Paper 1 Theory

May/June 2026

1 hour 30 minutes

You must answer on the question paper.

No additional materials are needed.

INSTRUCTIONS

- Answer **all** questions.
- Use a black or dark blue pen.
- Write your name, centre number and candidate number in the boxes at the top of the page.
- Write your answer to each question in the space provided.
- Do **not** use an erasable pen. Do **not** use correction fluid or tape.
- Do **not** write on any bar codes.
- You may use an HB pencil for any diagrams, graphs or rough working.

INFORMATION

- The total mark for this paper is 80.
- The number of marks for each question or part question is shown in brackets [].
- No marks will be awarded for using brand names of software packages or hardware.

This document has **12** pages. Any blank pages are indicated.

1 Circle **two** direct data entry devices.

Actuator

DVD reader

Keyboard

Mouse

OMR

Printer

RFID

Sensor

[2]

2 Computers have internal memory and backing storage.

(a) ROM and RAM are examples of internal memory.

State **two** differences between ROM and RAM.

- 1.....
.....
2.....
.....

[2]

(b) State **three** differences between internal memory and backing storage.

- 1.....
.....
2.....
.....
3.....
.....

[3]

(c) State **three** examples of backing storage.

- 1.....
2.....
3.....

[3]

DO NOT WRITE IN THIS MARGIN

3 A computer may contain a NIC.

(a) Explain what a NIC is.

.....

.....

.....

.....

.....

.....

[3]

(b) Explain the purpose of a NIC.

.....

.....

.....

.....

.....

.....

[3]

4 A student has scanned a paper document into a computer. OCR software is used to allow the student to edit the text in the document.

Discuss the benefits and drawbacks of using OCR software.

.....

.....

.....

.....

.....

.....

.....

.....

[4]

- 5 A teacher has purchased some educational software for use with his class. The software can be run on a tablet computer.

Evaluate the use of a tablet computer in this scenario.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[6]

- 6 When data is transmitted over a network, it may need to be protected. One way of protecting data is to use encryption.

(a) Explain what is meant by the term encryption.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[4]

- (b) When an email is sent, a digital certificate is attached. The digital certificate contains a public key.

Explain why a public key is contained in the digital certificate.

.....

.....

.....

.....

[2]

- 7 A family is budgeting for a holiday. The family has used a spreadsheet to set up a computer model.

- (a) Explain what is meant by a computer model.

.....

.....

.....

.....

.....

.....

.....

.....

[4]

(b) Discuss the benefits and drawbacks of the family using a spreadsheet to model its budget.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[6]

8 A doctor has set up a computer database to store the data of her patients.

(a) Describe the benefits of using a computer database in this scenario.

.....

.....

.....

.....

.....

.....

.....

[3]

(b) One item of personal data stored in the database is a unique 6-digit patient number.

State **three** other items of personal data that could be found in this database.

1.....

2.....

3.....

[3]

(c) State, giving a reason for each, **two** validation checks that could be used on the patient number.

Check 1.....

Reason.....

.....

Check 2.....

Reason.....

.....

[4]

(d) Before the database can be used, it must be tested.

Explain why the database needs to be tested.

.....

.....

.....

.....

.....

.....

[3]

(e) State the most appropriate method of implementation for the database.

.....

[1]

9 One of the characteristics of a web page is that it can contain a hyperlink.

(a) State **one** item on a web page to which a hyperlink could be attached.

.....

[1]

(b) Explain the function of a hyperlink.

.....

.....

[1]

- (c) A web page can be bookmarked.

Explain what is meant by a bookmark in the context of web pages.

.....

.....

.....

.....

[2]

- 10 A web page uses a stylesheet.

- (a) Explain the differences between attached stylesheets and inline style attributes.

.....

.....

.....

.....

.....

.....

.....

.....

[4]

- (b) (i) State the web development layer where HTML is used.

.....

[1]

- (ii) State the web development layer where a stylesheet is used.

.....

[1]

11 Smart devices can monitor and control other devices in the home.

Describe the positive effects on lifestyle of using smart devices in the home.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[6]

12 Blogs and forums are used on websites.

State the differences between a blog and a forum.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[4]

13 State the characteristics of a flat file database.

.....

.....

.....

.....

.....

.....

.....

.....
