October/November 2020

MARK SCHEME

Maximum Mark: 80

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2020 series for most Cambridge IGCSE™, Cambridge International A and AS Level and Cambridge Pre-U components, and some Cambridge O Level components.

This document consists of **21** printed pages.

PUBLISHED**Generic Marking Principles**

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

- the specific content of the mark scheme or the generic level descriptors for the question
- the specific skills defined in the mark scheme or in the generic level descriptors for the question
- the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

- marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
- marks are awarded when candidates clearly demonstrate what they know and can do
- marks are not deducted for errors
- marks are not deducted for omissions
- answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently, e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Justify your answer.</p> <p>Award up to 2 marks for identification of relevant issues.</p> <p>Award up to 2 marks for relevant development of points.</p> <p>Award 2 marks for justified decision as to whether entering a market where there is a lot of competition is the best way for a business to expand.</p> <p>Points might include:</p> <ul style="list-style-type: none"> • Shows high potential demand/many potential customers [k] could lead to an increase in revenue [an] • Have to do something different to make your product 'stand out'/ customers may be brand loyal to other businesses/ more choice [k] leading to higher/lower sales [an] leading to higher/lower revenue [an] • Allow the business to spread risk [k] • Difficult to charge high prices/may have to set lower prices (than competitors) [k] lowering the profit margin/so difficult to break-even [an] • (Additional) costs of promotion/market research [k] leading to higher expenses [an] • Makes the business be more efficient [k] to reduce average costs [an] <p>Other options might include:</p> <ul style="list-style-type: none"> • Develop new products [k] • Expand in existing market [k] • Find new market with low/no competition [k] provides chance for monopoly (as no competition) [an] • Take over a competitor [k] so gain their market share [an] <p>Other appropriate responses should also be credited.</p> | 6 | <p>This is a general question so there are no marks for application.</p> <p>Some points can be awarded as either [k] or [an] but only allow once.</p> <p>For evaluation to be awarded justification will usually follow on from relevant analysis of points.</p> |

| Question | Answer | Marks | Notes |
|----------|---|-------|-------|
| 2(e) | <p>Justification might include:</p> <p>A growing market shows high potential demand [k] so possible to earn enough revenue to recover costs [an]. However, if there is a lot of competition then it might be difficult to charge high prices [k] and this might lower the profit margin [an] which could make it difficult to recover the cost of developing new products [an]. It will depend on how good its product is because if customers are interested in what the business is offering, they may be prepared to buy it despite the competition so in this situation it is worth the risk as they would be able to gain market share to justify the costs of expansion.[eval] [eval]</p> | | |

| 4(e) | <p>Justification might include:</p> <p>Meetings allow two-way communication [k] which can help speed up decision-making [an]. A text message is good because it can be sent and received at any time [k] ensuring that all part-time staff receive the same message at the same time [an] but people may not be able to read/respond to it immediately. So while a meeting can be difficult to arrange it is the best option for part-time employees as slow decision making could result in missed opportunities which might result in fewer sales [eval] which can more than offset the cost of the time spent in arranging the meeting.
