## MARK SCHEME for the March 2016 series

## 0580 MATHEMATICS

0580/42
Paper 4 (Extended), maximum raw mark 130

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.
Cambridge is publishing the mark schemes for the March 2016 series for most Cambridge IGCSE ${ }^{\circledR}$ and Cambridge International A and AS Level components.
$®$ IGCSE is the registered trademark of Cambridge International Examinations.

## Abbreviations

| cao | correct answer only |
| :--- | :--- |
| dep | dependent |
| FT | follow through after error |
| isw | ignore subsequent working |
| oe | or equivalent |
| SC | Special Case |
| nfww | not from wrong working |
| soi | seen or implied |

| Qu. | Answers | Mark | Part Marks |
| :---: | :---: | :---: | :---: |
| 1 (a) <br> (b) <br> (c) <br> (d) | $\frac{8}{8+15+9} \times 640$ oe <br> 300 and <br> 180 <br> 10 nfww $\frac{7}{24}$ | 1 <br> 2 <br> 2 <br> 3 | With no errors seen <br> B1 for each or SC1 for answers reversed <br> M1 for $160 \div 15.25$ implied by 10.5 or $10.49 \ldots$ nfww <br> M1 for $\frac{3}{8}+\frac{1}{3}$ oe <br> M1dep on previous M1 for $1-\operatorname{their}\left(\frac{3}{8}+\frac{1}{3}\right)$ oe |
| 2 (a) <br> (b) <br> (c) <br> (d) | Correct perpendicular bisector of $A B$ with 2 pairs of correct arcs isw <br> Correct angle bisector at $A$ with two pairs of correct arcs isw <br> Circle centre $E$ radius 5 cm isw | 2 <br> 2 <br> 2FT <br> 2 | B1 for accurate with no/wrong arcs or M1 for correct intersecting arcs with no or wrong line <br> B1 for accurate with no/wrong arcs or M1 for two pairs of correct arcs with no or wrong line <br> FT circle centre their $E$ radius 5 cm provided (a) and (b) attempted <br> M1 for $250 \div 50$ oe soi e.g. from arc If 0 scored $\mathbf{S C} 1$ for circle centre their $E$ cao <br> B1 for each <br> If $\mathbf{0}$ scored, $\mathbf{S C 1}$ for two 'correct' regions but in part (c), centre correct but radius incorrect |
