Paper Reference **4EC1/01R**

Economics

Level 1/2

Paper 1: Microeconomics and Business Economics

You do not need any other materials.

Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided
– *there may be more space than you need.*
- Calculators may be used.
- You are advised to **show all your working out** with **your answer clearly identified** at the **end of your solution**.

Information

- The total mark for this paper is 80.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

Pearson

Answer ALL questions. Write your answers in the spaces provided.

Some questions must be answered with a cross in a box ☒. If you change your mind about an answer, put a line through the box ☒ and then mark your new answer with a cross ☒.

1 (a) Which **one** of the following is a feature of an oligopoly? (1)

- A Large firms dominate
- B Unique product
- C One firm dominates
- D No barriers to entry

(b) A firm has monthly total costs of \$150 000 and monthly fixed costs of \$90 000. If it produces 1,000 units, what are the monthly total variable costs for the firm? (1)

- A \$60
- B \$90
- C \$60 000
- D \$240 000

(c) What is meant by the term luxury good? (2)

Small but successful

Robert has been running a small business from a workshop in his own house for nine years. He has been carving door signs and gifts out of locally sourced wood. Rather than producing identical, standard items, he decided to only make products to meet the personal requirements of his customers. Each order is made specifically for them and reviews are very positive. Robert's success is due to a growing trend across the country as consumers increasingly prefer to buy locally sourced products.

(f) Calculate the price elasticity of supply for Robert's wooden door signs when the price increases by 5.2% and quantity supplied increases by 3.9%. You are advised to show your working.

(2)

Who should have the flu injection?

Flu is an unpredictable virus that can cause mild or unpleasant illness in most people. It can cause severe illness and even death among vulnerable groups, including older people, pregnant women and people with other health problems. These groups may, therefore, receive a free vaccination in the UK, to ensure they are protected against the virus. Although most people receive their vaccination from a public sector doctor, the UK Government has to pay private sector pharmacies to also provide this service. The cost to the UK Government of funding these vaccinations is over £100m per year.

(Source: adapted from <https://www.nhs.uk/conditions/vaccinations/who-should-have-flu-vaccine/>)

- (f) Explain **one** possible reason why the UK Government pays private sector pharmacies to provide the flu vaccination.

3 (a) Which **one** of the following may result in economic growth? (1)

- A Increasing unemployment
- B Decreasing government spending
- C Decreasing productivity
- D Increasing technological advancements

(b) Which **one** of the following is an example of an economic want? (1)

- A Food
- B Water
- C Shelter
- D Education

The total revenue of a printing firm is \$75 000 per month when it sells 100,000 newspapers. The price of a newspaper increases to \$0.85 and demand falls to 95,000 newspapers per month.

(c) Calculate the new total revenue. You are advised to show your working. (2)

.....

.....

.....

.....

.....

.....

(d) Using your answer to 3 (c), state the price elasticity of demand for newspapers. (1)

Figure 5 shows the market share in South America of search engine providers, between October 2016 and October 2017.

Figure 5

(Source: adapted from <http://gs.statcounter.com/search-engine-host-market-share/all/south-america#monthly-201610-201710-bar>)

Consumers do not pay to use search engines but firms pay to advertise on them. Google, because of the size of its market share, is considered to be a monopoly.

(c) With reference to the data above and your knowledge of economics, evaluate the extent to which firms can benefit from advertising on Google.
