Paper 1

October/November 2013

2 hours

Candidates answer on the Question Paper.

No Additional Materials are required.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use a soft pencil for any diagrams, graphs or rough working.

Do not use staples, paper clips, highlighters, glue or correction fluid.

DO NOT WRITE IN ANY BARCODES.

No marks will be awarded for using brand names of software packages or hardware.

Answer **all** questions.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

For Examiner's Use

--

This document consists of **14** printed pages and **2** blank pages.

1 Name the storage media **A**, **B**, **C** and **D** using words from the list.

A

B

C

D

blu-ray disc

chip

flash memory card

hard disc

magnetic stripe

magnetic tape

pen drive

touch pad

A

B

C

D

[4]

2 Ring **two** items which are output devices.

disc drive

laser printer

light pen

microphone

TFT monitor

web cam

[2]

3 Tick **hardware** or **software** next to each item as appropriate.

	hardware	software
virus checker		
keyboard		
chip		
mobile phone		

[4]

4 Complete the following sentences using the **most appropriate** device from this list.

A graphics tablet

A dot matrix printer

An inkjet printer

A joystick

A keypad

A multimedia projector

- (a) is used to print high quality photographs.
- (b) is used to input freehand drawings.
- (c) is used to input preset values into control systems.
- (d) is used to show slides.
- (e) is used to control a flight simulator.

[5]

5 Name and describe **three** ICT methods which could be used to help prevent illegal access to computer networks.

1

.....

.....

.....

2

.....

.....

.....

3

.....

.....

..... [6]

6 Describe **three** features of a social network site.

1

.....

2

.....

3

..... [3]

7 A floor turtle can use the following instructions:

For
Examiner's
Use

INSTRUCTION	MEANING
FORWARD n	Move n mm forward
BACKWARD n	Move n mm backward
LEFT t	Turn left t degrees
RIGHT t	Turn right t degrees
PENUP	Lift the pen
PENDOWN	Lower the pen
REPEAT n	Repeat the following instructions n times
END REPEAT	Finish the REPEAT loop

Complete the set of instructions to draw this shape by filling in the blank lines provided. Do **not** use additional lines.

PENDOWN	FORWARD 70
FORWARD 80

[8]

8 There is a public library in New York. The librarian uses a computer to keep records of borrowers as well as records of the books in the library.

(a) The borrower file is stored on a hard disc.

State the type of access needed to retrieve a single record quickly.

..... [1]

(b) When a borrower comes in for a book they show their membership card.

Give a method of data input which could be used instead of typing in the borrower's membership number.

..... [1]

(c) Give **two** reasons why your method in (b) is better than typing in the membership number.

1

2

..... [2]

(d) Describe how the librarian could create a relational database using the data already held in the borrower file and the book file.

.....

.....

.....

.....

.....

..... [4]

13 Abdul owns a large factory. He has asked Imran, a systems analyst, to create a new database system for keeping records of his workers and their pay.

(a) Imran will collect information about the existing system.

Identify **three** methods he would use to do this.

- 1
- 2
- 3 [3]

After collecting information, Imran found that each worker has an ID which consists of one letter followed by five digits. He also found that no worker earns more than \$500.

He wrote down two of the questions that Abdul might ask when using the database, such as:

What is the phone number of the worker whose ID is L67123?
How much does Sunil Kapoor earn?

(b) Complete the data dictionary table below giving the field names which would be used in the database in order to answer these questions. State the data types which would be used for each field.

Field name	Data type
First_name	
	Text
Phone_number	
Worker_ID	

[6]

(c) Identify **three** items of **test data** which could be used to test the Worker_ID field, giving a reason for each choice.

*For
Examiner's
Use*

Item 1

Reason
