MARK SCHEME for the October/November 2011 question paper for the guidance of teachers

0625 PHYSICS

0625/63

Paper 6 (Alternative to Practical), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

(c) (i) two from:

difficulty of making perfect cuboid shape o.w.t.t.e. measuring cylinder readings only to nearest cm³ o.w.t.t.e. smaller mass so greater inaccuracy volume of thread not taken into account air bubbles in clay / uneven density distribution / clay may absorb water / some clay may stick to the knife

(ii) either method but with sensible matching reason
