Pearson Edexcel International GCSE
In Mathematics A (4MA1) Paper 2FR

Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at www.edexcel.com or www.btec.co.uk. Alternatively, you can get in touch with us using the details on our contact us page at www.edexcel.com/contactus.

Pearson: helping people progress, everywhere

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.

- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.

- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.

- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.

- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.

- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.

- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.

- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

International GCSE Maths

Apart from question 15b (where the mark scheme states otherwise) the correct answer, unless clearly obtained from an incorrect method, should be taken to imply a correct method.

Question		Working	Answer	Mark	Notes
1	(a)		8543	1	B1
	(b)		4 digits ending in 5	1	B1 e.g. 3845, 8345 etc
	(c)		3485	1	B1
					Total 3 marks

Question		Working	Answer	Mark	Notes
2	(a)		0.8	1	B1
	(b)		$8\frac{5}{9}$	1	B1
	(c)		$\frac{7}{9}$	1	B1
	(d)		4.013, 4.02, 4.807, 4.81, 4.85	1	B1
	(e)	$0.65 + 0.72$ or $\frac{65}{100}+\frac{72}{100}$ or $\frac{13}{20}+0.72$ oe	1.37	2	M1 or $\frac{137}{100}$ A1
