Paper 1

May/June 2018

MARK SCHEME

Maximum Mark: 100

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the May/June 2018 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

This document consists of **12** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

the specific content of the mark scheme or the generic level descriptors for the question
the specific skills defined in the mark scheme or in the generic level descriptors for the question
the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
marks are awarded when candidates clearly demonstrate what they know and can do
marks are not deducted for errors
marks are not deducted for omissions
answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

1(f)	<p>Assess the benefits to Goa’s tourism industry of developing river tourism in Goa.</p> <p>Indicative content:</p> <ul style="list-style-type: none"> Increased tourist appeal Increased tourist facilities Increased national wealth from tourist taxes Improved infrastructure Spread economic benefits to rural areas <p>Benefits can be economic, social or environmental but must be in the context of the state/Goa.</p> <p>Level 1 (1–2 marks) will identify up to two benefits providing some detail within the context but will be mainly descriptive</p> <p>Level 2 (3–4 marks) can be awarded for an explanation clearly indicating how the benefit helps Goa.</p> <p>Level 3 (5–6 marks) can be awarded for assessment of the significance/importance of the benefit. Better answers will have a reasoned conclusion.</p> <p>Developing river tourism will add river based attractions to Goa [L1] this will help Goa to expand its tourism industry by attracting more and different tourists to the state. [L1] Goa should benefit from higher tourists number and tourist spend as a result. [L2] It will help to draw tourists away from the coastal areas where they may be experiencing overcrowding/capacity pressures. [L2] This will result in the economic benefit being spread inland and into rural areas. [L3] The increased income from tourist spend and taxes will help to fund further developments of Goa’s tourism industry and improve the standard of living for the locals as well. [L3]</p>	6

Question	Answer	Marks
2(e)	<p>Explain how guided tours of indigenous settlements might contribute to the following negative socio and cultural impacts:</p> <p>Award one mark for each correct identification and award a second mark for appropriate explanatory development.</p> <p>changes in family structure Young are influenced by other cultures/demonstration effect [1] migrate in search of wealth/jobs outside of village [1] women work as guides [1] children looked after by others [1]</p> <p>staged authenticity Traditional dance/events put on for tours [1] lose traditional significance/meaning [1] Performing shows as if real life [1] culture is commercialised [1]</p> <p>Credit all valid responses in context</p>	4
2(f)	<p>Assess the benefits to indigenous communities of opening their settlements to tourists.</p> <p>Indicative content: Jobs Income/revenue Preserve heritage/culture/craft/traditions Cultural revival Increase in cross-cultural understanding</p> <p>Local level benefits – in context – can be social, economic or environmental.</p> <p>Level 1 (1–2 marks) will identify up to two valid benefits, providing some detail but will be mainly descriptive Level 2 (3–4 marks) can be awarded for an explanation of the benefit, clearly indicating how the indigenous communities would benefit. Negative impacts can be credited if directly linked to a previously mentioned benefit. Level 3 (5–6 marks) can be awarded for assessment of the significance/importance of particular benefit. Better answers will have a reasoned conclusion.</p> <p>Indigenous communities can benefit from the preservation of their culture and crafts. [L1] Cultural shows and crafts are displayed for tourists, in doing so the techniques are shared between the indigenous people ensuring that they are not lost and the knowledge is continued into future generations. [L2] The community will benefit from additional income brought in from hosting the tours, [L1] this money can be used to benefit the community as a whole for example building and improving community facilities. [L2] Whilst there are many benefits local communities need to carefully manage potential negative impacts and protect the local community and culture to ensure that they do not suffer from commodification and cultural erosion [L2]. If well managed the community leaders can use the income generated from tourism to put in place programs that protect the indigenous people, their culture and communities [L3] ensuring that the benefits are spread across the community. Question	Answer	Marks
3(e)	<p>Assess the risks associated with destinations becoming over-dependent on tourism.</p> <p>Indicative content:</p> <ul style="list-style-type: none"> Loss of traditional industries Economic reliance Economic vulnerability – tourism a luxury Economic decline/slump – Fashions and trends change quickly/changes in demand/extreme weather conditions Under development in other industries <p>Note: do not award reasons why tourism demand might fall</p> <p>Level 1 (1–2 marks) will identify up to two valid risks, providing some detail but will be mainly descriptive</p> <p>Level 2 (3–4 marks) can be awarded for an explanation of the risks, clearly indicating how the <u>destination</u> would benefit.</p> <p>Level 3 (5–6 marks) can be awarded for assessment of the significance/importance of the particular risk/s. Better answers will have a reasoned conclusion.</p> <p>Over dependence on tourism can make the destination more economically vulnerable [L1] extreme weather or changes in popularity may result in less tourist spend. With less tourists coming into the area local jobs and businesses maybe lost [L2] this in turn will result in less tax revenue for the government. [L2] Leading to possible economic downturn. [L3] Over dependency can also lead to a loss of traditional industries as locals focus on tourism for wealth. [L1] Therefore, when tourist numbers fall there are no traditional industries to fall back on [L2] resulting in poverty for the local people and the country. [L3]</p>	6

Question	Answer	Marks
4(e)	<p>Assess the appeal of train travel to tourists.</p> <p>Indicative content:</p> <ul style="list-style-type: none"> Overland travel Advanced network Most areas accessible Quicker check-in than airports No/limited luggage restrictions <p>Level 1 (1–2 marks) will identify up to two valid points of appeal providing some detail but will be mainly descriptive</p> <p>Level 2 (3–4 marks) can be awarded for an explanation of the appeal, clearly indicating how the tourist would benefit.</p> <p>Level 3 (5–6 marks) can be awarded for assessment of the significance/importance of the appeal. Better answers will have a reasoned conclusion.</p> <p>Many countries have an extensive train network, and most major cities have a station [L1] and are served by multiple trains per day [L1]. Trains travel through different countries with passport and security checks at arrival and departure stations only allowing for fast and convenient travel [L1]. Tourists can relax aboard trains and enjoy the varied landscape and scenery, [L1] rather than suffer the stress of driving [L2]. Train travel provides tourists with a convenient and relaxing, trouble free way of travelling. [L3]</p>	6
