General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

General guidance on using levels-based mark schemes

There are two levels-based mark grids to be applied to the essay. The mark grids are:

- content and communication (AO2)
- quality of language (Accuracy and range of lexis) (AO3).

Deciding on a marking band

- First of all, you must consider the essay as a whole and then decide which descriptors most closely match the answer and place it in that band. The descriptors for each band indicate the different features that will be seen in the student's answer for that band.
- When assigning a band, you must look at the overall quality of the essay and not focus disproportionately on small and specific parts where the student has not performed quite as well as the rest. If the answer covers different aspects of different bands of the mark scheme, you should use a 'best fit' approach for defining the band.

Using grids with a range of marks within bands

- Then, you must use the variability of the response to help decide the mark within the band that you have selected. For example, if the response is predominantly band 5-8 with a small amount of band 9-12 material, it would be placed in band 5-8 but be awarded a mark near the top of the band because of the band 9-12 content.
- You must modify the mark based on how securely the trait descriptors are met at that band.

Content and communication (AO2)

This mark grid assesses candidates' ability to understand and respond in writing to written language.

Question Number	Content and communication (AO2)
9	<p>The candidate should have referred to the following bullet points:</p> <ul style="list-style-type: none">• tus preocupaciones y aspiraciones relacionadas con tu futuro trabajo.• hasta qué punto es importante el dinero en un empleo.• tus experiencia laboral hasta ahora.• tus sugerencias para ayudar a los jóvenes a encontrar trabajo.
Mark	Descriptor
0	No rewardable material.
1 - 4	<ul style="list-style-type: none">• The candidate has shown minimal ability to express ideas relevant to the narrative, report or description required, and ideas hardly follow a logical sequence.• The piece is rarely coherent and there is so much digression that the overall theme or purpose of the piece is greatly obscured.
5 - 8	<ul style="list-style-type: none">• The candidate has shown some basic ability to express ideas in a form that would be comprehensible to a native reader, with only occasional evidence of ideas following a logical sequence.• The piece is occasionally coherent and while there is some digression from the topic, the overall theme or purpose is generally clear.
9 - 12	<ul style="list-style-type: none">• The candidate has shown a moderate ability to express ideas in a form that would be comprehensible to a native reader, and some evidence of ideas following a logical sequence.• The piece is sometimes coherent and there is digression from the topic, but the overall theme or purpose is clear.
13 - 16	<ul style="list-style-type: none">• The candidate has shown a good ability to express ideas in a form that would be comprehensible to a native reader, with much evidence of ideas following a logical sequence.• The piece is mostly coherent and while there may be occasional ambiguity or digression from the topic, these appear to be aberrations in an otherwise pertinent piece of work.

17 - 20	<ul style="list-style-type: none">• The candidate has shown an excellent ability to express ideas in a logical sequence, and errors do not interfere with the comprehension.• The piece is entirely coherent and while there may be very minor ambiguities or digression from the topic, the piece is confident, fluent, pertinent and purposeful.

Quality of language (Accuracy and range of lexis) (AO3)

The following mark grid assesses students' ability to apply grammar and syntax accurately, and the ability to use a range of lexis and structures.

Question number	Quality of language (AO3)
9	
Mark	Descriptor
0	No rewardable material.
1 - 4	<ul style="list-style-type: none">Limited range of vocabulary and grammatical structures, which are rarely used appropriately and effectively to address the needs of the task.Lexis and grammar may not be accurate, with a high degree of repetition.
5 - 8	<ul style="list-style-type: none">Adequate but predictable range of vocabulary and grammatical structures, only occasionally used appropriately and effectively to address the needs of the task.Lexis and grammar are occasionally accurate.
9 - 12	<ul style="list-style-type: none">Satisfactory range of vocabulary and grammatical structures, sometimes used appropriately and effectively to address the needs of the task.Good control of basic language, but there may be errors particularly with more complex structures/lexis.
13 - 16	<ul style="list-style-type: none">Good range of vocabulary and grammatical structures generally used appropriately and effectively to address the needs of the task.Only occasional lapses in lexical and grammatical control.
17 - 20	<ul style="list-style-type: none">Wide range of vocabulary and grammatical structures used appropriately and effectively to address the needs of the task.Very good control/accuracy with very few errors.
