The Bahrain Tourism and Exhibitions Authority (BTEA) promoted the Kingdom of Bahrain as a leading tourist destination during a roadshow held in the UK in May 2018. The promotion was led by BTEA officials and included representatives from a local airline company, a number of hotels and travel agents.

The promotion aimed to bring large-scale tourist groups from the UK to Bahrain. Bahrain is a popular holiday destination for the UK market with many varied offerings for families and leisure travellers. BTEA aims to increase the number of visitors coming to Bahrain, further contributing to the growth of the national economy.

Holding meetings with tour operators in the UK comes in line with the BTEA's marketing campaign to promote the tourism brand 'Ours. Yours.' as part of the Economic Vision 2030 plan to increase economic growth in Bahrain.

Bahrain International Airport is currently undergoing a \$1 billion expansion to increase its capacity from 9 million to 14 million passengers. The terminal building will feature 108 check-in desks, 24 passport control desks, 28 security lanes and 24 departure gates. Several resort-style developments and new entertainment/leisure complexes are also currently under construction in Bahrain.

The majority of flight bookings for an airline still take place on desktop computers. The airline carried out research into the customer decision-making process at various points of contact and across devices. They needed to better understand how technology affects mobile purchases and justify their decision to use mobile media for marketing.
