2.1

The following text is adapted from Nathaniel Hawthorne’s 1837 story “Dr. Heidegger’s Experiment.” The main character, a physician, is experimenting with rehydrating a dried flower.

At first [the rose] lay lightly on the surface of the fluid, appearing to imbibe none of its moisture. Soon, however, a singular change began to be visible. The crushed and dried petals stirred and assumed a deepening tinge of crimson, as if the flower were reviving from a deathlike slumber.

As used in the text, what does the phrase “a singular” most nearly mean?

- A. A lonely
- B. A disagreeable
- C. An acceptable
- D. An extraordinary

ID: 359902ae Answer

Correct Answer: D

Rationale

Choice D is the best answer because as used in the text, “singular” most nearly means extraordinary. The text portrays an experiment in which a character rehydrates a dried rose by infusing it with moisture. After prolonged contact with the liquid, the rose begins to absorb it, undergoing an exceptional transformation: its color deepens, its previously “crushed and dried” petals shift, and the entire flower revives “from a deathlike slumber.” In other words, an extraordinary change is visible in the flower.

Choice A is incorrect. Although in some contexts “singular” can mean of or relating to an individual or to a single instance of something, this usage doesn’t imply loneliness or an otherwise unsatisfactory condition of isolation. Moreover, the text doesn’t attribute such a condition to the rose. Choice B is incorrect. Although “singular” has several related meanings, none of them relate to being disagreeable or unpleasant. Moreover, the text doesn’t portray the change undergone by the rose as necessarily disagreeable. Choice C is incorrect because “singular” means extraordinary, not acceptable. The change is portrayed as striking, not barely satisfactory.

2.2

The work of molecular biophysicist Enrique M. De La Cruz is known for _____ traditional boundaries between academic disciplines. The university laboratory that De La Cruz runs includes engineers, biologists, chemists, and physicists, and the research the lab produces makes use of insights and techniques from all those fields.

Which choice completes the text with the most logical and precise word or phrase?

- A. epitomizing
- B. transcending
- C. anticipating
- D. reinforcing

ID: 5a278f24 Answer

Correct Answer: B

Rationale

Choice B is the best answer. Based on the text, we're looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." "Transcending" means "going beyond," so "transcending traditional boundaries" would mean crossing into all those various fields of research, which is exactly the meaning we want.

Choice A is incorrect. This isn't a logical word choice. Based on the text, we're looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." To "epitomize" means to "be a perfect example of," so "epitomizing traditional boundaries" would mean the opposite of what we want: keeping the fields of research separate. Choice C is incorrect. This isn't a logical word choice. Based on the text, we're looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." "Anticipating" means "expecting" or "waiting for," and would result in a confusing sentence with an unclear meaning. Choice D is incorrect. This isn't a logical word choice. Based on the text, we're looking for a word that means something similar to "mak[ing] use of insights and techniques from all those fields." "Reinforcing traditional boundaries" would mean the opposite: keeping the fields of research separate.

2.3

The following text is from F. Scott Fitzgerald’s 1925 novel *The Great Gatsby*.

[Jay Gatsby] was balancing himself on the dashboard of his car with that resourcefulness of movement that is so peculiarly American—that comes, I suppose, with the absence of lifting work in youth and, even more, with the formless grace of our nervous, sporadic games. This quality was continually breaking through his punctilious manner in the shape of restlessness.

As used in the text, what does the word “quality” most nearly mean?

- A. Standard
- B. Prestige
- C. Characteristic
- D. Accomplishment

ID: 9aa44886 Answer

Correct Answer: C

Rationale

Choice C is the best answer. “This quality” refers to Gatsby’s “resourcefulness of movement,” which is described as a characteristic or trait of his.

Choice A is incorrect. This isn’t what “quality” means in this context. Here, “this quality” refers to Gatsby’s “resourcefulness of movement,” which is described as a characteristic or trait of his. “Standard” is a synonym for a different definition of “quality”: the degree of excellence of something. Choice B is incorrect. This isn’t what “quality” means in this context. Here, “this quality” refers to Gatsby’s “resourcefulness of movement,” which is described as a characteristic or trait of his. “Prestige” would suggest a high status or an admirable reputation, which doesn’t match that description. Choice D is incorrect. This isn’t what “quality” means in this context. Here, “this quality” refers to Gatsby’s “resourcefulness of movement,” which is described as a characteristic or trait of his. “Accomplishment” would suggest an achievement, which doesn’t match that description.

2.4

To develop a method for measuring snow depth with laser beams, NASA physicist Yongxiang Hu relied on _____; identifying broad similarities between two seemingly different phenomena, Hu used information about how ants move inside colonies to calculate how the particles of light that make up laser beams travel through snow.

Which choice completes the text with the most logical and precise word or phrase?

- A. a collaboration
- B. an accessory
- C. a contradiction
- D. an analogy

ID: e8c26398 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The text after the semicolon tells us that Hu "identif[ied] broad similarities between two seemingly different phenomena," comparing ants with light particles. Since an analogy seeks similarities between seemingly unrelated phenomena, this fits the context perfectly.

Choice A is incorrect. "A collaboration" refers to "an act of working with others," but what comes after the semicolon doesn't describe collaboration with other researchers. Instead, it shows a comparison between two different (but ultimately similar) scientific phenomena. Choice B is incorrect. "An accessory" can refer to "something added to increase attractiveness or usefulness." No accessories are described in this text. Choice C is incorrect. "A contradiction" means "a set of ideas or things that are opposed to or inconsistent with each other." The text describes how Hu used the similarity between ant and light particle movement to develop his method, so a word that refers to difference would not make sense here.

2.5

A journalist and well-respected art critic of nineteenth-century Britain, Lady Elizabeth Rigby Eastlake did not hesitate to publish reviews that went against popular opinion. One of her most divisive works was an essay questioning the idea of photography as an emerging medium for fine art: in the essay, Eastlake _____ that the value of photographs was informational rather than creative.

Which choice completes the text with the most logical and precise word or phrase?

- A. exposed
- B. asserted
- C. discovered
- D. doubted

ID: 8b46bb51 Answer

Correct Answer: B

Rationale

Choice B is the best answer. "Asserted" means "stated confidently." Eastlake "did not hesitate to publish reviews going against popular opinion," so we can assume that she was confident in sharing her opinions.

Choice A is incorrect. "Exposed" means "made visible by uncovering" and, when talking about ideas, tends to be used in relation to uncovering the truth. Eastlake was sharing an opinion, not uncovering a truth. Choice C is incorrect. "Discovered" means "found," but Eastlake was writing an opinion essay. She was writing her own opinion, not "discovering" a new universal truth. Choice D is incorrect. "Doubted" means "didn't believe in." We're told that Eastlake "questioned" the idea that photography could be fine art. Placing "doubted" in the blank would actually suggest that Eastlake argued that photos were valuable for creativity and not for information, which is the opposite of what we were told she believes.

2.6

Stephen Hannock’s luminous landscape paintings are appealing to viewers but have elicited little commentary from contemporary critics, a phenomenon that may be due to the very fact that the paintings seem so _____. Many critics focus their attention on art that is cryptic or overtly challenging.

Which choice completes the text with the most logical and precise word or phrase?

- A. innovative
- B. subversive
- C. profound
- D. accessible

ID: d3ca5d59 Answer

Correct Answer: D

Rationale

Choice D is the best answer. When talking about a thing, “accessible” means “easy to understand.” This sets up the contrast in the next sentence, which tells us that critics mostly focus on art that is “cryptic or challenging” (meaning not easy to understand).

Choice A is incorrect. This doesn’t fit the logic of the text. The next sentence tells us that critics focus on art that is mysterious and challenging. If Hannock’s paintings are “innovative” (meaning advanced and original), then critics probably would comment on them. Choice B is incorrect. This doesn’t fit the logic of the text. The next sentence tells us that critics focus on art that is mysterious and challenging. If Hannock’s paintings are “subversive” (meaning disruptive and revolutionary), then critics probably would comment on them. Choice C is incorrect. This doesn’t fit the logic of the text. The next sentence tells us that critics focus on art that is mysterious and challenging. If Hannock’s paintings are “profound” (meaning very deep and insightful), then critics probably would comment on them.

2.7

In 2008 a complete set of ancient *pessoi* (glass game pieces) was uncovered from beneath a paving stone in modern-day Israel. Due to their small size, *pessoi* were easily misplaced, making a whole set a rare find. This has led some experts to suggest that the set may have been buried intentionally; however, without clear evidence, archaeologists are left to _____ what happened.

Which choice completes the text with the most logical and precise word or phrase?

- A. speculate about
- B. dismiss
- C. expand on
- D. catalog

ID: fce80a36 Answer

Correct Answer: A

Rationale

Choice A is the best answer. "Speculate" means "to form a theory or guess without any clear evidence." This makes sense because, due to the lack of "clear evidence," the archaeologists can only guess how the *pessoi* set might have come to be there.

Choice B is incorrect. "Dismiss" can mean "send away" or "treat as unworthy of consideration." The text implies that the archaeologists are trying to figure out the truth—they wouldn't "dismiss" what really happened. Choice C is incorrect. "Expand on" means "give more details about," but there aren't any details to give. Without any "clear evidence," the archaeologists can't give any more details. Choice D is incorrect. "Catalog" means "carefully record" or "make a list of." However, there's no "clear evidence," so there's no real information to "catalog."

Question Difficulty: Medium

Question ID 62a18353

2.8

The following text is adapted from Zora Neale Hurston’s 1921 short story “John Redding Goes to Sea.” John wants to travel far beyond the village where he lives near his mother, Matty.

[John] had on several occasions attempted to reconcile his mother to the notion, but found it a difficult task. Matty always took refuge in self-pity and tears. Her son’s desires were incomprehensible to her, that was all.

As used in the text, what does the phrase “reconcile his mother to” most nearly mean?

- A. Get his mother to accept
- B. Get his mother to apologize for
- C. Get his mother to match
- D. Get his mother to reunite with

ID: 62a18353 Answer

Correct Answer: A

Rationale

Choice A is the best answer. The expression “reconcile to” means “to cause (a person) to accept something difficult or disagreeable.” The text suggests that John wants his mother to accept his desire to travel, even though she doesn’t like that idea.

Choice B is incorrect. This doesn’t make sense. John doesn’t want his mother to apologize for his own desire to travel—he wants her to accept his desire to travel. Choice C is incorrect. The text doesn’t suggest that John wants his mother to match his desire to travel. Rather, he wants her to accept his desire to travel even though she doesn’t like it. Choice D is incorrect. This is tempting, because it seems to pick up on the idea of people “reconciling” after a fight, but it actually doesn’t make sense. The text never suggests that John’s mother was “united with” the idea of him traveling in the past—if anything, it seems like she’s always been against it. Besides, it would be strange to say that a person “reunites with” a notion.

2.9

Business researcher Melanie Brucks and colleagues found that remote video conference meetings may be less conducive to brainstorming than in-person meetings are. The researchers suspect that video meeting participants are focused on staring at the speaker on the screen and don’t allow their eyes or mind to wander as much, which may ultimately _____ creativity.

Which choice completes the text with the most logical and precise word or phrase?

- A. recommend
- B. criticize
- C. impede
- D. construct

ID: d8d1ecaa Answer

Correct Answer: C

Rationale

Choice C is the best answer. The first sentence tells us that video meetings are “less conducive to” (meaning less good for) brainstorming. This suggests that the video meeting participants’ focus is bad for their creativity. “Impede” means “delay” or “prevent,” which works perfectly in this context.

Choice A is incorrect. This choice is too positive to fit the context. The first sentence tells us that video meetings are “less conducive to” (meaning less good for) brainstorming. This suggests that the video meeting participants’ focus is bad for their creativity. Choice B is incorrect. This choice doesn’t make sense. The participants’ intense focus on the screen is the subject of the missing verb. It wouldn’t make sense to say that their over-focusing “criticizes” their creativity. Choice D is incorrect. “Construct” means “build” or “make,” which is too positive to fit the context. The first sentence tells us that video meetings are “less conducive to” (meaning less good for) brainstorming. This suggests that the video meeting participants’ focus is bad for their creativity.

2.10

Mineralogical differences are detectable in samples collected from two locations on the near-Earth asteroid Ryugu, but such differences may not indicate substantial compositional variations in the asteroid. Cosmochemist Kazuhide Nagashima and colleagues note that at the small scale of the samples, the distribution of minerals is unlikely to be _____.

Which choice completes the text with the most logical and precise word or phrase?

- A. neglected
- B. redundant
- C. ongoing
- D. uniform

ID: bce627d9 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The text tells us that the samples are too "small scale" to reflect the composition of the asteroid, which probably doesn't show the same variation on a large scale. This suggests that the mineral composition of the samples are unlikely to be exactly the same from sample to sample.

Choice A is incorrect. "Neglected" means "suffering a lack of proper care" or "abandoned," which doesn't work here. The text never suggests that the distribution of minerals in the samples would be neglected, so this statement doesn't logically follow. Choice B is incorrect. "Redundant" means "not or no longer useful or needed," which is too strong. The text doesn't suggest that the variation between the samples isn't a useful finding at all—just that we can't assume that the large-scale composition of the asteroid will show the same variation. But the composition of the samples might be useful for something else. Choice C is incorrect. "Ongoing" means "still in progress," which doesn't make sense: the distribution of minerals in a sample can't be "ongoing."

Question Difficulty: Medium

Question ID d4e8662d

2.11

The percentage of US forest land that a 2023 federal report identified as being either mature or old growth exceeds other recent estimates. Given how little _____ there is among scientists regarding the scope of these categories, this discrepancy shouldn't be surprising: forest researchers regularly dispute one another's classifications.

Which choice completes the text with the most logical and precise word or phrase?

- A. deliberation
- B. vigilance
- C. interest
- D. consensus

ID: d4e8662d Answer

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text's discussion of US forest land classifications. In this context, "consensus" means agreement. The text indicates that a percentage given in a US forest land report differs from other estimates and that this discrepancy isn't surprising, given that forest researchers regularly dispute one another's classifications of parts of US forest land as either mature or old growth. This context conveys that there is little agreement when it comes to these categories.

Choice A is incorrect because the text states that there is often dispute among forest researchers about classifications of US forest land as either mature or old growth, which directly indicates that when it comes to these categories, there is much "deliberation," or discussion and consideration, not little deliberation. Choice B is incorrect because the text indicates that there is often dispute among forest researchers about classifications of US forest land as either mature or old growth; this doesn't imply that there is little "vigilance," or careful attention, among researchers when it comes to these categories but rather conveys that researchers do pay attention to forest land classifications and question one another's decisions. Choice C is incorrect because the text indicates that there is often dispute among forest researchers about classifications of US forest land as either mature or old growth; this doesn't imply that there is little "interest," or concern, among researchers when it comes to these categories but rather conveys that researchers are concerned with forest land classifications and pay attention to one another's classifications.

Question Difficulty: Medium

Question ID b44066dc

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	<div><div></div><div></div><div></div></div>

ID: b44066dc

2.12

Economist Jingting Fan argues that the effects of international trade may display spatial variation at sub-national levels. For instance, imported goods may reduce expenses for a country’s average consumer, but for consumers living far from ports, high intranational transport costs could _____ the price advantages associated with imports.

Which choice completes the text with the most logical and precise word or phrase?

- A. nullify
- B. denigrate
- C. underestimate
- D. misconstrue

ID: b44066dc Answer

Correct Answer: A

Rationale

Choice A is the best answer because it logically completes the text’s discussion of imported goods and consumer prices. In this context, "nullify" most nearly means negate or undermine. The text indicates that importing goods to a country can reduce consumer prices in that country, then cautions that the costs of transporting goods within the country is also a factor. These transportation costs likely raise the prices that must be paid by people who live far from the ports of entry. Therefore, the intranational transportation costs could nullify the price advantages to consumers of importing goods.

Choice B is incorrect. In this context, "denigrate" would most nearly mean disparage or deny the importance of. Since transportation costs would not be capable of denying the importance of price advantages, it would not make sense to state that intranational transportation costs denigrate the price advantages of importing goods. Choice C is incorrect. In this context, "underestimate" would most nearly mean predict a lower value for, or to undervalue, someone or something. Though transportation costs might be undervalued, they cannot themselves undervalue something else, so it would not make sense to state that intranational transportation costs underestimate the price advantages of importing goods. Choice D is incorrect. In this context, "misconstrue" would most nearly mean misunderstand. Since transport costs are not capable of understanding, it would not make sense to claim that intranational transportation costs misconstrue the price advantages of importing goods.

Question Difficulty: Medium

Question ID 9107ad5c

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	<div><div></div><div></div><div></div></div>

ID: 9107ad5c

2.13

Stars form in cloudlike swirls of gas and dust that cannot be touched, but astrophysicist Nia Imara believes these formations need not remain completely _____ to researchers: she uses simulation data and sophisticated 3D printers to produce interactive models of these stellar nurseries.

Which choice completes the text with the most logical and precise word or phrase?

- A. repeatable
- B. explicable
- C. regrettable
- D. intangible

ID: 9107ad5c Answer

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of how Nia Imara facilitates the study of star formations. As used in this context "intangible" means unable to be physically handled or touched. The text states that star formations cannot be touched, and then goes on to explain that Imara created a special model to research star formations. In other words, despite the fact that real star formations are intangible, thanks to Imara, researchers can handle models of star formations to better understand them.

Choice A is incorrect because "repeatable" means can be duplicated or done again, which wouldn’t make sense in context. The text indicates that the swirls of gas and dust in which stars form are untouchable, but that Nia Imara has produced interactive models of them. It would therefore be illogical to suggest that Imara believes that the formations need not be duplicated and then go on to say that she has copied them. Choice B is incorrect because "explicable" means explainable or understandable, which wouldn’t make sense in context. The text does not suggest that Nia Imara believes that star formations can be fully explained but rather that she produced interactive models to physically study them because researchers are unable to touch them directly. Choice C is incorrect because "regrettable" means distressing or unfortunate, which wouldn’t make sense in context. The text does not suggest that Imara believes the researchers regret the star formations or find them distressing, but rather that she uses interactive models to physically study them.

Question Difficulty: Medium
