# Geography

**International Advanced Subsidiary**  
**Paper 2: Geographical Investigations**

Wednesday 10 January 2018 – Afternoon

**Time: 1 hour 30 minutes**

Paper Reference

**WGE02/01**

**You must have:**

Resource Booklet (enclosed)

Total Marks

--

## Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions in Sections A and B.
- In Section C answer **EITHER** Question 4 **OR** Question 5.
- Answer the questions in the spaces provided  
– *there may be more space than you need.*
- Calculators may be used.

## Information

- The total mark for this paper is 60.
- The marks for **each** question are shown in brackets  
– *use this as a guide as to how much time to spend on each question.*

## Advice

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.

Pearson

**SECTION A**  
**CROWDED COASTS**

**Answer ALL questions in this section. Write your answers in the spaces provided.**

**1** Study Figure 1.

(a) (i) Identify the parts of the littoral zone in Boxes A and B on Figure 1. (2)

A .....

B .....

(ii) Explain how the process of attrition affects beach sediment. (2)

.....

.....

.....

.....

**URBAN PROBLEMS, PLANNING AND REGENERATION**

**2** Study Figure 2.

(a) (i) Identify **two** characteristics of the traffic flow data shown.

(2)

1 .....

.....

2 .....

.....

(ii) Explain **one** way in which a named infrastructure project has reduced urban transport problems.

(2)

**SECTION B**

**COMPULSORY FIELDWORK SECTION**

**Answer ALL questions in this section. Write your answers in the spaces provided.**

**3** You have undertaken geography fieldwork as part of your course.

Use this experience to answer Question 3.

State the title or question of your fieldwork investigation:

.....  
.....

(a) Explain how **one** geographical concept, theory or model, helped you develop the focus of your fieldwork investigation.

(3)

.....  
.....  
.....  
.....  
.....  
.....

(b) Explain how you used **one** quantitative data collection method in your fieldwork investigation.

**(Total for Question 3 = 24 marks)**

**TOTAL FOR SECTION B = 24 MARKS**

SECTION C

GEOGRAPHICAL FIELDWORK AND SKILLS

Answer ONE question in this section – EITHER Question 4 OR Question 5.  
Write your answers in the spaces provided.

Some questions must be answered with a cross in a box ☒. If you change your mind about an answer, put a line through the box ☒ and then mark your new answer with a cross ☒.

Investigating Crowded Coasts

If you answer Question 4 put a cross in the box  .

4

A group of students studied erosion risk as part of a study into managing coastal change.

They started their investigation by researching maps (Figure 3a) and photos (Figure 3b) of the area they intended to study.

(a) Study Figures 3a and 3b.

State **three** ways the students could use this information to help them plan their investigation.

(b) Study Figure 3c.

The students used the recording sheet (Figure 3c) to investigate cliff stability and coastal erosion risk at different sites.

(i) Calculate the total number of recordings for the evidence of water in Figure 3c.

(1)

(ii) Identify the modal class for the weathering results in Figure 3c.

(1)

- A Extremely weathered
- B Very weathered
- C Some weathering
- D Slightly weathered

(iii) Explain **two** ways in which the design of the recording sheet, shown in Figure 3c, could be improved.

(4)

1 .....

.....

.....

.....

2 .....

.....

.....

.....

(c) Explain **one** way that GIS can be used to help analyse the results from coastal fieldwork.

(3)

## Investigating Urban Problems, Planning and Regeneration

If you answer Question 5 put a cross in the box  .

5

A group of students studied the impacts of a regeneration scheme as part of a study into urban regeneration.

They started their investigation by researching maps (Figure 4a) and photos (Figure 4b) of the area they intended to study.

(a) Study Figures 4a and 4b.

State **three** ways the students could use this information to help them plan their investigation.

(3)

1

2

3

(b) Study Figure 4c.

The students used the recording sheet (Figure 4c) as a way of measuring urban housing quality.

(i) Calculate the total number of recordings for the evidence of litter in Figure 4c.

(1)

(ii) Identify the modal class for the building weathering results in Figure 4c.

(1)

- A** Extremely weathered
- B** Very weathered
- C** Some weathering
- D** Slightly weathered

P 5 4 9 7 8 A 0 1 3 1 6

(iii) Explain **two** ways in which the design of the recording sheet, shown in Figure 4c, could be improved.

(4)

1 .....

.....

.....

.....

2 .....

.....

.....

.....

(c) Explain **one** way that GIS can be used to help analyse the results from urban fieldwork.

(3)

.....

.....

.....

.....

.....

.....
