General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme and not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Section C

Question	Content and communication (AO2)
9	<p>The candidate should have referred to the following bullet points:</p> <ul style="list-style-type: none">• which aspects of the Sophie-Scholl School they find impressive and why.• how pupils in their school can work together with school management.• to what extent independent learning is positive.• whether computers are absolutely necessary for school education. <p>Indicative content:</p> <p>Candidates may comment on what pupils might gain from being involved in the management of the school through class duties and the class council. They may comment on the independent learning, the positive interactions between pupils and teachers, or on the use of new technologies in the classroom.</p> <p>Candidates may suggest, for example, what school councils can achieve in their schools, or how student groups can propose projects or energy saving measures to management. They might mention pupil-run behaviour management initiatives.</p> <p>Candidates may discuss that, when it is well-run, independent learning is extremely effective at letting young people follow their own interests and develop thinking, reasoning, reflection and teamwork skills. When it is badly run, however, young people can end up out of their depth, confused, uncertain how to proceed and misbehaving instead of learning.</p> <p>Candidates may consider that computers can provide a distraction to learning, but they may also consider that the modern world runs on computers, so young people need to learn how to use them. Exactly how much they should be used as a tool rather than books and paper could be debated.</p>
