Pearson Edexcel IAL Accounting
In Accounting (WAC11)
Paper 01 The Accounting System and Costing

Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at www.edexcel.com or www.btec.co.uk. Alternatively, you can get in touch with us using the details on our contact us page at www.edexcel.com/contactus.

Pearson: helping people progress, everywhere

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: www.pearson.com/uk

General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Question Number	Indicative Content	Mark
1 (c)	<p>AO1 (1), AO2 (1), AO3 (5), AO4 (5)</p> <p>Points for continuing manufacturing</p> <p>The control of the production process will remain with Wooden Gifts. The quality of the product being produced can be assured by Wooden Gifts. Social accounting considerations should be considered. Discontinuing manufacturing could result in redundancy and an impact on the local community and other local businesses. Ensuing the continuity of supply of finished goods. If manufacture is retained the control to deliver the finished products on time is not passed to the supplier. The fixed costs are currently shared between production and administration if production was ceased costs such as rent would have to be borne by the administration alone.</p> <p>Points for discontinuing manufacturing</p> <p>The problems of manufacturing goods will be passed to the supplier. Obtaining materials of the required quality and labour issues will become the responsibility of the supplier. If the business is growing, the space requirement for manufacturing will increase. The majority of the existing space is occupied by manufacturing. If manufacturing is discontinued the space could be used for distribution or the excess space could be sub-let, costs reduced and income increased. Time and effort of paying and managing staff and maintaining non-current assets would be removed. Manufacturing non-current assets could be sold to release cash.</p> <p>Decision Candidates may conclude that Wooden Gifts should continue or discontinue manufacture. Candidates should support that decision with an appropriate rationale.</p>	(12)

Level	Mark	Descriptor
	0	A completely incorrect response.
Level 1	1-3	Isolated elements of knowledge and understanding recall based. Weak or no relevant application to the scenario set. Generic assertions may be present.
Level 2	4 - 6	Elements of knowledge and understanding, which are applied to the scenario. Chains of reasoning are present, but may be incomplete or invalid. A generic or superficial assessment is present.
Level 3	7 - 9	Accurate and thorough understanding, supported throughout by relevant application to the scenario. Some analytical perspectives are present, with developed chains of reasoning, showing causes and/or effects. An attempt at an assessment is presented, using financial and non-financial information, in an appropriate format and communicates reasoned explanations.
Level 4	10 - 12	Accurate and thorough knowledge and understanding, supported throughout by relevant and effective application to the scenario. A coherent and logical chain of reasoning, showing causes and effects. Assessment is balanced, wide ranging and well contextualised using financial and non-financial information and makes informed recommendations and decisions.

Question Number	Answer	Mark
2 (a)	AO1 (7), AO2(3) AO1: Seven marks for posting entries into account. AO2: Three marks for recording interest charges and refunds correctly and balancing without alien items.	(10)

Trade Receivables Control Account

		<u>1 100</u>			<u>1 100</u>

Question Number	Indicative Content	Mark
2 (g)	<p>AO1 (1), AO2 (1), AO3 (5), AO4 (5)</p> <p>Positive points for concepts and conventions</p> <p>Ensures consistency of approach when different businesses use the same concepts in preparing their financial statements.</p> <p>Ensures greater accuracy in the calculation of profit for a period when the expenses and incomes have been calculated using accounting concepts and conventions.</p> <p>Stakeholders can have trust and faith in the published financial statements of the business to be used for their assessment of the business</p> <p>Financial statements can be compared from business to business as the financial statements are prepared using the same concepts and conventions.</p> <p>Negative points for concepts and conventions</p> <p>Concepts and conventions are often open to interpretations and different business may take different interpretations when preparing their accounts.</p> <p>Concepts and conventions can on occasions be contradictory e.g. it may be consistent to use straight line depreciation but not prudent in the early years of a non-current assets life when depreciation is high.</p> <p>The application of concepts and conventions requires those preparing the financial statements to be skilled in accounting approaches therefore there is a cost implication.</p> <p>Do not incorporate non-financial factors.</p> <p>Decision</p> <p>Candidates may conclude that the application of concepts and conventions is on balance a positive development in that it provides a consistent approach to the preparation of financial statements. Candidates should support that decision with an appropriate rationale.</p> <p>NOT</p> <p>Description of concepts and conventions.</p>	(12)

Level	Mark	Descriptor
	0	A completely incorrect response.
Level 1	1-3	Isolated elements of knowledge and understanding recall based. Weak or no relevant application to the scenario set. Generic assertions may be present.
Level 2	4 - 6	Elements of knowledge and understanding, which are applied to the scenario. Chains of reasoning are present, but may be incomplete or invalid. A generic or superficial assessment is present.
Level 3	7 - 9	Accurate and thorough understanding, supported throughout by relevant application to the scenario. Some analytical perspectives are present, with developed chains of reasoning, showing causes and/or effects. An attempt at an assessment is presented, using financial and non-financial information, in an appropriate format and communicates reasoned explanations.
Level 4	10 - 12	Accurate and thorough knowledge and understanding, supported throughout by relevant and effective application to the scenario. A coherent and logical chain of reasoning, showing causes and effects. Assessment is balanced, wide ranging and well contextualised using financial and non-financial information and makes informed recommendations and decisions.

Question Number	Answer	Mark
3 (a)	AO1 (4), AO2(4) AO1: Four marks for using the correct formula. AO2: Four marks for calculating the ratio/ days with correct description.	(8)

- (i) $\frac{\text{Trade payables} \times 365}{\text{Credit purchases}} = \frac{2\,400 \times 365}{30\,000}$ (1) AO1 = 29.2 days (1) AO2
- (ii) $\frac{\text{Trade receivables} \times 365}{\text{Credit sales}} = \frac{12\,000 \times 365}{66\,000}$ (1) AO1 = 66.4 days (1) AO2
- (iii) $\frac{\text{Current assets}}{\text{Current liabilities}} = \frac{6\,000 + 12\,000}{2\,400 + 5\,600}$ (1) AO1 = 2.25:1 (1) AO2
- (iv) $\frac{\text{Current assets} - \text{Inventory}}{\text{Current liabilities}} = \frac{12\,000}{2\,400 + 5\,600}$ (1) AO1 = 1.5:1 (1) AO2

Reasonable rounding accepted

Question Number	Answer	Mark
3 (b)	AO1 (4) AO1: Four marks for identifying factors which have would limit the funds in the bank. Allowing too many days credit to trade receivables Paying trade payables too quickly High drawings Inadequate capital for business growth Expenses too high Selling price to low Inventory to high Purchase non-current assets	(4)

Question Number	Answer	Mark
3 (c)	AO1 (1), AO2(4) AO1: One mark for recording the correct opening inventory. AO2: Four marks for calculating the forecast revenue and costs for the following three month period.	(5)

Forecast Statement of Profit or Loss and Other Comprehensive Income
for the three months ended 30 March 2017

	£	£
Revenue		73 000 (1) AO2
Opening inventory	6 000 (1) AO1	
Purchases	<u>31 500 (1) AO2</u>	
	37 500	
Closing Inventory	<u>(4 400)</u>	
Cost of sales		<u>33 100</u>
Gross profit		<u>39 900</u>
Expenses		(13 200) (1) AO2
Profit for the three months		<u>26 700</u> (1 of) AO2

Question Number	Answer	Mark
3 (d)	AO2 (4), AO3 (3) AO2: Four marks for inclusion of correct working figures in calculation. AO3: Three marks for calculating correct closing balances.	(7)

(i) Trade payables

$$2\,400 + 31\,500 \text{ (1 of) AO2} - 27\,600 = 6\,300 \text{ (1 of) AO3 (2)}$$

(ii) Trade receivables

$$12\,000 + 73\,000 \text{ (1 of) AO3} - 73\,000 = 12\,000 \text{ (1 of) AO2 (2)}$$

(iii) Bank (overdraft)

$$(5\,600) + 73\,000 \text{ (1 of) AO2} - 27\,600 - 13\,200 - 7\,500 \text{ (1) AO2} \\ = 19\,100 \text{ (1 of) AO3 (3)}$$

Working: Trade receivable 30 March 2017

$$\frac{12\,000 \text{ (Answer)} \times 365}{73\,000 \text{ (Given)}} = 60 \text{ days (Given)}$$

Question Number	Indicative Content	Mark
3 (e)	<p>AO2 (1), AO3 (2), AO4 (3) Own figure rule applies.</p> <p>Potential positive movements in liquidity</p> <p>The bank balance is now positive, moving from an overdraft at the start of the period. The amount owed to trade payables has risen from £2 400 to £6 300. Mathy is obtaining better credit terms but must be cautious to ensure that goods will continue to be supplied to him on credit The inventory level has fallen from £6 000 to £4 400. Inventory is showing signs of being better controlled. Expenses and drawings have been reduced improving cash flow for the business and retaining cash in the business. Profits are being generated at a high rate with gross profit to sales being over 50%. This will not only improve profitability but also liquidity. The trade receivables collection period has fallen from 66 days to 60 days. This is not a major movement and action still needs to be taken to speed up the collection of debts.</p> <p>Potential negative points about liquidity</p> <p>At the start of the period the liquid ratio was showing signs of some idle funds, with the improvements made this may become a greater problem. Action needs to be taken particularly on trade receivables. The trade receivables collection period 60 days is still high.</p> <p>Decision (Own figure rule to apply) Candidates may conclude that the liquidity at the start of the period, as measured by the two ratios, was satisfactory, although there was a bank overdraft. If the forecasts are correct, the liquidity of Mathy's business will improve and the bank will become a positive balance.</p>	(6)

Level	Mark	Descriptor
	0	A completely incorrect response.
Level 1	1-2	Isolated elements of knowledge and understanding which are recall based. Generic assertions may be present. Weak or no relevant application to the scenario set.
Level 2	3-4	Elements of knowledge and understanding, which are applied to the scenario. Some analysis is present, with developed chains of reasoning, showing causes and/or effects applied to the scenario, although these may be incomplete or invalid. An attempt at an evaluation is presented, using financial and perhaps non-financial information, with a decision.
Level 3	5-6	Accurate and thorough knowledge and understanding. Application to the scenario is relevant and effective. A coherent and logical chain of reasoning, showing causes and effects is present. Evaluation is balanced and wide ranging, using financial and perhaps non-financial information and an appropriate decision is made.

Question Number	Answer	Mark
4 (a)	<p>AO1 (4) AO1: Four marks for explaining the term allocation and its limitation.</p> <p>(i) Costs which are wholly identifiable with one cost centre (1) AO1 are charged direct to that cost centre. (1) AO1</p> <p>(ii) For some costs the benefit of the expenditure are felt by several cost centres. (1) AO1 The total has to be shared or apportioned on some equitable basis. (1) AO1</p>	(4)

Question Number	Answer	Mark
4 (b)	AO1(1), AO2(8), AO3 (3) AO1: One mark for totalling both the body repair shop and paint shop. AO2: Eight marks for calculating the re-apportionment. AO3: Three marks for calculating the effect on the service departments.	(12)

Body repair shop £	Paint shop £	Stores £	Administration £
62 000	43 000	16 000	12 000
8 000 (1) AO2	4 000 (1) AO2	(16 000) (1) AO3	4 000
9 600 (1) AO2	4 800 (1) AO2	1 600 (1) AO2	(16 000)
800 (1) AO2	400	(1 600) (1) AO3	400
240	120 (1) AO2	40	(400) (1) AO3
25 (1 of) AO2	15	(40)	
80 665	52 335 (1) AO1 Both		

Accept reasonable rounding.

Question Number	Answer	Mark
4 (c)	<p>AO2(4) AO2: Four marks for calculating the re-apportionment.</p> <p>(i) Body repair shop $\frac{\pounds 80\,665}{6\,400 \text{ hrs}}$ = £12.6 per hour (1) of AO2 (1) AO2 (2)</p> <p>(ii) Paint shop $\frac{\pounds 52\,335}{3\,400 \text{ hrs}}$ = £15.39 per hour (1) of AO2 (1) AO2 (2)</p>	(4)

Question Number	Answer	Mark
4 (d)	<p>AO1 (4) AO1: Four marks for explaining the term under absorbed and identifying two possible reasons.</p> <p>(i) The total of the overhead recovered is less (1) AO1 than the actual overhead expenditure. (1) AO1 (2)</p> <p>OR Actual overhead costs is greater (1) AO1 than budget. (1) AO1 (2)</p> <p>(ii) The original calculation of rate per hour was based upon incorrect figures. The projection of hours of recovery was overstated. Expenditure was greater than projected The time of painters finishing jobs improved. 2 x (1) AO1 (2)</p>	(4)

Question Number	Indicative Content	Mark
4 (e)	<p>AO2 (1), AO3 (2), AO4 (3)</p> <p>Potential positive arguments for apportionment</p> <p>The cost must be recovered in the price charged to the customer and therefore to do this the cost must be charged to a specific productive cost centre. Apportionment is just a means of charging the cost.</p> <p>The cost driver will be used to ensure a reasonable match between the usage of the cost and the sum apportioned to the cost centre.</p> <p>Potential negative points against apportionment</p> <p>Because the cost is used across many cost centres the sum apportioned to a specific cost centre is only an estimate of the usage. With some costs it may be difficult to establish a strong cost driver. Therefore, any apportionment will largely be arbitrary. Continuous allotment when used to re-apportion overheads may be an example of that arbitrary apportionment. The need for an experienced practitioner to carry out the calculations and the time required to do so.</p> <p>Decision</p> <p>Candidates may conclude that it is a satisfactory or unsatisfactory way of determining the cost of operating. The candidate's decision should be supported by reference to positive and negative points.</p>	(6)
Level	Mark	Descriptor
	0	A completely incorrect response.
Level 1	1-2	Isolated elements of knowledge and understanding which are recall based. Generic assertions may be present. Weak or no relevant application to the scenario set.
Level 2	3-4	Elements of knowledge and understanding, which are applied to the scenario. Some analysis is present, with developed chains of reasoning, showing causes and/or effects applied to the scenario, although these may be incomplete or invalid.

		An attempt at an evaluation is presented, using financial and perhaps non-financial information, with a decision.
Level 3	5-6	Accurate and thorough knowledge and understanding. Application to the scenario is relevant and effective. A coherent and logical chain of reasoning, showing causes and effects is present. Evaluation is balanced and wide ranging, using financial and perhaps non-financial information and an appropriate decision is made.

Question Number	Answer	Mark
5 (a)	AO2(4) AO2 Four marks for calculating the depreciation to be charged on each vehicle.	(4)

Question Number	Answer	Mark
5 (d)	<p>AO2(4) AO2 Four marks for explaining the difference between the two accounting concepts.</p> <p>Going concern Assumes business life will continue for the foreseeable future unless the contrary is known All non-current assets to be depreciated over their economic life</p> <p>Consistency Assumes same treatment in the accounts over time e.g. using the same method of depreciation Seeks to avoid distortion in the preparation of the accounts</p> <p>Candidates to distinguish a point for going concern and a point for consistency. 2 x (2) AO2</p>	(4)

Question Number	Answer	Mark
5 (e)	<p>AO1(4) AO1 Four marks for identification of capital expenditure or revenue expenditure.</p> <ul style="list-style-type: none"> • Motor vehicle delivery cost Capital expenditure (1) AO1 • Road licence Revenue expenditure (1) AO1 • Insurance Revenue expenditure (1) AO1 • Sign writing of business name Capital expenditure (1) AO1 	(4)

Question Number	Indicative Content	Mark
5 (f)	<p>AO2 (1), AO3 (2), AO4 (3)</p> <p>Potential positive arguments for straight line</p> <p>Fast Response will obtain many years usage from each motor vehicle. The usage will probably be of equal value over the years. Therefore it seems appropriate to charge equal depreciation to each year.</p> <p>Potential negative points against straight line</p> <p>As the motor vehicle becomes older it will require more maintenance and repair therefore the total cost of operating the motor vehicle in depreciation and repairs will rise distorting profits later in the life of the non-current asset.</p> <p>Motor vehicles tend to lose a greater proportion of their value in the early years. Therefore with the straight line method the carrying value will be in excess of the true market value.</p> <p>It would be prudent to charge higher depreciation in the early years.</p> <p>Decision</p> <p>Candidates may conclude that it is a suitable or not suitable in the depreciation of motor vehicles. The candidate's decision should be supported by reference to positive and negative points.</p> <p>NOT</p> <p>Simple to calculate</p> <p>Easy to calculate</p>	(6)

Question Number	Indicative Content	Mark
6 (c)	<p>AO2 (1), AO3 (2), AO4 (3) Own figure applies</p> <p>Potential positive arguments</p> <p>The owner will be required to concentrate more on developing one of the activities. The expanded activity will result in the owner devoting more of his time. He may need to employ a manager for the other department. More floor space will be required to expand whichever department the owner chooses to expand. Additional floor space will cost more and may involve the business moving to new premises. The goods for sale in the shop or the services of the workshop could be expanded.</p> <p>Potential negative arguments</p> <p>Further materials and labour resources will need to be acquired. This will require additional capital from the owner or in the form of a loan. The provision of a complementary service may need to be retained. Customers who have computers repaired may buy the accessories available within the shop. It may not be possible to expand one department without putting additional demand on the other department. The cost of marketing is very low, more concentration on marketing activities may increase the overall demand for both services increasing the profitability of the business. Both departments might naturally expand if the services that are on offer are presented to the public. If you close one department all the fixed costs must be borne by the other department.</p> <p>Decision Candidates may conclude that the owner should/ should not concentrate on a single activity. The candidate's decision should be supported by reference to positive and negative points.</p>	(6)
