Paper 4 Writing

May/June 2026**MARK SCHEME**Maximum Mark: 45

Published

This mark scheme contains the instructions and marking guidance that our examiners used to mark candidate responses for this component.

Before they start marking, examiners complete a standardisation process. They review a range of candidate responses and discuss the mark scheme in detail to agree which answers can and cannot be accepted. Examiners award marks where it is clear that candidate responses have met the requirements of the mark scheme. These requirements may vary between different components or different versions of the same component, depending on the exact requirements of the question and the candidate responses seen during the standardisation process.

Sometimes, our mark schemes may allow marks to be awarded to responses which contain elements that are factually incorrect or for content not covered by the syllabus. We do this in response to the demands of a specific question to support candidates and make sure that our assessments are fair. However, these allowances should not be used as a guide for teaching and learning.

We cannot discuss the mark scheme with schools, and we recommend that schools read the mark scheme together with the assessment material and the Principal Examiner Report for Teachers.

This document consists of **14** printed pages.

General marking principles

All examiners must apply these marking principles when marking candidate responses.

1	Examiners must award marks for each response in line with: - the specific content defined in the mark scheme - the specific skills defined in the mark scheme or in the level descriptions - the standard of response required as exemplified by the standardisation scripts.
2	Examiners must award whole marks (not half marks, or other fractions).
3	Examiners must award marks positively . This means that: - marks are not deducted for errors or omissions - marks are awarded for correct/valid answers as defined in the mark scheme and also for other valid answers which go beyond the scope of the syllabus and mark scheme referring to your team leader as appropriate - the quality of spelling, punctuation and grammar are judged only when the mark scheme indicates that these features are specifically assessed in the question. However, the meaning of all responses must be unambiguous.
4	Examiners must consistently apply the requirements of the mark scheme and any rules for what to do when candidates have not followed instructions correctly.
5	Examiners must use the full range of marks defined in the mark scheme, unless limited by the quality of the candidate responses seen.
6	Examiners must award marks according to the mark scheme and must not award marks with grade thresholds or grade descriptions in mind.

Annotations guidance for centres

Examiners use a system of annotations as a shorthand for communicating their marking decisions to one another. Examiners are trained during the standardisation process on how and when to use annotations. The purpose of annotations is to inform the standardisation and monitoring processes and guide the supervising examiners when they are checking the work of examiners within their team. The meaning of annotations and how they are used is specific to each component and is understood by all examiners who mark the component.

We publish annotations in our mark schemes to help centres understand the annotations they may see on copies of scripts. Note that there may not be a direct correlation between the number of annotations on a script and the mark awarded. Similarly, the use of an annotation may not be an indication of the quality of the response.

The annotations listed below were available to examiners marking this component in this series.

Annotations

Annotation	Meaning
	Correct: credit for content point in Question 1
	Incorrect
	'Benefit of the doubt' is given
Highlighter	Highlight: used to highlight connectives, structures and vocabulary
	Omission
	Meaning unclear or illegible
	Used to show that blank pages have been seen and any creditworthy material has been awarded
	Harmless addition: used if the candidate extends their answer, without contradicting or invalidating the response.
	Invalidates: used if the candidate includes material in their answer which contradicts the correct answer, and therefore invalidates their response.
	Irrelevant
	Correct point 1 awarded – Task Completion in Questions 2 and 3
	Correct point 2 awarded – Task Completion in Questions 2 and 3
	Correct point 3 awarded – Task Completion in Questions 2 and 3
	Correct point 4 awarded – Task Completion in Questions 2 and 3
	Correct point 5 awarded – Task Completion in Questions 2 and 3

Annotation	Meaning
	Irrelevant material
tc	'tout court': on its own, the material is not sufficient to score the mark

Additional Guidance

- Crossing out:**

(a)	If a candidate changes his/her mind about an answer and crosses out an attempt, award a mark if the final attempt is correct.
(b)	If a candidate crosses out an answer <u>to a whole question</u> but makes no second attempt at it, mark the crossed-out work.

- No response and '0' marks:**

(a)	Award NR (no response): If there is nothing written at all in the answer space or If there is only a comment which does not in any way relate to the question being asked (e.g. 'can't do' or 'don't know') or If there is only a mark which isn't an attempt at the question (e.g. a dash, a question mark).
(b)	Award 0: If there is any attempt that earns no credit, e.g. the candidate has copied out part or all of the question.

- Optional questions:**

Mark all questions attempted by the candidate. Where the candidate attempts more than one of the alternatives in **Question 3**, the marking system will take the best mark.

- Using mark schemes with grade descriptors:**

Start at the bottom of the mark scheme and work upwards through the descriptors when awarding marks.

The examiner should look at the work and then make a judgement about which level statement is the 'best fit'. In practice, work does not always match one level statement precisely so a judgement may need to be made between two or more level statements.

Once a 'best-fit' level statement has been identified, use the following guidance to decide on a specific mark:

- If the candidate's work convincingly meets the level statement, award the highest mark.
- If the candidate's work adequately meets the level statement, award the most appropriate mark in the middle of the range (where middle marks are available).
- If the candidate's work just meets the level statement, award the lowest mark.

Detailed Mark Scheme

Question	Answer	Marks
1	Candidates are required to complete 5 gaps in German. Read all of the items that the candidate has listed and award marks as follows: • Award 1 mark for each correct item. • In Question 1, award marks for items wherever the candidate has written them provided the candidate has made clear which part of the form they refer to. • Mark for communication. Tolerate inaccuracies, provided that communication is not impeded. • If spelling is inaccurate, start by referring to the table below. Refer to the questions below if no decision on the spelling you have encountered is recorded there. If you read aloud what the candidate has written, does it sound like the correct answer and would a native speaker of German understand it? Does what the candidate has written look like the correct answer, e.g. one letter missing but no other word created? Would a native speaker of German understand it? • Reject misspelt words which suggest a word with a quite different meaning. Where nouns are usually plural, accept the singular and vice versa. • All answers must fulfil the communicative purpose described in the rubric.	5

In **Question 2**, if a candidate has completed most tasks rather than all, but the 10–12 descriptors are still the best fit in other respects, then the answer can, in theory, access the lower end of the 10–12 band.

Irrelevance

- Sections of material unrelated to any of the bullet points will be disregarded.
- If the whole answer to **Question 3** is irrelevant (e.g. contains no evidence of being related to the bullet points set), award 0 for *Task completion*, *Range* and *Accuracy*.
- If **Question 3** is attempted but communication is not achieved (i.e. the candidate misunderstood the question), award a maximum of 4 for *Range* and a best fit for *Task completion* and *Accuracy*.
