3 3 @ 1 mark
1(a)(iv)	Ideas such as; Difficulty finding employment; Discrimination/ <u>racial</u> abuse/ <u>racial</u> conflict/ <u>racial</u> tension/xenophobia; Low pay/exploitation; Language difficulties; Finding/affording a home/poor housing/housing problems; Healthcare may not be affordable; Education may not be affordable; Away from friends and family; Qualifications will not be accepted; Hard to get citizenship/green card/permission to work; Etc.	4 4 @ 1 mark
1(b)(i)	Ideas such as: Clustered/uneven; <u>Mainly</u> in Northern hemisphere; Northern South America/Western coast of South America/North West of South America; Central America/Caribbean; Central/North/North West/East/West Africa/Northern coast of Africa; Southern Asia/SE Asia; Eastern Europe; NB Credit correct areas of continents, as suggested above, but do not credit country names	3 3 marks

Question	Answer	Marks
1(b)(ii)	<p>Ideas such as: They have more emigrants than immigrants; Unemployment/low pay; Poor health care/less doctors/hospitals etc.; Poor education/not enough schools; To escape poverty/low GDP; Lack of <u>clean</u> water/sanitation; Drought; Earthquake/volcanic eruption/tsunami/tropical storm or example; Power cuts/outages/not enough electricity; War/conflict; Inadequate food supplies/famine/can't grow crops etc.; Persecution /lack of freedom; Corruption/political instability/poor government/dictatorship; Genocide/murder rate; Air pollution/smog;</p> <p>NB Only accept push factors, unless phrased as better/more 5 @ 1 mark or development</p>	5
1(c)	<p>Levels marking</p> <p><u>Level 1</u> (1–3 marks) Statements including limited detail which describe benefits and/or problems of receiving large numbers of immigrants.</p> <p><u>Level 2</u> (4–6 marks) Uses named example. More developed statements which describe benefits and/or problems of receiving large numbers of immigrants. (NB Max 5 if no named or inappropriate example)</p> <p><u>Level 3</u> (7 marks) Uses named example. Comprehensive and accurate which describe benefits <u>and</u> problems of receiving large numbers of immigrants including some place specific reference.</p> <p><u>Content Guide:</u> Answers are likely to refer to: Labour force, Diverse culture/cuisine etc., Setting up services, Pressure on employment, Traffic congestion, Racial conflict, Pressure on services etc.</p> <p><u>Place specific reference is likely to consist of:</u> Named parts of/places in the chosen country, migration data,</p>	7

Question	Answer	Marks
2(a)(i)	Linear/hamlet/village	1 1 mark
2(a)(ii)	Ideas such as: Spread out/widely spaced/scattered buildings; Separated by farmland/(houses) surrounded by fields; No obvious pattern/haphazard; Sparse population/low population density;	2 2 @ 1 mark
2(a)(iii)	Ideas such as: (Road) junction/where roads meet; Built around castle/defence/safety; Near to place of worship/church; Water source/spring/river;	3 3 @ 1 mark
2(a)(iv)	Ideas such as: Movement from urban areas/inner city/rural areas; People can live in countryside and travel to work in urban area; Increased car ownership/improved roads/better public transport or examples/travel long distances more easily; Attraction of living in countryside or example e.g. quiet/little air pollution/lots of air pollution/crime/noise in city Max 3; Pressure on land within boundary of urban area/more space to build houses/larger houses/cheaper land; Movement from rural areas/movement to areas which are closer to the urban areas; Attraction of living close to city e.g. work, health care, shops etc. Max 3;	4 4 @ 1 mark
2(b)(i)	Ideas such as: Wykeham is north/north east (of river) but East Heselton is south (of it); Wykeham is further away from river; Wykeham is lower land/East Heselton is higher/Wykeham is 30 m above sea level but East Heselton is above 30 metres; East Heselton is on A64 but Wykeham is on A170 etc. NB Must be comparative	3 3 @ 1 mark
2(b)(ii)	Ideas such: All are along roads to enable easy access; To avoid flooding; But river is close enough <u>for water supply</u> ; Close to fertile land available on flood plain; Gently sloping (building) land etc.	5 5 @ 1 mark or development

Question	Answer	Marks
2(c)	<p>Levels marking</p> <p><u>Level 1</u> (1–3 marks) Statements including limited detail which describe or explain the service provision.</p> <p><u>Level 2</u> (4–6 marks) Uses named example. More developed statements which explain service provision. (NB Max 5 if no named or inappropriate example)</p> <p><u>Level 3</u> (7 marks) Uses named example. Comprehensive and accurate statements which describe and explain service provision with some place specific reference.</p> <p><u>Content Guide:</u> Answers are likely to include reference to either pulls or pushes such as: Candidates can choose any size settlement and explanations are likely to refer to ideas such as: Population size/market, Threshold population, Spheres of influence, Order of service e.g. low order Nearby competition Needs of population e.g. lots of hotels (L1) because tourists go there (L1) etc.</p> <p><u>Place specific reference is likely to consist of:</u> Population size, Locational details, Specific details/names of the services, Other nearby settlements etc.</p>	7

Question	Answer	Marks
3(a)(i)	60–65 (km)	1 1 mark
3(a)(ii)	Ideas such as: Clustered; <u>Close to/along/near/just off coasts/around</u> the coast; East; South west/bay on west;	2 2 @ 1 mark
3(a)(iii)	Ideas such as: Warm <u>water/water/sea</u> temperatures between 18– 27 °C (accept figure within range); Shallow water/not more than 50–60 metres deep (or any figure within this range); <u>Water</u> free from sediment/clear/clean/not polluted; Plentiful supply of oxygen in water; Plentiful supply of plankton/nutrients; Gentle waves/currents/slow moving/calm water; Neutral/high pH/alkaline water; Salty water;	3 3 @ 1 mark
3(b)(i)	Ideas such as: Sandy beach/mainly sand/sand; Pebbles/shingle; Wave cut platform/bare rock/rocky; Sand/smaller material close to sea; Pebbles/large materials higher up beach/near high tide mark; Longshore drift/movement along coast; Strong/large swash <u>and</u> weak backwash/material moved up beach by swash but too heavy to be removed by backwash/only finer materials moved by backwash; Constructive/destructive waves; Bare rock is where cliff has been worn away etc. <u>NB 1 mark reserved for description/explanation</u>	3 3 @ 1 mark
3(b)(ii)	Ideas such as: Groynes; Prevent longshore drift/trap sediment; Beach nourishment/add sand to beach; (Concrete sea)wall/path/steps; Rock armour/rock at side of beach/at coastline; Reinforces/protects from wave attack/breaks waves; <u>Planting</u> vegetation; Stabilises cliff;	4 4 @ 1 mark

Question	Answer	Marks
3(b)(iii)	<p>Ideas such as: Differential erosion has taken place; Different rock types outcrop along the coast/alternating hard and soft/discordant coast; Headlands likely to be harder rock/more resistant; Hard rock will <u>not have eroded as rapidly</u>; Bays likely to be softer/less resistant/unconsolidated rock; Soft rock eroded <u>more rapidly</u>; Hydraulic action/abrasion or explanation;</p> <p style="text-align: right;">5 @ 1 mark or development</p>	5
3(c)	<p>Levels marking</p> <p><u>Level 1</u> (1–3 marks) Statements including limited detail which describe the features of a sand spit and/or explain its formation.</p> <p><u>Level 2</u> (4–6 marks) More developed statements which explain its formation.</p> <p><u>Level 3</u> (7 marks) Comprehensive and accurate statements which describe the features of a sand spit <u>and</u> explain its formation.</p> <p>NB Check diagram for description/explanation.</p> <p><u>Content Guide:</u> Shape, Location, Height, Features e.g. dunes, salt marsh behind it Longshore drift, Deposition, wind etc.</p>	7

Question	Answer	Marks
4(a)(i)	3 (°C) 27–30^	1 1 mark
4(a)(ii)	Hot deserts = E (on and around the Tropics of Cancer and Capricorn) Tropical rainforests = C (on and around the Equator)	2 2 @ 1 mark
4(a)(iii)	Ideas such as: Air is descending; It heats up/does not cool; Condensation does not occur/clouds do not form; Precipitation is low/does not occur/drier/ <u>only has</u> e.g. 250 mm per annum etc.	3 3 @ 1 mark
4(a)(iv)	Ideas such as: There are large amounts of water sources/rivers/swamps; Low pressure; Overhead sun/direct sunlight; It's hot/temperatures are high/heat water; <u>Large</u> amounts of evaporation; <u>Large</u> amounts of transpiration; Air/water vapour rises/convection; Condensation occurs/clouds form/build up/droplets form; Saturation/clouds cannot hold any more water; Repeated everyday/daily pattern/no seasons/all year round etc.	4 4 @ 1 marks
4(b)(i)	Ideas such as: <u>They both increase (overall);</u> SE Asia rises <u>but</u> South America rises then falls/South America falls but SE Asia rises (in 2010/after 2005); <u>Largest increase</u> (overall) is in SE Asia/smallest increase is in South America; SE Asia has the largest (sudden) increase in growth/spikes/increase in growth was more rapid (after 1995/from 2000); SE Asia has more deforestation than South America at the beginning/to 1960/changes by 1965; South America is higher in the middle/from 1965–2005/after 1960; SE Asia has more deforestation than South America at the end/from 2005;	3 3 @ 1 mark

Question	Answer	Marks
4(b)(ii)	<p>Ideas such as: Economic development (for country); To earn money (individuals)/<u>valuable</u> wood; Large area <u>so difficult to monitor</u>; Corruption; Logging/timber/furniture/paper; Firewood/charcoal; Cattle grazing/ranching/rearing livestock; Cash crop farming/palm oil/plantations; Settlement/urban growth/examples of buildings e.g. schools; Road building/railways; Mining/quarrying <u>minerals or example</u> e.g. gold; HEP/dams etc.</p> <p style="text-align: right;">5 @ 1 mark or development</p>	5
4(c)	<p>Levels marking</p> <p><u>Level 1</u> (1–3 marks) Statements including limited detail which describe the impacts of deforestation.</p> <p><u>Level 2</u> (4–6 marks) More developed or linked statements which describe the impacts of deforestation.</p> <p><u>Level 3</u> (7 marks) Comprehensive and accurate statements which describe the impacts of deforestation including place references, including named place(s).</p> <p><u>Content Guide:</u> Local/global Impact on people or natural environment Answers are likely to refer to: Soil erosion, Loss of biodiversity, Loss of habitat, Extinction of species, Climate change, Increase in likelihood of flooding, Loss of land for indigenous peoples, Global warming Medicines etc.</p>	7

Question	Answer	Marks
5(a)(i)	Black (River Gorge)	1 1 mark
5(a)(ii)	Idea such as: North/NNW of the island; <u>On</u> the coast/in a bay/next to sea/ocean; NNE of Port Louis; 20 km from Port Louis; 7 km from Mont Choisy; N/NNW of airport etc.	2 2 @ 1 mark
5(a)(iii)	Ideas such as: Shopping <u>mall</u> ; (Hindu) temple; (Dodo) museum; Heritage site; Botanical garden; Dolphin cruise/subscooter ride/submarine/watersports/diving; Bird park/walk with the lions; Do not credit name of place on its own e.g. Flic En Flac	3 3 @ 1 mark
5(a)(iv)	Ideas such as: Employment/or example/paid work; Increase in business for e.g. hotels/souvenir shops/taxi drivers etc.; Can afford e.g. schooling/healthcare; Increased GDP/foreign currency inflows/money into country; Multiplier effect; Improved skills/education/build schools; Better healthcare provision/build hospitals; Increased market for local farm products/fish; Example of infrastructural development e.g. Electricity, sewage disposal, water supply; Transport improvements (or example e.g. airport, roads); Cultural exchange etc.	4 4 @ 1 mark
5(b)(i)	Ideas such as: Blue/clear/clean/calm/unpolluted sea/water; Sandy/white/empty/not crowded/gently sloping beach; Sheltered bay; Tropical vegetation/palm tree; Mountain views; Sunshine/clear skies/sunny/blue sky/direct sunlight;	3 3 @ 1 mark

Question	Answer	Marks
5(b)(ii)	<p>Ideas such as:</p> <ul style="list-style-type: none"> Traffic congestion; Atmospheric pollution/traffic fumes; Pollution of water/sea; Noise; Low paid jobs/exploitation; Work is seasonal; Offence caused by behaviour/appearance of tourists Inflation/cannot afford prices in shops; Loss of farmland; Clearance of housing (due to facilities being built); Loss of fishing grounds; Loss of privacy; Pressure on water supplies; Deforestation/loss or damage to plants; Loss of habitat; Coral damaged; Visual pollution/spoils the scenery; Litter; Loss of culture; Money spent on tourism rather than needs of locals; Locals can't access areas they could before; Etc. <p>NB No max for people/environment</p> <p style="text-align: right;">5 @ 1 mark or development</p>	5

Question	Answer	Marks
5(c)	<p>Levels marking</p> <p><u>Level 1</u> (1–3 marks) Statements including limited detail which describe the different methods which are used to develop tourism without destroying the natural environment.</p> <p><u>Level 2</u> (4–6 marks) Uses named example. More developed statements which describe the different methods which are used to develop tourism without destroying the natural environment. (NB Max 5 if no named or inappropriate example)</p> <p><u>Level 3</u> (7 marks) Uses named example. Comprehensive and accurate statements which describe the different methods which are used to develop tourism without destroying the natural environment, including some place references.</p> <p><u>Content Guide:</u> Answers are likely to refer to: Creation of National Parks; Limit numbers of tourists; Charge entrance fees; conservation; Fence sensitive areas; Ban hunting; Only allow people access to an area with a guide; Educate people about caring for the environment; Develop ecotourism etc.</p> <p>NB Development is of methods, not impact on environment.</p> <p><u>Place specific reference is likely to consist of:</u> Locational details, Specific details of locations within the area Specific details of strategies etc.</p>	7

Question	Answer	Marks
6(a)(i)	<u>Gross National Product</u>	1
	1 mark	
6(a)(ii)	Largest percentage who can read and write = Thailand People on average live for the shortest time = Pakistan	2
	2 @ 1 mark	
6(a)(iii)	Gross National Income (GNI) per person; Life expectancy; Number of years of schooling	3
	3 @ 1 mark	
6(a)(iv)	Choice of Thailand or Sri Lanka = 1 Ideas such as Thailand has: <u>Highest</u> literacy; <u>Highest</u> GNP (per person); Uses <u>most</u> energy (per person); OR Sri Lanka has: <u>Highest</u> life expectancy; <u>Highest</u> HDI (rank)/lowest rank position; HDI is most important as it incorporates several indicators;	4
	4 @ 1 mark	
6(b)(i)	Ideas such as: Negative correlation/inverse relationship; The better the access to clean water the lower the infant mortality will be; The relationship is not perfect/there are some exceptions; Use of statistics : <u>1 mark reserve</u> – to illustrate any of the above statements, needs two sets i.e. statistics for one country with low infant mortality and high access to clean water and one country with the opposite, alternatively they might refer generally to two groups of data as there are no country names e.g. countries with 90–100% access to clean water have 10–20 per thousand infant mortality. Must have % and per thousand. etc.	3
	3 @ 1 mark	

Question	Answer	Marks
6(b)(ii)	<p>Ideas such as:</p> <p>Basic need/need it to drink/survive/avoid dehydration; For cleaning/cooking/washing/bathing/toilets; Clean water prevents disease/dirty water can cause disease; E.g. typhoid/cholera; Clean water is needed for good sanitation/hygiene; Healthy population will be more productive/able to work harder; Irrigation/growing crops/improve yields/food supply; Used to generate electricity/HEP; Which encourages industrial development/examples of industry or businesses and how they use water; Children/women do not have to waste time collecting water; They can use the time more productively/go to school Spend less on healthcare; etc.</p> <p>NB No reserve on people/economy here as ideas will overlap</p> <p style="text-align: right;">5 @ 1 mark or development</p>	5
6(c)	<p>Levels marking</p> <p><u>Level 1</u> (1–3 marks) Statements including limited detail which explain how clean water is supplied.</p> <p><u>Level 2</u> (4–6 marks) Uses named example. More developed statements which explain how clean water is supplied. (NB Max 5 if no named or inappropriate example)</p> <p><u>Level 3</u> (7 marks) Uses named example. Comprehensive and accurate statements which explain how clean water is supplied, including some place references.</p> <p><u>Content Guide:</u> Answers are likely to refer to: Dams/reservoirs, Wells, Pumping water from aquifer, Desalination, Water treatment Water transfer/import of water, Bottled water, Rain harvesting etc.</p> <p><u>Place specific reference is likely to consist of:</u> Named places Specific details/statistics about water supply</p>	7
