MARK SCHEME

Maximum Mark: 80

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2018 series for most Cambridge IGCSE™, Cambridge International A and AS Level components and some Cambridge O Level components.

This document consists of **33** printed pages.

Generic Marking Principles

These general marking principles must be applied by all examiners when marking candidate answers. They should be applied alongside the specific content of the mark scheme or generic level descriptors for a question. Each question paper and mark scheme will also comply with these marking principles.

GENERIC MARKING PRINCIPLE 1:

Marks must be awarded in line with:

the specific content of the mark scheme or the generic level descriptors for the question
the specific skills defined in the mark scheme or in the generic level descriptors for the question
the standard of response required by a candidate as exemplified by the standardisation scripts.

GENERIC MARKING PRINCIPLE 2:

Marks awarded are always **whole marks** (not half marks, or other fractions).

GENERIC MARKING PRINCIPLE 3:

Marks must be awarded **positively**:

marks are awarded for correct/valid answers, as defined in the mark scheme. However, credit is given for valid answers which go beyond the scope of the syllabus and mark scheme, referring to your Team Leader as appropriate
marks are awarded when candidates clearly demonstrate what they know and can do
marks are not deducted for errors
marks are not deducted for omissions
answers should only be judged on the quality of spelling, punctuation and grammar when these features are specifically assessed by the question as indicated by the mark scheme. The meaning, however, should be unambiguous.

GENERIC MARKING PRINCIPLE 4:

Rules must be applied consistently e.g. in situations where candidates have not followed instructions or in the application of generic level descriptors.

GENERIC MARKING PRINCIPLE 5:

Marks should be awarded using the full range of marks defined in the mark scheme for the question (however; the use of the full mark range may be limited according to the quality of the candidate responses seen).

GENERIC MARKING PRINCIPLE 6:

Marks awarded are based solely on the requirements as defined in the mark scheme. Marks should not be awarded with grade thresholds or grade descriptors in mind.

Question	Answer	Marks
1(a)	<p>Describe the impact of the Treaty of St Germain on Austria-Hungary.</p> <p>Level 0: No response or response does not address the question (0)</p> <p>Level 1: Makes general statements about the topic that do not address the question (1)</p> <p>Level 2: Makes simple statements that address the question (2–6) E.g. land was taken away and Austria was not allowed an army.</p> <p>Level 3: Makes developed statements that answer the question (7–10) E.g. the Austro-Hungarian Empire was split up. Land was lost: Bohemia and Moravia to the new Czechoslovakia and Bosnia and Herzegovina and Croatia to the new Yugoslavia.</p>	10
1(b)	<p>Was the German lack of involvement in negotiations the main reason they hated the Treaty of Versailles? Explain your answer.</p> <p>Level 1: Makes points about the topic in general terms, but not applied to the question (1)</p> <p>Level 2: Identifies/lists factors/describes (2–4)</p> <p>Level 3: Explains the given factor or other factor (5–6) Yes: e.g. German people believed that the armistice was a space for peace negotiations, not for the war to be deemed to be over. They felt that all aspects of the Treaty of Versailles were given to protect the countries that stated their victory.</p> <p>Level 4: Explains the given factor and other factors (7–9) L3 plus e.g. No: Germany had fought a war and had lost a lot during the fighting: men, weapons, industry and farmland. Germans thought that the reparations demand was excessive and unjust; £6 600 000 000 was an impossible sum for a country weakened by war to contemplate paying. This feeling did not weaken through the Ruhr Crisis and the Depression, Germans blamed Germany's weakness on the reparations bill.</p> <p>Level 5: As Level 4 with additional reasoning to fully answer the question (10)</p>	10

Explain your answer.</p> <p>Level 1: Makes points about the topic in general terms, but not applied to the question (1)</p> <p>Level 2: Identifies/lists factors/describes (2–4)</p> <p>Level 3: Explains the given factor or other factor (5–6) Yes: e.g. America was a large trading nation, one that had not been economically weakened by the First World War. Without American support, sanctions against any country could not be the threat that they needed to be if they were to stop aggression.</p> <p>Level 4: Explains the given factor and other factors (7–9) L3 plus e.g. No: the main weakness was that Britain and France, as signatories of the Peace of Paris treaties, were held responsible for policing the peace, and therefore, for representing the League of Nations. When there was a need for opposition to aggressive acts, both Britain and France found themselves in a difficult position; all of the responsibility but badly weakened by war and not able (or willing) to fund military action. Thus, the final threat did not exist in reality.</p> <p>Level 5: As Level 4 with additional reasoning to fully answer the question (10)</p>	10

Explain your answer.</p> <p>Level 1: Makes points about the topic in general terms, but not applied to the question (1)</p> <p>Level 2: Identifies/lists factors/describes (2–4)</p> <p>Level 3: Explains the given factor or other factor (5–6) Yes: e.g. British and American travellers were no longer able to visit the sights and enjoy the clubs of Paris, or holiday in coastal resorts. For a country with little to trade, this ended the opportunity to bring foreign money into France.</p> <p>Level 4: Explains the given factor and other factors (7–9) L3 plus e.g. No: The Depression took longer to have an impact on France because the French Economy depended less on international trade. However, when the slump did start in France it had a very damaging effect. After 1933 French industry went through a great crisis. As late as 1938 France had still failed to restore the level of national income to that of the 1920s. With a huge debt for money borrowed during the First World War and war pensions, the French government could not give its armed forces adequate weapons. The production of new aircraft fell and compared very badly with output in Germany. In one year, 1937, the French built 370 military aircraft while the Germans built 5606. The economic problems added to the bitter social divisions that existed in France. Unemployment trebled between 1931 and 1935. The membership of the French Communist Party rose dramatically at the same time. The Communist Party began to do very well in elections.</p> <p>Level 5: As Level 4 with additional reasoning to fully answer the question (10)</p>	10

The intent was to grow the economy. Friedman and Hayek, 1944, were his policy theorists.</p> <p>Level 4: Explains the given factor and other factors (7–9) L3 plus e.g. No: sadly, the government failed to balance the budget because of defence spending and the plan failed in its early years. The economy went into recession, unemployment rose by 10% and there was inadequate spending on welfare. After 1983 the economy did begin to grow, but it was to the benefit of the wealthy, and paid for through the taxes on the poor.</p> <p>Level 5: As Level 4 with additional reasoning to fully answer the question (10)</p>	10

These became more aware of political issues and had leadership qualities to start to address them.</p> <p>Level 4: Explains the given factor and other factors (7–9) L3 plus e.g. No: seeing Asian and African states begin to get independence made black Americans more aware of the unfairness of their situation. Action, therefore, grew. Also, failure of Truman to act quickly enough and the regrowth of KKK actions made black Americans see that action alone could put things right.</p> <p>Level 5: As Level 4 with additional reasoning to fully answer the question (10)</p>	10

They were cited as the reason why some statistics of production were wrong.</p>	10

Question	Answer	Marks
16(b)	<p>Did Stalin's purges weaken or strengthen the USSR? Explain your answer.</p> <p>Level 1: Makes points about the topic in general terms, but not applied to the question (1)</p> <p>Level 2: Identifies/lists factors/describes (2–4)</p> <p>Level 3: Explains the given factor or other factor (5–6) Strengthen: e.g. following the murder of Kirov in 1934, Stalin said publicly that this had been part of a plot aimed to kill himself and Molotov as well. This launched purges against those who he distrusted. These seem to have aimed at making the population afraid to do other than obey Stalin. His power grew more secure.</p> <p>Level 4: Explains the given factor and other factors (7–9) L3 plus e.g. weaken: however, the purge of the army left it unable to contribute effectively during the 1941–2 attack by Germany. Many of the best political, industrial and economic brains had been lost. The number of educated had fallen drastically. The USSR therefore found it more difficult to recover from the Second World War.</p> <p>Level 5: As Level 4 with additional reasoning to fully answer the question (10)</p>	10

30(b)	<p>‘The economic community has been the most successful aspect of ASEAN.’ Do you agree? Explain your answer.</p> <p>Level 1: Makes points about the topic in general terms, but not applied to the question (1)</p> <p>Level 2: Identifies/lists factors/describes (2–4)</p> <p>Level 3: Explains the given factor or other factor (5–6) Yes: e.g. ASEAN is built on three pillars: the ASEAN Political-Security Community (APSC), the ASEAN Economic Community (AEC), and the ASEAN Socio-Cultural Community (ASCC). ASEAN seeks economic integration by creating an ASEAN Economic Community (AEC) by end-2015 to establish a common market. The average economic growth of ASEAN’s member nations during 1989–2009 was between 3.8% and 7%. This economic growth was greater than the average growth of the Asia-Pacific Economic Cooperation (APEC), which was 2.8%. The ASEAN Free Trade Area (AFTA) which was established on 28 January, 1992, includes a Common Effective Preferential Tariff (CEPT) to promote the free flow of goods between member states. When the AFTA agreement was originally signed, ASEAN had only six members (Brunei, Indonesia, Malaysia, the Philippines, Singapore, and Thailand). Vietnam joined in 1995, Laos and Burma in 1997, and Cambodia in 1999. The newcomers have not fully met AFTA’s obligations, but they are officially considered part of the AFTA as they were required to sign the agreement upon entry into ASEAN, and were given longer time frames in which to meet AFTA’s tariff reduction obligations.</p> <p>The next steps are to create a: Single-market and production base competitive economic region of equitable economic development region fully integrated into the global economy Since 2007, ASEAN countries have gradually lowered their import duties with member nations. The ‘ASEAN Way’ refers to a methodology or approach to solving issues that respects the cultural norms of Southeast Asia. Masilamani and Peterson summarise it as: ‘... a working process or style that is informal and personal. Policymakers constantly utilise compromise, consensus, and consultation in the informal decision-making process. It above all prioritizes a consensus-based, non-conflictual way of addressing problems. Quiet diplomacy allows ASEAN leaders to communicate without bringing the discussions into the public view.
