Paper 2 Theory

May/June 2016

1 hour 45 minutes

Candidates answer on the Question Paper.

No Additional Materials are required.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name on all the work you hand in.

Write in dark blue or black pen.

You may use an HB pencil for any diagrams or graphs.

Do not use staples, paper clips, glue or correction fluid.

DO **NOT** WRITE IN ANY BARCODES.

Section A

Answer **all** questions in this section.

Write your answers in the spaces provided on the Question Paper.

Section B

Answer **both** questions in this section.

Write your answers in the spaces provided on the Question Paper.

Section C

Answer **either** question 8 **or** question 9.

Write your answers in the spaces provided on the Question Paper.

You are advised to spend no longer than one hour on Section A.

Electronic calculators may be used.

You may lose marks if you do not show your working or if you do not use appropriate units.

At the end of the examination, fasten all your work securely together.

The number of marks is given in brackets [] at the end of each question or part question.

This document consists of **14** printed pages and **2** blank pages.

Section A

Answer **all** questions in this section.

- 1 The grape plant has many flowers clustered together on each flowering head. Fig. 1.1 shows the structure of one mature grape flower.

Fig. 1.1

- (a) (i) Name **two** parts, normally found in other flowers, that are missing from this mature flower.

1

2 [2]

- (ii) Suggest the type of pollination found in the grape plant and give a reason for your choice.

type of pollination

reason

.....[2]

2 Fig. 2.1 shows a fetus developing inside its mother.

Fig. 2.1

(a) Complete Table 2.1, using letters from Fig. 2.1, to identify each of the following:

Table 2.1

	letter
a structure that contains urea released by the fetus
a region that contains cells, almost all of which could be used for determining the sex of the fetus
a structure that is used to expel the fetus at birth
a temporary structure that would have been expelled during menstruation if pregnancy had not occurred

[4]

3 Table 3.1 is a list of some of the constituents of a healthy human diet.

Table 3.1

constituent
carbohydrates
fats
proteins
mineral salts
fibre / roughage

(a) State one of these constituents that

(i) does not require digestion, [1]

(ii) is the body's main storage substance. [1]

(b) Name **two** dietary constituents that are missing from the list in Table 3.1 and for each state **two** reasons for its importance in the diet.

constituent:

1

.....

2

.....

constituent:

1

.....

2

..... [6]

(c) The chimpanzee is an animal whose metabolism is very similar to that of a human, but one type of chimpanzee lacks the gene responsible for the manufacture of amylase.

Suggest how this will affect the diet of this type of chimpanzee.

.....

.....

.....

.....[4]

(c) Fig. 4.2 shows the uptake and loss of oxygen by a leaf during a 24-hour period.

Fig. 4.2

Explain what is happening in the leaf at the following times:

(i) between 1800 hours and 2000 hours

.....

 [2]

(ii) after 2200 hours.

.....

 [2]

[Total: 11]

9 (a) With reference to the inheritance of blood groups, explain what is meant by each of the following terms:

(i) *dominance*

.....
.....
.....
.....
.....
.....
.....
.....[3]

(ii) *codominance.*
