PAPER 2: Geographical Investigations

You must have:

Resource Booklet (enclosed)

Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions in **Sections A** and **B**.
- In **Section C** answer **EITHER Question 4 OR Question 5**.
- Answer the questions in the spaces provided
– *there may be more space than you need.*
- Calculators may be used.

Information

- The total mark for this paper is 60.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.
- Good luck with your examination.

Pearson

SECTION A
Crowded Coasts

Answer ALL questions in this section. Write your answers in the spaces provided.

1 Study Figure 1 in the Resource Booklet.

(a) (i) Identify landforms A and B.

(2)

A

B

(ii) Explain **one** way destructive waves cause steep beach profiles.

(2)

.....

.....

.....

.....

DO NOT WRITE IN THIS AREA

Area with horizontal dotted lines for writing.

(Total for Question 1 = 12 marks)

Urban Problems, Planning and Regeneration

2 Study Figure 2.

(a) (i) Identify the number of the bus stop with:

(2)

Lowest life expectancy for women:

Highest life expectancy for men:

(ii) Suggest **one** reason for the difference in life expectancy shown along the bus route in Figure 2.

(2)

(Total for Question 2 = 12 marks)

TOTAL FOR SECTION A = 24 MARKS

SECTION B

Compulsory Fieldwork Section

Answer ALL questions in this section. Write your answers in the spaces provided.

3 You have undertaken geography fieldwork as part of your course.

Use this experience to answer Question 3.

State the title or question of your fieldwork investigation:

.....
.....

(a) Explain why the location you selected was suitable for your fieldwork investigation.

(4)

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

(b) Explain the relevance of **one** secondary information source to your investigation.

(2)

Secondary information source

(Total for Question 3 = 24 marks)

TOTAL FOR SECTION B = 24 MARKS

SECTION C

Geographical Fieldwork and Skills

Answer ONE question in this section – EITHER Question 4 OR Question 5.

Write your answers in the spaces provided.

Investigating Crowded Coasts

If you answer Question 4 put a cross in the box .

4 Study Figure 3a in the Resource Booklet.

A group of students studied a sand dune as part of a study of coastal ecosystems. They used the model, Figure 3a, to help them plan their fieldwork.

(a) (i) Explain how Figure 3a could help the students plan their fieldwork. (4)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

(ii) Explain **one** advantage of using GIS as part of a geographical investigation. (2)

.....

.....

.....

.....

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

(b) Study Figure 3b in the Resource Booklet.

Another group of students carried out an evaluation of coastal defences.
They took photographs of the coastal defences.

(i) Calculate the median for their recorded scores.

Show all your working.

Give your answer to **one** decimal place.

(2)

(ii) Explain **one** disadvantage of the design of the recording sheet in Figure 3b.

(2)

Study Figure 3c in the Resource Booklet.

(c) Using evidence from Figure 3c, suggest **one** reason why the students concluded that this coastal management scheme may be unsustainable.

(2)

(Total for Question 4 = 12 marks)

Investigating Urban Problems, Planning and Regeneration

If you answer Question 5 put a cross in the box .

5 Study Figure 4a in the Resource Booklet.

A group of students studied air pollution as part of a study of transport problems. They used the model, Figure 4a, to help them plan their fieldwork.

(a) (i) Explain how Figure 4a could help the students plan their fieldwork.

(4)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

(ii) Explain **one** advantage of using GIS as part of a geographical investigation.

DO NOT WRITE IN THIS AREA

(b) Study Figure 4b in the Resource Booklet.

Another group of students carried out an evaluation of a main road.
They took photographs of the road infrastructure.

(i) Calculate the median for their recorded scores.

Show all your working.

Give your answer to **one** decimal place.

(2)

(ii) Explain **one** disadvantage of the design of the recording sheet in Figure 4b.

(2)

Study Figure 4c in the Resource Booklet.

(c) Using evidence from Figure 4c, suggest **one** reason why the students concluded that this urban development may be unsustainable.

(2)

(Total for Question 5 = 12 marks)

TOTAL FOR SECTION C = 12 MARKS

Figure 3a

A model of expected vegetation across a sand dune ecosystem

Location: Salmiya, Kuwait	Date: June 2020	
Sea defence descriptor	Maximum score*	Recorded score
Vulnerability to erosion	50	25
Life expectancy	20	15
Impact on physical coastal processes	20	18
Vulnerability to over-topping by the sea	50	48
Visual impact	10	9
Impact on coastal ecosystems	20	18
Construction impacts from transport	10	6
Use of local building materials	20	4

*** Score varies from 0–10, 0–20 or 0–50 depending on weighting. The highest scores are the best scores for that category.**

Figure 4a

A model of traffic flow rates, weekdays and weekends, during a 24 hour-period

Location: Near Dubai Marina, UAE	Date: June 2020	
Transport descriptor	Maximum score*	Recorded score
Safety for passengers	50	25
Passenger comfort level (temperature)	20	15
Passenger comfort level (availability of seats)	20	18
Frequency of service	50	48
Service reliability	10	9
Speed of transport system	20	18
Transport system connectivity	10	6
Cost of transport system	20	4

**** Score varies from 0–10, 0–20 or 0–50 depending on weighting.
The highest scores are the best scores for that category.***
