

# Mark Scheme (Results)

November 2021

Pearson Edexcel International GCSE  
In Economics (4EC1)  
Paper 01 Microeconomics and Business  
Economics

## **Edexcel and BTEC Qualifications**

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at [www.edexcel.com](http://www.edexcel.com) or [www.btec.co.uk](http://www.btec.co.uk). Alternatively, you can get in touch with us using the details on our contact us page at [www.edexcel.com/contactus](http://www.edexcel.com/contactus)

## **Pearson: helping people progress, everywhere**

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: [www.pearson.com/uk](http://www.pearson.com/uk)

## General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

Question number	Answer	Mark
1(a)	<p style="text-align: center;"><b>A01 1 mark</b></p> <p>The only correct answer is:  <b>D</b> They may complete charitable work</p> <p>A is not correct because this would maximise their profit  B is not correct because this may help to maximise their profit  C is not correct because this alone does not determine profitability</p>	<b>(1)</b>

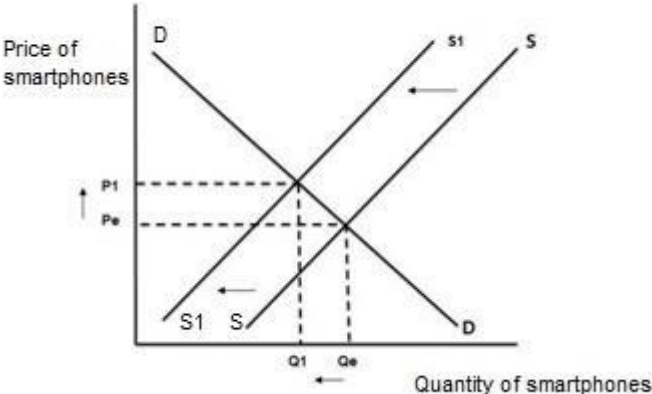

Question number	Answer	Mark
1(b)	<p style="text-align: center;"><b>A02 1 mark</b></p> <p>The only correct answer is:  <b>B</b> A normal good</p> <p>A is not correct because it has nothing to do with YED  C is not correct because the YED will be greater than 1  D is not correct because the YED will be negative</p>	<b>(1)</b>

Question number	Answer	Mark
1(c)	<p style="text-align: center;"><b>A01 2 marks</b></p> <p>Award 1 mark for reference to the amount of output and 1 mark for reference to the input</p> <p>The amount of output produced <b>(1)</b> in relation to the resources used <b>(1)</b></p> <p>Accept any other appropriate response</p>	<b>(2)</b>

Question number	Answer	Mark
1(d)	<p style="text-align: center;"><b>A01 1 mark</b></p> <p>Award 1 mark for correct formula</p> <p>Private costs + external costs</p>	<b>(1)</b>

Question number	Answer	Mark
1(e)	<p style="text-align: center;"><b>AO1 1 mark</b></p> <p>Award 1 mark for a correct definition</p> <p>A person/company/country that supplies goods and services</p> <p>Accept any other appropriate response</p>	<b>(1)</b>

Question number	Answer	Mark
1(f)	<p style="text-align: center;"><b>AO2 2 marks</b></p> <p>Award 1 mark for showing correct calculation  <math>50\,000 + (250 \times 750)</math> <b>(1)</b></p> <p>Award 1 mark for correct total costs  <math>= \\$237\,500</math> <b>(1)</b></p> <p>Award 2 marks if total costs per month are correctly calculated as \$237 500, even if no calculations are shown</p> <p>Award 1 mark if the answer given is 237 500, with or without calculations shown</p> <p>Do not award marks for a formula</p>	<b>(2)</b>

Question number	Answer	Mark
1(g)	<p style="text-align: center;"><b>AO2 3 marks</b></p> <p>Award 1 mark for leftward shift of supply, labelled  Award 1 mark for higher equilibrium price, labelled  Award 1 mark for lower equilibrium quantity, labelled</p> <div style="text-align: center;">  <p>The graph shows the market for smartphones. The vertical axis is labeled 'Price of smartphones' and the horizontal axis is labeled 'Quantity of smartphones'. A downward-sloping demand curve is labeled 'D'. Two upward-sloping supply curves are shown: the original supply curve 'S' and a new supply curve 'S1' shifted to the left. Arrows indicate the leftward shift from S to S1. The initial equilibrium is at the intersection of S and D, with price <math>P_e</math> and quantity <math>Q_e</math>. The new equilibrium is at the intersection of S1 and D, with a higher price <math>P_1</math> and a lower quantity <math>Q_1</math>. Dashed lines connect these equilibrium points to their respective price and quantity values on the axes.</p> </div>	<b>(3)</b>

Question number	Answer	Mark
1(h)	<p style="text-align: center;"><b>AO2 3 marks</b></p> <p>Award 1 mark for identifying a reason  Award 1 mark for developing the response  Award 1 mark for the response being in context</p> <ul style="list-style-type: none"> <li>• To protect consumer interests <b>(1)</b> because firms may charge higher than the 0.8% daily cap <b>(1)</b> causing financial harm to consumers <b>(1)</b></li> </ul> <p>Accept any other appropriate response</p>	<b>(3)</b>

Question number	Indicative content
1(i)	<p style="text-align: center;"><b>AO2 (3 marks)/AO3 (3 marks)</b></p> <p><b>AO2 and AO3</b></p> <ul style="list-style-type: none"> <li>• Economies of scale result in falling average costs due to expansion</li> <li>• Technical economies of scale occur when larger firms can make better use of machinery than smaller ones</li> <li>• As Cutting Edge attracted more customers, it received more work that may require use of a powerful saw</li> <li>• This means it was cost-effective to purchase the equipment because the resource could be used a lot more than when Cutting Edge was only asked to cut through a small number of trees</li> <li>• This is because the price of the powerful saw can be spread between more gardening jobs</li> </ul>

Level	Mark	Descriptor
	0	No rewardable material.
<b>Level 1</b>	1-2	<ul style="list-style-type: none"> <li>• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2).</li> <li>• Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).</li> </ul>
<b>Level 2</b>	3-4	<ul style="list-style-type: none"> <li>• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2).</li> <li>• Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).</li> </ul>
<b>Level 3</b>	5-6	<ul style="list-style-type: none"> <li>• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2).</li> <li>• Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).</li> </ul>

Question number	Answer	Mark
2(a)	<p style="text-align: center;"><b>AO2 1 mark</b></p> <p>The only correct answer is:  <b>B</b> X</p> <p>A is not correct because there will be no unemployed resources  C is not correct because it is not achievable  D is not correct because all resources will be fully employed</p>	<b>(1)</b>

Question number	Answer	Mark
2(b)	<p style="text-align: center;"><b>AO1 1 mark</b></p> <p>The only correct answer is:  <b>C</b> employee rights</p> <p>A is not correct because consumers are not members of the union  B is not correct because this is not the responsibility of a trade union  D is not correct because trade unions are independent of the government</p>	<b>(1)</b>

Question number	Answer	Mark
2(c)	<p style="text-align: center;"><b>AO1 1 mark</b></p> <p>Award 1 mark for a correct reason</p> <ul style="list-style-type: none"> <li>● Size of market</li> <li>● Nature of market (niche)</li> <li>● Lack of finance</li> <li>● Aims of the entrepreneur</li> </ul> <p>Accept any other appropriate response</p>	<b>(1)</b>

Question number	Answer	Mark
2(d)	<p style="text-align: center;"><b>AO2 2 marks</b></p> <p>Award 1 mark for showing correct calculation 2.7/4.9 <b>(1)</b></p> <p>Award 1 mark for correct PES = 0.55 <b>(1)</b></p> <p>Award 2 marks if PES is correctly calculated as 0.55, even if no calculations are shown</p> <p>Do not award marks for a formula</p>	<b>(2)</b>

Question number	Answer	Mark
2(e)	<p style="text-align: center;"><b>AO1 1 mark</b></p> <p>Award 1 mark for reference to a firm setting the market price</p> <p>A dominant firm sets the price in the market</p> <p>Accept any other appropriate response</p>	<b>(1)</b>

Question number	Answer	Mark
2(f)	<p style="text-align: center;"><b>AO1 2 marks</b></p> <p>Award 1 mark for reference to the reason and 1 mark for development of the reason</p> <p>A computer can be used to help make goods and services <b>(1)</b> therefore a computer is capital <b>(1)</b></p> <p>Accept any other appropriate response</p>	<b>(2)</b>

Question number	Answer	Mark
2(g)	<p style="text-align: center;"><b>A02 3 marks</b></p> <p>Award 1 mark for identifying a relevant factor  Award 1 mark for developing the response  Award 1 mark for the response being in context</p> <ul style="list-style-type: none"> <li>• Access to finance. <b>(1)</b> Abi would need to obtain more money to be able to move to larger premises. <b>(1)</b> She may not have enough/be able to borrow enough finance to fund the expansion <b>(1)</b></li> </ul> <p>Accept any other appropriate response</p>	<b>(3)</b>

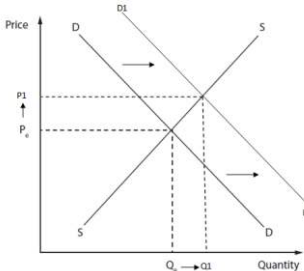

Question number	Indicative content
2(h)	<p style="text-align: center;"><b>AO2 (3 marks)/AO3 (3 marks)/AO4 (3 marks)</b></p> <p><b>AO2 and AO3</b></p> <ul style="list-style-type: none"> <li>● Negative externalities are spillover effects on third parties due to consumption/production</li> <li>● Pollution is an example of a negative externality because it is created by high volumes of traffic and has an external cost to people in Jakarta</li> <li>● One method of government intervention to reduce negative externalities is the use of regulation</li> <li>● These regulations will limit the amount of pollution produced and reduce the externalities</li> <li>● The Indonesian Government introduced the traffic-free regulation in an attempt to reduce pollution levels in Jakarta because less traffic should lead to less fumes being emitted into the environment</li> <li>● The regulation covers over 8 km of Jakarta's streets on a Sunday, meaning a section of the city is not subjected to the negative externality of traffic fumes during this time</li> <li>● In 2016 air-quality had improved by 65% since the regulations were introduced, meaning the regulations have been quite effective in reducing the negative externality</li> </ul> <p><b>AO4</b></p> <ul style="list-style-type: none"> <li>● However, there is no guarantee that the reduced pollution level is a direct result of the traffic-free regulation</li> <li>● Other measures may be in place such as the taxation on fuel</li> <li>● The effectiveness of the regulations depends on the level of enforcement from the government and cooperation from the public</li> <li>● The number of vehicles registered in the area is increasing, meaning that pollution is also likely to increase again</li> <li>● There are likely to be other factors causing pollution in the city, such as from factories</li> </ul>

Level	Mark	Descriptor
	0	No rewardable material.
<b>Level 1</b>	1-3	<ul style="list-style-type: none"> <li>• Demonstrates basic knowledge and understanding by developing relevant points. Limited application of economic terms, concepts, theories and calculations (AO2).</li> <li>• Information presented will lack selectivity and organisation. Interpretation of economic information will be limited, with a lack of analysis of issues (AO3).</li> <li>• Only offers one viewpoint, meaning there is an unbalanced and incomplete evaluation, showing limited understanding and awareness (AO4).</li> </ul>
<b>Level 2</b>	4-6	<ul style="list-style-type: none"> <li>• Demonstrates partial knowledge and understanding by developing relevant points. Partial application of economic terms, concepts, theories and calculations (AO2).</li> <li>• Information presented will demonstrate some selectivity and organisation. Interpretation of economic information will be good, with some analysis of issues (AO3).</li> <li>• Offers more than one viewpoint but the argument may lack balance, leading to an evaluation that may not demonstrate full understanding and awareness (AO4).</li> </ul>
<b>Level 3</b>	7-9	<ul style="list-style-type: none"> <li>• Demonstrates clear knowledge and understanding by developing relevant points. Appropriate application of economic terms, concepts, theories and calculations (AO2).</li> <li>• Information presented will demonstrate excellent selectivity and organisation. Interpretation of economic information will be excellent, with a thorough analysis of issues (AO3).</li> <li>• Offers more than one viewpoint. The argument is well balanced and coherent, leading to an evaluation that demonstrates full understanding and awareness (AO4).</li> </ul>

Question number	Answer	Mark
3(a)	<p style="text-align: center;"><b>AO1 1 mark</b></p> <p>The only correct answer is:  <b>C</b> Lack of information</p> <p>A is not correct because this will fill skills shortages  B is not correct because this will lead to greater efficiency  D is not correct because this improves productivity</p>	<b>(1)</b>

Question number	Answer	Mark
3(b)	<p style="text-align: center;"><b>AO1 1 mark</b></p> <p>The only correct answer is:  <b>D</b> Sales assistant</p> <p>A is not correct because this role is in the primary sector  B is not correct because this role is in the secondary sector  C is not correct because this role produces primary products</p>	<b>(1)</b>

Question number	Answer	Mark
3(c)	<p style="text-align: center;"><b>A02 3 marks</b></p> <p>Award 1 mark for drawing new wage rate, labelled  Award 1 mark for new quantity demanded, labelled  Award 1 mark for new quantity supplied, labelled</p>  <p>The diagram shows a labour market equilibrium. The vertical axis is labeled 'Wage rate' and the horizontal axis is labeled 'Quantity of workers employed'. A downward-sloping line is labeled 'Demand for labour' and an upward-sloping line is labeled 'Supply of labour'. The equilibrium point is marked with a horizontal dashed line to <math>W_e</math> and a vertical dashed line to <math>Q_e</math>. A new wage rate <math>W_1</math> is marked on the vertical axis, with a horizontal dashed line extending from it. This line intersects the 'Demand for labour' curve at quantity <math>Q_d</math> and the 'Supply of labour' curve at quantity <math>Q_s</math>. Vertical dashed lines connect <math>Q_d</math> and <math>Q_s</math> to the horizontal axis. The labels 'Supply of labour' and 'Demand for labour' are also placed near the respective curves on the horizontal axis.</p>	<b>(3)</b>

Question number	Indicative content
3(d)	<p style="text-align: center;"><b>AO2 (3 marks)/AO3 (3 marks)</b></p> <p><b>AO2 and AO3</b></p> <ul style="list-style-type: none"> <li>● A demand curve shows how much of a good will be purchased at different prices</li> <li>● Advertising is one of the factors likely to shift a demand curve to the right (increase in quantity demanded)</li> <li>● Possible use of a diagram:           <div style="text-align: center;">  </div> </li> <li>● Worldwide advertising during a popular event, such as an international cricket match, may encourage consumers to purchase Pepsi due to greater awareness and brand loyalty, therefore increasing the quantity demanded</li> <li>● The quantity of Pepsi demanded is likely to have increased as a result of the advertising (from <math>Q_e</math> to <math>Q_1</math>) because consumers of soft drinks may be influenced by the adverts and make an association between Pepsi and the cricket</li> </ul>

Level	Mark	Descriptor
