PAPER 2: Geographical Investigations

You must have:
Resource Booklet (enclosed)

Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions in **Sections A and B**.
- In **Section C** answer **EITHER Question 4 OR Question 5**.
- Answer the questions in the spaces provided
– *there may be more space than you need.*

Information

- The total mark for this paper is 60.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*
- Calculators may be used.

Advice

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.

Pearson

SECTION A
Crowded Coasts

Answer ALL questions in this section. Write your answers in the spaces provided.

1 Study Figure 1 in the Resource Booklet.

(a) (i) Identify the coastal mass movements labelled A and B.

(2)

A.....

B.....

(ii) Explain **one** geological factor that affects coastal mass movement.

(2)

.....

.....

.....

.....

(b) Examine the severity of threats to coastal ecosystems.

(8)

Dotted lines for writing.

(Total for Question 1 = 12 marks)

Urban Problems, Planning and Regeneration

2 Study Figure 2 in the Resource Booklet.

(a) (i) Identify **two** pieces of evidence that show this area is being regenerated.

(2)

1

2

(ii) Suggest **one** reason why regeneration is needed in areas such as this.

(2)

.....

.....

.....

.....

SECTION B

Compulsory Fieldwork Section

Answer ALL questions in this section. Write your answers in the spaces provided.

3 You have undertaken geography fieldwork as part of the course.

Use this experience to answer Question 3.

State the title or question of your geographical investigation:

.....
.....

(a) Explain how you managed **one** risk of the fieldwork part of your geographical investigation. (2)

.....
.....
.....
.....

(b) Explain how you used the **two** technologies below to plan your geographical investigation. (4)

The internet

(Total for Question 3 = 24 marks)

TOTAL FOR SECTION B = 24 MARKS

SECTION C

Geographical Fieldwork and Skills

Answer ONE question in this section – EITHER Question 4 OR Question 5.

Write your answers in the spaces provided.

Some questions must be answered with a cross in a box ☒. If you change your mind about an answer, put a line through the box ☒ and then mark your new answer with a cross ☒.

If you answer Question 4 put a cross in the box ☐ .

Investigating Crowded Coasts

- 4 A group of students studied the diversity of plants in a coastal zone as part of a wider study of coastal ecosystems.
- They sampled eight sites in two areas, A and B.
- At each site they counted the number of different plants found in a 1 metre square (1 m²) area.
- They then used a spreadsheet to calculate both the mean and the median for areas A and B.

Study Figure 3a.

Site number and number of different plant species (diversity)										
	1	2	3	4	5	6	7	8	Mean	Median
Area A	6	8	4	22	2	5	6	1	6.8	5.5
Area B	9	8	10	12	8	7	8	10	9.0	8.5

Figure 3a

A spreadsheet used to calculate the mean and median results

- (a) Explain **one** advantage of using the median value of plant diversity, rather than the mean value.

(2)

.....

.....

.....

.....

- (b) Explain the disadvantages of using social media as a source of secondary information about a coastal resort.

(3)

.....

.....

.....

.....

.....

.....

- (c) The students also carried out an activity survey of visitors to a coastal resort. They classified visitors by age and their preferred type of activity.

Study Figure 3b.

Visitors' preferred activities	Age category					Totals
	<20	25–30	31–40	45–50	>51	
Fishing	2	0	1	10	12	25
Jet skiing	28	X	19	16	2	80
Sailing	1	7	5	0	12	25
Swimming	15	19	6	32	18	90
Surfing	22	28	9	7	14	80
Totals	68	69	40	65	58	300

Figure 3b

Results of the activity survey, 21 August 2020

(i) Calculate the missing value (X) for jet skiing.

(1)

X =

(ii) Identify the modal age category for swimming.

(1)

<input type="checkbox"/>	A 25–30
<input type="checkbox"/>	B 31–40
<input type="checkbox"/>	C 45–50
<input type="checkbox"/>	D >51

(iii) Explain **one** reason why the information in Figure 3b may be unreliable.

(2)

.....

.....

.....

.....

(d) Explain **one** way sample size can affect the reliability of conclusions.

(3)

Investigating Urban Problems, Planning and Regeneration

If you answer Question 5 put a cross in the box .

- 5 A group of students studied the pedestrian flows in a city as part of a wider study of urban regeneration.
- They sampled eight sites in two areas, A and B.
- At each site they counted the number of people passing a point at every minute.
- They then used a spreadsheet to calculate both the mean and the median for areas A and B.

Study Figure 4a.

Site number and number of pedestrians										
	1	2	3	4	5	6	7	8	Mean	Median
Area A	6	8	4	22	2	5	6	1	6.8	5.5
Area B	9	8	10	12	8	7	8	10	9.0	8.5

Figure 4a

A spreadsheet used to calculate mean and median fieldwork results

- (a) Explain **one** advantage of using the median value of pedestrian flow, rather than the mean value.
