MARK SCHEME

Maximum Mark: 40

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the May/June 2021 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **11** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Assessment Objectives 1 and 2**Level 5****[33–40]**

Candidates:

- Produce well balanced and well-developed explanations that directly assess importance/significance to reach substantial judgements and conclusions.
- Select, organise and deploy effectively and relevantly a wide range of in-depth contextual knowledge to support explanations and conclusions.
- Demonstrate a strong understanding of the key features, reasons, results and changes of societies, events, people and situations relevant to the question.
- Produce well-developed, well-reasoned and well-supported judgements/conclusions.
- Write with precision and succinctness, showing explicit structure and focus.

Level 4**[25–32]**

Candidates:

- Produce well-balanced and partially developed explanations that assess importance/significance, although some of these may be implicit, to reach partially substantiated judgements and conclusions.
- Select, organise and deploy effectively and relevantly contextual knowledge to support explanations and conclusions that will demonstrate some range and depth.
- Demonstrate a sound understanding of the significance of the key features, reasons, results and changes of societies, events, people and situations relevant to the question.
- Produce partially developed and partially supported judgements/conclusions.
- Write with precision and succinctness, showing structure and focus.

Level 3**[17–24]**

Candidates:

- Produce balanced and developed descriptions that explicitly address the question OR produce one-sided, well-developed explanations that assess importance/significance.
- Select, organise and deploy relevantly appropriate contextual knowledge to support descriptions/explanations and that will demonstrate some range and/or depth.
- Demonstrate some understanding of the key features, reasons, results and changes of societies, events, people and situations relevant to the question.
- Produce unsupported judgements/conclusions.
- Write with some precision and succinctness and focus.

Level 2**[9–16]**

Candidates:

- Produce balanced but limited descriptions that lack scope/focus/supporting material OR produce one-sided descriptions that address the question. Responses may be narrative in style.
- Select and organise limited contextual knowledge to support descriptions. This is only deployed relevantly on a few occasions and will demonstrate limited range and depth.
- Demonstrate a limited understanding of the key features, reasons, results and changes of societies, events, people and situations relevant to the question.
- Attempt generalised conclusions but these are often asserted or undeveloped.
- Present work that lacks precision, succinctness and focus.

Level 1**[1–8]**

Candidates:

- Produce balanced but limited descriptions that fail to properly address the question OR produce responses in which the material cited is largely inaccurate or relevant. Responses may be overly short.
- Demonstrate limited contextual knowledge that lacks range or depth or is only linked to the general topic relating to the question.
- List a few key features, reasons, results and changes of societies, events, people and situations. The work contains some relevant material but this is not deployed appropriately.
- Attempt generalised conclusions but these are asserted, undeveloped and unsupported.
- Present work that shows little understanding or focus on the question.

Level 0**[0]**

Candidates:

Submit no evidence or do not address the question.

Information Suggestions

The information listed below attempts to indicate some of the detail and issues that candidates may wish to address in their answers. This list does not claim to be exclusive or exhaustive. Marks should be awarded on the quality of detail used and quality of argument deployed as defined in the generic mark scheme.
