**MARK SCHEME**

Maximum Mark: 50

---

**Published**

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the May/June 2023 series for most Cambridge IGCSE, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

---

This document consists of **16** printed pages.

**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

**GENERIC MARKING PRINCIPLE 1:**

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

**GENERIC MARKING PRINCIPLE 2:**

Marks awarded are always **whole marks** (not half marks, or other fractions).

**GENERIC MARKING PRINCIPLE 3:**

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

**GENERIC MARKING PRINCIPLE 4:**

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

**GENERIC MARKING PRINCIPLE 5:**

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

**GENERIC MARKING PRINCIPLE 6:**

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

| 2        | <b>Study Source C.</b>   | 7     |
|          | <b>How reliable is Source C as evidence about European imperialism? Explain your answer using details of the source and your knowledge.</b>  |       |
|          | <b>Level 6</b> As for Level 5 but in addition explains how these attitudes must have been approved of at the time because they are regarded as useful for selling soap. <b>7</b>   |       |
|          | <b>Level 5</b> Explains it is reliable because of what the advertisement reveals about attitudes towards imperialism/other parts of the world and their peoples. <b>6</b>  |       |
|          | <b>Level 4</b> Uses contextual knowledge to explain how the claims of the source are false and therefore cannot learn much e.g., explains mistreatment of native peoples or more selfish motives for imperialism. <b>4–5</b>   |       |
|          | <b>Level 3</b> Uncritical use of content of source as evidence about imperialism – it shows that imperialism ‘brightened the dark corners of the earth’, it spread civilisation. <b>3</b>  |       |
|          | <b>Level 2</b> Undeveloped use of provenance to reject/accept the source e.g., from the 1890s when there was much imperialism; it is an advert for soap so irrelevant OR uses source detail uncritically as relevant to imperialism e.g., drawing of native figure, of trade and ships. <b>2</b> |       |
|          | <b>Level 1</b> Unsupported assertions or writes about the source but fails to get to grips with the question. <b>1</b>   |       |

|          | <b>Level 5</b> Comparison for usefulness plus evaluation of at least one source e.g., Source D is posed and therefore likely to be giving a flattering impression of what the school is like.<br>7 for evaluation of one source, 8 for both.   |          |
|          | <b>Level 4</b> Answers based on comparison based on inferences from the two sources.   |          |
|          | <b>Level 3</b> Answers based on comparison of surface information in the two sources.  |          |
|          | <b>Level 2</b> Answers based on undeveloped comparison of the provenances of the two sources e.g., 'Source D is more useful because it is a photograph and it shows you what was actually there, while Source E is someone's description', 'Source E is more useful because it is from the Chief Magistrate and he would know what was going on. Source D is just a photograph.'<br>OR<br>Explains why <b>only one</b> source is useful, does not compare or interpret other source. |          |

|                           | <b>Level 5</b> Compares big messages of the two sources – A argues that the vast majority of Austrians supported Anschluss/welcome the Germans into their country, B argues that it is <b>not clear</b> if the majority of Austrians supported Anschluss/welcome the Germans. <b>7</b>   |       |
|                           | <b>Level 4</b> Explains agreement AND disagreement of details or sub-messages. <b>5–6</b>  |       |
|                           | <b>Level 3</b> Explains agreement OR disagreement of details or sub-messages. <b>3–4</b>   |       |
|                           | <p>Agreements include:</p> <p>The German army marched into Austria on 12 March; the Germans did not have to fight/there was no resistance; some Austrians supported Anschluss/welcome Germans; crowds greeted the Germans; there was a plebiscite; 99% of Austrians supported it in the plebiscite/wanted Anschluss; the Germans interfered with the plebiscite through propaganda and intimidation; crowds welcomed the Germans/newsreels show crowds supporting Germans; extent of opposition to Anschluss unknown; Jews were discriminated against in both sources.</p> <p>Disagreements include:</p> <p>A says the plebiscite was held in Austria and Germany, B implies it was just Austria; A claims the plebiscite result represented the true feelings of the Austrians, B questions this/A says Germans were welcomed, B says not everyone welcomed them or Austria was a victim or B describes Anschluss as an invasion, everyone <b>might</b> not have voted for it; in A the newsreels show Austrian support, B says they are misleading; A says 99.8% in favour, B 99%; A says Hitler had ambitions for Anschluss, B says no plans; A says Germans did not have to fight because they were welcomed, in B it is because Austrian army told not to resist.</p> |       |

|          | <b>How useful is this source to a historian studying the Anschluss? Explain your answer using details of the source and your knowledge.</b>   |          |
|          | <b>Level 6</b> Explains it is useful because it shows the methods the Nazis used to create the impression they were welcomed by Austrians. <b>8</b>   |          |
|          | <b>Level 5</b> Uses contextual knowledge or cross reference to confirm/question the photograph being useful e.g., Source B says pictures of such crowds are misleading. <b>6–7</b>  |          |
|          | <b>Level 4</b> Suggests the photo looks to be staged by Nazis, therefore not useful. There must be some explanation as to why this would be done, otherwise Level 3. <b>5</b>   |          |
|          | <b>Level 3</b> Uncritical use of content of source as evidence about Anschluss e.g., It is useful because it shows girls welcoming the Germans OR Not useful because of a general qualification e.g., it does not show opponents to Anschluss or other groups in Austria, those in the photo are young and impressionable. Must do both for 4 marks. <b>3–4</b> |          |
|          | <b>Level 2</b> Undeveloped use of provenance to reject/accept the source e.g., a photo from the time OR uses source detail uncritically (no inferences) e.g., It shows lots of people holding flags OR interprets source but does not address useful. <b>2</b>  |          |

|          | <b>Level 5</b> Compares the points of view of the two cartoonists – they are both criticising German actions over Anschluss OR D is criticising German actions over Anschluss, while E is criticising western leaders over Anschluss– must be supported from cartoons, otherwise Level 3. <b>7</b>  |          |
|          | <b>Level 4</b> Comparison of big messages - In D, Germany is controlling Austria to ensure it goes along with Anschluss, while in E the Germans are intimidating western statesmen into accepting Anschluss. NB The plebiscite was not until 10 April while Source D is from March. Therefore, D cannot be used as evidence about plebiscite.<br><br>Source E can be used about western leaders or Austrians and plebiscite. <b>5–6</b> |          |
|          | <b>Level 3</b> Comparison of valid sub-messages e.g., in D Germany is controlling Austria, in E it is intimidating western statesmen; in both Hitler is controlling events/intimidating people; Hitler is achieving Anschluss; Austrians have no choice. <b>3–4</b>   |          |
|          | <b>Level 2</b> Valid interpretation of one or both sources but no valid comparison OR compares details but does not get as far as message. <b>2</b>   |          |
|          | <b>Level 1</b> Surface description of sources OR misinterpretation of sources. These answers will not contain any valid interpretation of sources. <b>1</b>   |          |

|          | <b>Level 5</b> Compares the sources and evaluates one of them. Evaluation could be based on purpose or by cross-reference. Award 8 marks if both sources evaluated. Evaluates F to show G believable = 7 marks. <b>7–8</b>   |          |
|          | <b>Level 4</b> Evaluates either F or G to support a conclusion about believing Hitler, but no valid comparison. <b>6</b>   |          |
|          | <b>Level 3</b> Answers based on agreements/disagreements between the sources, showing that Hitler cannot be believed/lying e.g., In F Churchill says that the Nazis conquered Austria but Hitler claims that the Austrians welcomed him in. Maximum of 3 marks for answers based on agreements. <b>3–5</b> |          |
