Mark Scheme (Results)

Summer 2015

Pearson Edexcel IAL Accounting (WAC01/01)
Unit 1 The Accounting System and Costing

Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at www.edexcel.com or www.btec.co.uk. Alternatively, you can get in touch with us using the details on our contact us page at www.edexcel.com/contactus.

Pearson: helping people progress, everywhere

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: www.pearson.com/uk

General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.

- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.

- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.

- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.

- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.

- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.

- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.

- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Section A

(16)

(b) Valid answers may include

In favour

- Prudent to provide for bad debts/ Application of prudence concept
- Bad debts were incurred in current year
- Need to not overstate surplus
- Need to give correct value for subscriptions receivable.

Against

- The level of provision seems inadequate to the level of bad debts incurred
- Difficult to predict level of bad debts/ Bad debts are only estimated
- Easier just to write off descriptions when they occur
- Reduce subscriptions affecting income/surplus in current year.

NOT

- A DESCRIPTION OF A PROVISION FOR DOUBTFUL DEBTS
- More time consuming/Costly/ Need expertise
- Reputation affected
- Money measurement concept.

(18)

(d) Valid answers may include

In favour

- Gives a good idea of the level of profit for the year
- Draft profit can then be refined as errors are discovered
- Enables swift preparation of the financial statements

Against

- The profit for the year is inaccurate
- Financial accounts cannot be 'signed off' until the errors are found
- Time consuming as work has to be completed more than once/ Costly.

NOT

- ANYTHING TO DO WITH ERRORS/ Types/ Descriptions/Effect of/ Does not locate
- Help provide a true and fair view
- Identifies arithmetical errors
- Checking device

√√ per point (Max two points in favour and two points against)   (8)

(Total 52 marks)

3(a)

Ratio	Garden Restaurant	New Restaurant
(i) gross profit as a percentage of revenue	$\frac{162\ 000}{270\ 000}$ x 100 = 60% √√	$\frac{70\ 000}{140\ 000}$ x 100=50% √√ √
(ii) return on capital employed percentage (based on the closing capital)	$\frac{6\ 000}{33\ 000}$ x 100 = 18.2% √√	$\frac{22\ 000}{80\ 000}$ x 100 = 27.5% √√
(iii) current ratio	$\frac{22\ 000}{15\ 000}$ = 1.5:1 √√	$\frac{15\ 000}{5\ 000}$ = 3:1 √√
(iv)trade payables payment period (in days)	$\frac{15\ 000}{110000/365}$ =50 days √√	$\frac{5\ 000}{70\ 000/365}$ =26 days √√
(v) non-current assets to revenue ratio	$\frac{270\ 000}{26\ 000}$ = 10:1 √√ Or $\frac{26\ 000}{270\ 000}$ = 0.096:1	$\frac{140\ 000}{70\ 000}$ = 2:1 √√ Or $\frac{70\ 000}{140\ 000}$ = 0.5:1
(vi) value of the goodwill included in the purchase price.	100 000 – 33 000=67 000√√	100 000 – 80 000=20 000 √√

(24)

NOTE:
- Award √√ if correct answer, percentage sign is not required in (i) (ii) or days in (iv)
- For √√ in (iii) and (v) must be :1, the correct figure without this is only worth √
- √ can be awarded if one figure is correct and an answer has been derived in (i) to (v)
- In (vi) it must be correct for the marks.

(b)

	Garden Restaurant	New Restaurant
Profitability	1. Possible higher prices 2. Higher costs reduced ROCE 3. Lower capital base 4. Lower profit 5. Wages very high 6. Fixed costs are higher √√ x MAX 2 points	Possible better raw materials use Costs under control Higher capital base Higher profit
Liquidity	1. High inventory 2. Taking a long time to pay trade payables 3. Low cash balance √√ x MAX 2 points	Low inventory Trade payables paid on time High cash balance
Use of assets	1. Revenue level is much higher 2. Low premises value 3. Leasehold one year to run 4. Current assets are efficiently used. Ratio close to the 'yardstick' figure. √√ x MAX 2 points	Revenue level is much lower High premises value Freehold premises Current assets not efficiently used. Idle funds.

(12)

(c) Calculates how many pounds of revenue sales are generated for each pound of non-current assets. √√ A large proportion of the owners capital can be invested in non-current assets, therefore it is important to calculate the return on each pound invested. √√

(4)

(d) Valid answers may include:

- Location of restaurant
- Skill of the staff
- Size of the local market
- Competition in the area
- Nural's knowledge of the restaurant trade
- Condition of the restaurant fabric
- Reputation of the restaurant
- Good products

√ per point x 4 points

(4)

(e) Valid answers may include financial and non-financial factors:

Points in favour:	
Garden Restaurant	**New Restaurant**
• High gross profit to revenue percentage	• High ROCE
• High revenue /NCA ratio	• Trade payables paid on time
• Long established business	• Much lower goodwill payment
• In town centre so potentially more business	• Will own freehold premises
• Higher turnover/Revenue/More customers	• Makes a higher net profit
	• High level of liquidity
	• More cash in the bank
Points against:	
• Lower ROCE/ high costs	• Lower gross profit to revenue percentage
• Long trade payables payment period	• Low revenue/NCA ratio
• High goodwill payment	• New business
• Leasehold only for one further year	

√√ per point (Max two points in favour and two points against)   (8)

Cost of sales		(100 000)	√√of
Gross profit		40 000	√√
		140 000	

(11)

(d) Valid answers may include
In favour
- Inventory would be recorded in the business at a single value
- If lower or the same then cost would be market value
- Makes the inventory up to date with market/replacement values

Against
- Would not comply with realisation/prudence/historic cost concepts
- Profit over stated
- Inventory overvalued
- Market value is a question of judgement
